Regula Monachorum:

The Divine Office in the Latin Middle Ages Margot E. Fassler, Rebecca A. Baltzer, 2000-08-17 The Divine Office the cycle of daily worship other than the Mass is the richest source of liturgical texts and music from the Latin Middle Ages However its richness the great diversity of its manuscripts and its many variations from community to community have made it difficult to study and it remains largely unexplored terrain This volume is a practical guide to the Divine Office for students and scholars throughout the field of medieval studies The book surveys the many questions related to the Office and presents the leading analytical tools and research methods now used in the field Beginning with the Office in the early Middle Ages the book covers manuscript sources and their contents regional developments and variations the relationship between the Office the Mass and other ceremonies and repertories and the deep links between the Office and medieval hagiography The book concludes with a discussion of recent technical advances for handling the enormous amounts of evidence on the Office and its performance in particular CANTUS the vast electronic database developed by Ruth Steiner of Catholic University for the analysis of chant repertories The Divine Office in the Latin Middle Ages is an essential resource for anyone studying medieval liturgy Its accessible style and broad coverage make it an important basic reference for a wide range of students and

Intercessory Prayer and the Monastic Ideal in the Time of the Carolingian Reforms Renie S. Choy,2016-11-17 In early medieval Europe monasticism constituted a significant force in society because the prayers of the religious on behalf of others featured as powerful currency The study of this phenomenon is at once full of potential and peril rightly drawing attention to the wider social involvement of an otherwise exclusive group but also describing a religious community in terms of its service provision Previous scholarship has focused on the supply and demand of prayer within the medieval economy of power patronage and gift exchange Intercessory Prayer and the Monastic Ideal in the Time of the Carolingian Reforms is the first volume to explain how this transactional dimension of prayer factored into monastic spirituality Renie S Choy uncovers the relationship between the intercessory function of monasteries and the ascetic concern for moral conversion in the minds of prominent religious leaders active between c 750 820 Through sustained analysis of the devotional thought of Benedict of Aniane and contemporaneous religious reformers during the reigns of Charlemagne and Louis the Pious Choy examines key topics in the study of Carolingian monasticism liturgical organization and the intercessory performances of the Mass and the Divine Office monastic theology and relationships of prayer within monastic communities and with the world outside Arguing that monastic leaders showed new interest on the intersection between the interiority of prayer and the functional world of social relationships this study reveals the ascetic ideal undergirding the provision of intercessory prayer by monasteries
