Regulating Religion Case Studies From Around The Globe Critical Issues In Social Justice:

Regulating Religion James T. Richardson, 2004 Regulation of minority faiths varies greatly around the globe with some countries allowing them considerable freedom to exist recruit new members raise money and use public facilities Other societies are more closed to the presence of such groups either native or foreign The pattern of reactions to minority religious movements is not easily explained by reference to usual terms Knowledge of historical factors in the various countries coupled with a use of selected theories from sociology of religion and sociology of law can assist understanding of the situation in various countries Explicating these complex relationships is the challenge of this volume *Regulating Religion Case Studies from Around the Globe* presents through the inclusion of contributions by international scholars a global examination of how a number of contemporary societies are regulating religious groups It focuses on legal efforts to exert social control over such groups especially through court cases but also with selected major legislative attempts to regulate them As such this analysis falls within the broad area of the sociology of social control and more specifically legal social control a topic of great interest when studying how contemporary societies attempt to maintain social order The factual details about social and legal developments in societies where religion has been defined as problematic include Western and Eastern Europe Asia Oceania and the Americas

Regulating Religion James T. Richardson, 2012-12-06 *Regulating Religion Case Studies from Around the Globe* presents through the inclusion of contributions by international scholars a global examination of how a number of contemporary societies are regulating religious groups It focuses on legal efforts to exert social control over such groups especially through court cases but also with selected major legislative attempts to regulate them As such this analysis falls within the broad area of the sociology of social control and more specifically legal social control a topic of great interest when studying how contemporary societies attempt to maintain social order The factual details about social and legal developments in societies where religion has been defined as problematic include Western and Eastern Europe Asia Oceania and the Americas This book will be of interest to researchers and students in the sociology of religion the sociology of law social policy and religious studies as well as policy makers

Regulating Religion James T Richardson, 2003-12-01

Theory, Justice, and Social Change Christopher R. Williams, Bruce A. Arrigo, 2012-09-22 Throughout history social and intellectual crises have given rise to compelling suggestions for reform steeped in various progressive sensibilities For example within the discipline of criminology particularly during the 1980 s and 1990 s a number of unconventional theoretical perspectives emerged that sought to challenge many of the assumptions embedded within its own mainstream discourse and to propose alternative solutions for meaningful sustainable change Conceived of as critical in overarching orientation these efforts to rethink the foundations of criminological verstehen can be traced to several specific theoretical and methodological strands of inquiry e g anarchism peacemaking chaos theory postmodernism Though distinct in some respects these emerging models are linked paradigmatically by their shared discontent with conventional

criminological thought and by their radicalized posture toward existing and previously unexamined epistemic crises Collectively this is an agenda for reform that seeks to establish a more humane and just social order particularly as citizens and society confront the institutional and communal problems posed by crime delinquency and deviance Theory Justice and Social Change Theoretical Integrations and Critical Applications represents a provocative series of essays that systematically reviews or extends the role of critical social theory in fostering justice and change in several relevant though problematic social contexts Mindful of the need to address both conceptual exegeses and pragmatic concerns the articles contained in this volume grapple with the ongoing double crisis that confronts theory and practice in the construction of knowledge By appropriating and integrating various insights from several heterodox and critically animated lines of inquiry each chapter deftly exposes where and how conventional sociological and criminological thought has failed to effectively address such human social issues as homelessness mental illness minority rights juvenile justice global violence and criminal punishment In doing so Theory Justice and Social Change provides new and much needed direction regarding theory development in the social sciences and indicates why charting such a course of theory action yields more enlightened prospects for justice and change in society and in our lives

Sociology of Religion Kevin J. Christiano, William H. Swatos, Jr., Peter

Kivisto, 2015-10-15 This third edition of Sociology of Religion introduces students to key principles in the sociological understanding of religion with revisions and updates throughout The book offers an overview of the nature and function of religious institutions and practices asking sociological questions about the changing role of religion in today's post traditional world After an introduction to the many facets of religion and key theories for its study the book examines central themes such as changes in religious life in the United States the intersections between religion social class and power and between gender sexuality and religion globalization and religion religion in mass media and more The third edition features new material on the relationship of race and ethnicity to religion the perceived rises of both secularism and fundamentalism and the role of religion in public debates on sexuality Sociology of Religion addresses both the foundations of the field and the profound changes it has undergone placing new examples against their historical background Charts photos down to earth examples and a readable style make the book an ideal introduction for students

Dangerous Games Joseph

Laycock, 2015-02-12 The 1980s saw the peak of a moral panic over fantasy role playing games such as Dungeons and Dragons A coalition of moral entrepreneurs that included representatives from the Christian Right the field of psychology and law enforcement claimed that these games were not only psychologically dangerous but an occult religion masquerading as a game Dangerous Games explores both the history and the sociological significance of this panic Fantasy role playing games do share several functions in common with religion However religion as a socially constructed world of shared meaning can also be compared to a fantasy role playing game In fact the claims of the moral entrepreneurs in which they presented themselves as heroes battling a dark conspiracy often resembled the very games of imagination they condemned as evil By

attacking the imagination they preserved the taken for granted status of their own socially constructed reality Interpreted in this way the panic over fantasy role playing games yields new insights about how humans play and together construct and maintain meaningful worlds Laycock s clear and accessible writing ensures that *Dangerous Games* will be required reading for those with an interest in religion popular culture and social behavior both in the classroom and beyond **Solidarity and Prosocial Behavior** Detlev Fetchenhauer,2006-03-10 The topic of prosocial behavior e g fairness solidarity and altruism has recently shifted back into the center of attention in a variety of disciplines ranging from economics across sociology and psychology towards biology It is now a well accepted fact in all human sciences that human behavior is not always governed by egotism and selfish motives Unfortunately this does not explain why humans also act blatantly selfish and are blind to the suffering of others This book is a response to the quandary It brings together leading researchers in sociology and psychology to explain human egotism and altruism using not only their area of study but also bringing in research from economics and biology Since this work brings together the research of many different disciplines a complete account of solidarity and prosocial behavior is presented **Current Issues in Law and Religion** Silvio Ferrari,2017-07-05 This volume focuses on issues that have only recently come to the forefront of the discipline such as freedom from religion ordination of homosexuals apostasy security and fundamentalism issues that are linked to the common themes of secularism and globalization Although these subjects are not new to the academic debate they have become prominent in law and religion circles as a result of recent and rapid changes in society The essays in this volume present multiple points of view facilitate scholars in understanding this evolving discipline and act as a stimulus for further research This collection gives the reader a sense of the key topics and current debates in law and religion and is of interest to law politics human rights and religion scholars **Freedom of Religion and Its Regulation in Nigeria** Ahmed Salisu Garba,2019-03-25 In *Freedom of Religion and Its Regulation in Nigeria* Analysis of Preaching Board Laws in Some States of Northern Nigeria Ahmed Salisu Garba provides an account of how states in Northern Nigeria have enacted laws to regulate religious preaching in the spheres of influence The work examines the debates surrounding the laws and how the state in collaboration with dominant religious groups persecuted members of minority religious in the states The author applied an argumentative approach to raise and analyse issues relating to the reasonability of the laws in Nigeria reasons for their enactment judicial review mechanisms employed in the determination of the reasonability of the laws in democracies and how they accord with the freedom of religion clause in the Nigerian Constitution **The British National Bibliography** Arthur James Wells,2005
