Regulating The Liabilities Of Agricultural Biotechnology:

Regulating the Liabilities of Agricultural Biotechnology Stuart Smyth, 2004 This book examines how government industry and society interact to reach a level of regulation that is deemed satisfactory for the newly emerged transformative technology that is agricultural biotechnology It considers issues of risk and trust surrounding genetically modified plants for the production of food and pharmaceuticals It describes how regulations have been produced to manage or in some cases ignore the risks from GM products The scope is international and the book makes a significant contribution to the literature in this growing field of interest

Regulating Agricultural Biotechnology Richard E. Just, Julian M. Alston, David Zilberman, 2006-12-26 This book presents the first thorough economic analysis of current agricultural biotechnology regulation The contributors most of whom are agricultural economists working either in universities or NGOs address issues such as commercial pesticides the costs of approving new products liability benefits consumer acceptance regulation and its impacts transgenic crops social welfare implications and biosafety

Regulation of Agricultural Biotechnology: The United States and Canada Chris A. Wozniak, Alan McHughen, 2012-10-05 Agricultural biotechnology takes many forms and applications with the number and diversity of products ever increasing With this rapid development regulatory authorities have sought to keep pace through regulatory adjustments and advances to ensure the safe and beneficial use of this critical technology The regulatory systems for the U S and Canada are not static and must evolve in order to maintain relevance efficiency and applicability to the challenges encountered The diverse authors drawn from the biotechnology industry academia government research and regulatory agencies offer their perspectives of the historical and current system and suggest where it can be improved in the future Based upon vast experience interacting with the regulatory system the editors and authors offer demystifying views of the US and Canadian regulatory structures and how they came to be We know of no other effort to present the biotechnology regulatory systems of the US and Canada in an open forum which will benefit those in the regulated community as well as those charged with oversight of the products of biotechnology and ultimately the consumer

Biotechnology Regulation and Trade Stuart J. Smyth, William A. Kerr, Peter W. B Phillips, 2017-03-02 This book discusses the regulatory and trade challenges facing the global adoption of biotechnological products and offers strategies for overcoming these obstacles and moving towards greater global food security The first section of the book establishes the context of the conflict discussing the challenges of global governance international trade and the history of regulation of genetically modified GM crops In this section the authors emphasize the shift from exclusively science based regulation to the more socio economically focused framework established by the Cartagena Protocol on Biosafety which was adopted in 2000 The second section of the book provides a snapshot of the current state of international GM crop adoption and regulation highlighting the US Canada and the EU The final section of the book identifies options for breaking the gridlock of regulation and trade that presently exist This book adds to the current literature by providing new information about

innovative agricultural technologies and encouraging debate by providing an alternative to the narratives espoused by environmental non governmental organizations This book will appeal to students of economics political science and policy analysis as well as members of regulatory agencies and agricultural industry firms

Regulation of Genome Editing in Plant Biotechnology Hans-Georg Dederer, David Hamburger, 2019-08-16 This book provides in depth insights into the regulatory frameworks of five countries and the EU concerning the regulation of genome edited plants The country reports form the basis for a comparative analysis of the various national regulations governing genetically modified organisms GMOs in general and genome edited plants in particular as well as the underlying regulatory approaches The reports which focus on the regulatory status quo of genome edited plants in Argentina Australia Canada the EU Japan and the USA were written by distinguished experts following a uniform structure On this basis the legal frameworks are compared in order to foster a rational assessment of which approaches could be drawn upon to adjust or to completely realign the current EU regime for GMOs In addition a separate chapter identifies potential best practices for the regulation of plants derived from genome editing

The Regulation of Agricultural Biotechnology Robert E. Evenson, V. Santaniello, 2004-03-29 The regulatory systems in place prior to the development and expansion of agricultural biotechnology are still responding to this new form of technology Such systems include trade law intellectual property law contract law environmental regulations and biosafety regulations This book reviews these regulatory changes and consists of 24 chapters developed from papers presented at a conference of the International Consortium on Agricultural Biotechnology Research held in Italy in July 2002 It primarily considers the relationship between these changes and innovation market development and international trade

Declining International Cooperation on Pesticide Regulation May T. Yeung, William A. Kerr, Blair Coomber, Matthew Lantz, Alyse McConnell, 2017-07-18 This Palgrave Pivot investigates barriers to international agricultural trade caused by a lack of standardized maximum residue levels MRL for pesticides Given the preponderance of pesticide use in food production and the increasing disruptions to trade a better understanding of the reasons for the decline in international cooperation the trade impacts and potential solutions is critical This volume will contribute to that understanding Through an analysis of the economics of MRL regulatory harmonization select case studies and a look at incentives and disincentives for government agencies and regulators the authors move the conversation beyond the theoretical and into current practices and advice for creating workable solutions This Pivot is a valuable resource for those concerned with food security trade policy agricultural production and export supply chains as well as those interested in broader issues related to science policy and societal trends

Biotechnology, Legislation and Regulation , 1996

Socio-Economic Considerations in Biotechnology Regulation Karinne Ludlow, Stuart J. Smyth, José Falck-Zepeda, 2013-12-03 Within the context of the Convention on Biological Diversity CBD the Cartagena Protocol on Biosafety CPB was established as an implementing agreement The CPB is an international agreement establishing the rights of recipient countries to be notified of and to approve or reject the domestic import and or

production of living modified organisms LMOs Decisions regarding import production are to be on the basis of a biosafety assessment Article 26 1 of the CPB allows for the optional inclusion of socio economic considerations SECs into that biosafety assessment process This book compiles expert assessments of the issues relevant to SEC assessment of LMOs and fundamental for decisions regarding whether to undertake such assessments at all It includes an overview of the inclusion of SEC assessment in the regulation of LMOs that looks at the rationale for the inclusion of SECs in the context of the existing science based risk assessment systems This book reviews the various factors that can and have been suggested for inclusion in SEC assessment and provides a meaningful dialogue about the contrasts benefits and tradeoffs that are and will be created by the potential move to the inclusion of SECs in the regulation of LMOs making it of interest to both academics and policy makers

The Regulation of Genetically Modified Organisms Luc Bodiguel, Michael Cardwell, 2010 The regulation of genetically modified organisms GMOs continues to generate controversy On the one hand they are vital to ensuring food security on the other hand consumer resistance persists This volume brings together scholars from across the globe to examine the regulation of GMOs from their own national and regional perspectives
