Regulated Streams J. Craig, 2012-12-06 *The Ecology of Regulated Streams* James Ward, 2013-06-29 The idea for an international symposium on regulated streams was conceived over an open faced sandwich at the R these funds permitted intellectual exchange between scientists from eight countries on four continents We extend personal thanks to Dr K W Stewart President of NABS and the NABS Program Committee including Drs E C Masteller E R Brezina and W P Kovalak These individuals and other officers and members of the Executive Committee assisted us with the many details leading to organization and staging of a scientific forum Discussions with Dr John Cairns Jr and Dr G Richard Marzolf during the early planning stage were most helpful

Regulated Streamflow and Warmwater Stream Fish Mark B. Bain, Jeffrey M. Bolz, 1989 *Alternatives in Regulated River Management* James A. Gore, 2018-01-18 Researchers and managers of regulated river systems will find this volume useful in acquiring information for deciding an integrated management plan for regulated river operations Rather than the ecological theory of impacts of flow regulation emphasis has been placed on methods to predict water quality and habitat alterations as well as techniques to mitigate impacts from various operational scenarios Although most chapters refer to impacts of riverine impoundments these alternatives apply to any regulated situation in which changes in water quality or flow pattern occur The predictive modeling techniques are explained primarily from a theoretical background However extensive bibliographies can guide the uninitiated to specific texts and software Where controversial techniques have been presented alternate methods are also described Major topic areas include water quality problems channel modification and management ecological modeling and management as well as a section on perspectives for ecological management and special problems in developing nations
