Reign Of Mubarak Al-Sabah Sheikh Of Kuwait 1896-1915:

Mubarak Al-Sabah Souad M. Al-Sabah, 2014-05-15 Amidst political upheaval and the decline of the Ottoman Empire the State of Kuwait emerged as an independent country under British protection in 1899 with Sheikh Mubarak Al Sabah widely accredited as the instrument of its foundation But the path to power for Mubarak was not a simple or smooth one The author here presents an original perspective on the difficulties and controversies surrounding Mubarak's ascension With unparalleled insights and access to original sources she reveals the life personality and politics of a man who determined to secure a distinctive Kuwaiti state helped to shape the modern Middle East This biography provides a comprehensive overview of a time of significant political and social change in the Gulf when development diplomacy economics finance and trade were both routes to political independence and the perpetuation of British domination Remembered for his unyielding determination to boost the profile and wealth of Kuwait and establish his leadership at a turbulent time of regional war Mubarak engineered major change for Kuwait From the negotiations of the 1899 Anglo Kuwait Agreement during which Mubarak sought to outfox Lord Curzon and other British officials to his ambitions to tame tribal politics the author here presents a unique portrait of the man who transformed Kuwait from an Ottoman sub province to an independent state

From Resilience to Revolution Sean L. Yom, 2015-12-01 Based on comparative historical analyses of Iran Jordan and Kuwait Sean L Yom examines the foreign interventions coalitional choices and state outcomes that made the political regimes of the modern Middle East A key text for foreign policy scholars From Resilience to Revolution shows how outside interference can corrupt the most basic choices of governance who to reward who to punish who to compensate and who to manipulate As colonial rule dissolved in the 1930s and 1950s Middle Eastern autocrats constructed new political states to solidify their reigns with varying results Why did equally ambitious authoritarians meet such unequal fates Yom ties the durability of Middle Eastern regimes to their geopolitical origins At the dawn of the postcolonial era many autocratic states had little support from their people and struggled to overcome widespread opposition When foreign powers intervened to bolster these regimes they unwittingly sabotaged the prospects for long term stability by discouraging leaders from reaching out to their people and bargaining for mass support early coalitional decisions that created repressive institutions and planted the seeds for future unrest Only when they were secluded from larger geopolitical machinations did Middle Eastern regimes come to grips with their weaknesses and build broader coalitions

Mubarak Al-Sabah B. Slot, 2005 Mubarak Al Sabah took control of his tiny state in 1896 just as the Ottoman Empire seemed on the point of swallowing it up He then played for time by manipulating the indecision and venality of the Ottoman system At the same time he managed to kindle a hesitant British interest in Kuwait doing so by deftly exploiting a rivalry among European powers that was fuelled by speculation over Kuwait's strategic importance as the possible terminus of a railway conceived as the vital link in rapid communication between Europe and India

Histories of City and State in the Persian Gulf Nelida Fuccaro, 2009-09-03 This

book examines the political and social life of the Gulf city and its coastline as exemplified by Manama in Bahrain Written as an ethnography of space politics and community it addresses the changing relationship between urban development politics and society before and after the discovery of oil *The Arab State and Women's Rights* Elham Manea,2012-04-27

Researchers studying gender politics in Arab societies have been puzzled by a phenomenon common in many Arab states while women are granted suffrage rights they are often discriminated against by the state in their private lives This book addresses this phenomenon maintaining that the Arab state functions according to a certain logic and patterns which have direct consequences on its gender policies in both the public and private spheres Using the features of the Arab Authoritarian state as a basis for a theoretical framework of analysis the author draws on detailed fieldwork and first hand interviews to study women s rights in three countries Yemen Syria and Kuwait She argues that the puzzle may be resolved once we focus on the features of the Arab state and its stage of development Offering a new approach to the study of gender and politics in Arab states this book will be of great interest to scholars and students of gender studies international politics and Middle East studies The Middle East Ellen M. Lust,2022 In the newly updated Sixteenth Edition of The Middle East Ellen Lust and contributors comprehensively examine regional trends and offer in depth country profiles to illuminate this vital region The Middle East Ellen Lust,2023-02-01 In the The Middle East Sixteenth Edition Ellen Lust brings important new coverage to this comprehensive balanced and superbly researched text In clear prose Lust and her outstanding contributors explain the landscape of this changing region by examining both regional trends and individual countries The Sixteenth Edition adds a chapter on Sudan and other country chapters have been streamlined and fully updated to reflect domestic regional and international changes of the past three years This best selling text offers a wealth of information to help readers not only comprehend more fully the world around them but also recognize and formulate policies that can more successfully engage the vitally important Middle East *The Persian Gulf in History* L. Potter,2009-01-05 Exploring the history of the Persian Gulf from ancient times until the present day leading authorities treat the internal history of the region and describe the role outsiders have played there The book focuses on the unity and identity of Gulf society and how the Gulf historically has been part of a cosmopolitan Indian Ocean world **Political Transformation of Gulf Tribal States** Shaul Yanai,2014-09-01 The reform movements and attempts to establish parliamentary institutions in the Persian Gulf states of Kuwait Bahrain and Dubai between the First World War and the independent era of the 1970s were not inspired by western example or by any tradition of civil representation The move to a parliamentary system not only represented a milestone in the history of the region creating a legacy for future generations but was a unique transition in the Arab world The transformation of these states from loose chiefdoms of minimal coherence and centralization into centralizing and institutionalized monarchies involved the setting up of primary institutions of government the demarcation of borders and establishment of a monarchical order As this new political and social order evolved ideas of national struggle and national

rights penetrated Gulf societies Gulf citizens who had spent time in Arab states mostly in Egypt and Iraq took part in the genesis of a public Arab Gulf national discourse enabling the Gulf population to become acquainted with national struggles for independence As a result merchants of notable families newly educated elements and even workers began to oppose the dominance of the rulers Both the rulers and the commercial elites including members of the ruling families tried to formulate a new and different social contract with the rulers seeking to entrench their political power by using new administrative means and financial power Opposition against this current crystallized in 1938 among the ranks of the commercial oligarchy as well as within the ruling families In spite of its failure to create its own political institutions the oligarchy remained the foremost social and economic class But the ruling families could no longer treat national oil revenues as their private income and they began to channel part of these funds to public needs The most important consequence of the 1938 movement was the formation of a new social contract between the two traditional power centers the governing structures were fitted into the political and economic reality brought about by the oil wealth but remained essentially tribal and committed to the power division between the major Gulf families Al-Sabah Alan Rush,Alan de Lacy Rush,1987
