Registrum Sive Liber Irrotularius Et Consuetudinarius Prioratus Beatae Mariae Wigorniensis Hale,1865

Bishop and Chapter in Twelfth-Century England Everett U. Crosby,2003-10-30 This book is the first detailed examination on a comparative basis of the economic and political relations between the bishops and their cathedral clergy in England during the century and a half after the Conquest In particular it is a study of the structure and historical development of the mensal endowments and the redistribution of wealth which led in the course of time to the establishment of the chapter as a largely independent body with substantial political power A description of the constitutional importance of the mensa and its treatment in recent scholarly writing is followed by a discussion of property rights and liberties in the church and the role of the bishop in ecclesiastical and civil government The core of the book consists of an analysis based on contemporary sources of the episcopal and capitular organisation in each of the ten monastic and seven secular sees

Medieval England Edward Miller,John Hatcher,2014-06-17 This is the first volume of a two volume study of medieval England covering the period between the Norman Conquest and the Black Death The book opens with a summary portrait of the English economy and society in the reign of William I It goes on to examine in detail the population increase from 1086 to 1349 and to investigate the structure of society where relationships were rooted in the dependence of man upon man

Domesday People: Domesday book K. S. B. Keats-Rohan,1999 Entries on persons living in post Conquest England 1066 1166 documented in Domesday book pipe rolls and Cartae Baronum Includes Continental origins family relationships and descent of fees *Bishops, Clerks, and Diocesan Governance in Thirteenth-Century England* Michael Burger,2012-10-22

This book investigates how bishops deployed reward and punishment to control their administrative subordinates in thirteenth century England Bishops had few effective avenues available to them for disciplining their clerks and rarely pursued them preferring to secure their service and loyalty through rewards The chief reward was the benefice often granted for life Episcopal administrators security of tenure in these benefices however made them free agents allowing them to transfer from diocese to diocese or even leave administration altogether they did not constitute a standing episcopal civil service This tenuous bureaucratic relationship made the personal relationship between bishop and clerk more important Ultimately many bishops communicated in terms of friendship with their administrators who responded with expressions of devotion Michael Burger s study brings together ecclesiastical social legal and cultural history producing the first synoptic study of thirteenth century English diocesan administration in decades His research provides an ecclesiastical counterpoint to numerous studies of bastard feudalism in secular contexts **The Architectural Setting of the Cult of Saints in the**

Early Christian West c.300-c.1200 John Crook,2000-01-13 This book explores the way in which church architecture from

the earliest centuries of Christianity has been shaped by holy bones the physical remains or relics of those whom the Church venerated as saints The Church s holy dead continued to exercise an influence on the living from beyond the grave and their earthly remains provided a focus for prayer The memoriae house churches and crypts of early Christian Rome the elaborately decorated monuments containing the bodies of the bishops of Merovingian Gaul the revival of ring crypts in the Carshingian empire the crypts tomb shrines and later high shrines of medieval England all demonstrate how the presence of a holy body within a church influenced its very architecture This is the first complete modern study of this hitherto somewhat neglected aspect of medieval church architecture in western Europe
