

Reinterpreting the French Revolution

A GLOBAL-HISTORICAL
PERSPECTIVE

BAILEY STONE

Reinterpreting The French Revolution

Wim Klooster

Reinterpreting The French Revolution:

Reinterpreting the French Revolution Bailey Stone, 2002-11-04 This book provides a synthesis of the most recent scholarly literature on the diplomatic political social economic and cultural history of eighteenth century and revolutionary France On the basis of that synthesis and current theoretical writing on major modern revolutions the book argues that the outbreak of the French Revolution and the dramatic developments of the subsequent ten years were attributable to the interacting pressures of international and domestic politics on those national leaders attempting to govern France and to modernize its institutions The book furthermore contends that the Revolution of 1789 1799 reconceptualized in this fashion needs to be placed in the larger contexts of early modern and modern French history and modern progressive sociopolitical revolutions In staking out these positions the book offers a unique interpretation of the French Revolution one that dissents from both the Marxian socioeconomic orthodoxy of earlier times and more recent political cultural analyses

Reinterpreting the French Revolution: A Global-Historical Perspective Bailey Stone (1946), 2004 Stone draws on the latest scholarship on diplomatic political social economic and cultural history of eighteenth century and revolutionary France to attribute the outbreak of the French Revolution and later developments to pressures of international and domestic politics on those national leaders attempting to govern France and to modernize its institutions

Reinterpreting the French Revolution Jack A. Goldstone, 1984 *The Anatomy of Revolution Revisited* Bailey Stone, 2014 This study aims to update a classic of comparative revolutionary analysis Crane Brinton's 1938 study *The Anatomy of Revolution* It invokes the latest research and theoretical writing in history political science and political sociology to compare and contrast in their successive phases the English Revolution of 1640-60 the French Revolution of 1789-99 and the Russian Revolution of 1917-29 This book intends to do what no other comparative analysis of revolutionary change has yet adequately done It not only progresses beyond Marxian socioeconomic class analysis and early revisionist stresses on short term accidental factors involved in revolutionary causation and process it also finds ways to reconcile state centered structuralist accounts of the three major European revolutions with postmodernist explanations of those upheavals that play up the centrality of human agency revolutionary discourse mentalities ideology and political culture

1789 David Andress, 2009-03-03 The world in 1789 stood on the edge of a unique transformation At the end of an unprecedented century of progress the fates of three nations France the nascent United States and their common enemy Britain lay interlocked France a nation bankrupted by its support for the American Revolution wrestled to seize the prize of citizenship from the ruins of the old order Disaster loomed for the United States too as it struggled in the face of crippling debt and inter state rivalries to forge the constitutional amendments that would become known as the Bill of Rights Britain a country humiliated by its defeat in America recoiled from tales of imperial greed and the plunder of India as a king's madness threw the British constitution into turmoil Radical changes were in the air A year of revolution was crowned in two documents drafted at almost the same time the French

Declaration of the Rights of Man and the American Bill of Rights These texts gave the world a new political language and promised to foreshadow new revolutions even in Britain But as the French Revolution spiraled into chaos and slavery experienced a rebirth in America it seemed that the budding code of individual rights would forever be matched by equally powerful systems of repression and control David Andress reveals how these events unfolded and how the men who led them such as Benjamin Franklin Thomas Paine Emmanuel Joseph Sieyès and George Washington stood at the threshold of the modern world Andress shows how the struggles of this explosive year from the inauguration of George Washington to the birth of the cotton trade in the American South from the British Empire's war in India to the street battles of the French Revolution would dominate the Old and New Worlds for the next two centuries

The Wars of the French Revolution

Charles J Esdaile,2018-10-03 The Wars of the French Revolution 1792-1801 offers a comprehensive and jargon free coverage of this turbulent period and unites political social military and international history in one volume Carefully designed for undergraduate students through twelve chapters this book offers an introduction to the origins and international context of the French Revolution as well as an in depth examination of the reasons why war began Aspects unpicked within the book include how France acquired a de facto empire stretching from Holland to Naples the impact of French conquest on the areas concerned the spread of French ideas beyond the frontiers of the French imperium the response of the powers of Europe to the sudden expansion in French military power the experience of the conflicts unleashed by the French Revolution in such areas as the West Indies Egypt and India and the impact of war on the Revolution itself Offering extensive geographical coverage and challenging many preconceived ideas The Wars of the French Revolution 1792-1801 is the perfect resource for students of the French Revolution and international military history more broadly

How the West Came to Rule

Alexander Anievas,Kerem Nişancıoğlu,2015-06-20 Winner of International Studies Association ISA's International Political Sociology Best Book Prize for 2017 Winner of British International Studies Association BISA's International Political Economy Working Group Book Prize of 2016 Shortlisted for the ISA Book Prize Mainstream historical accounts of the development of capitalism describe a process which is fundamentally European a system that was born in the mills and factories of England or under the guillotines of the French Revolution In this groundbreaking book a very different story is told How the West Came to Rule offers a interdisciplinary and international historical account of the origins of capitalism It argues that contrary to the dominant wisdom capitalism's origins should not be understood as a development confined to the geographically and culturally sealed borders of Europe but the outcome of a wider array of global processes in which non European societies played a decisive role Through an outline of the uneven histories of Mongolian expansion New World discoveries Ottoman Habsburg rivalry the development of the Asian colonies and bourgeois revolutions Alexander Anievas and Kerem Nisancıoglu provide an account of how these diverse events and processes came together to produce capitalism

The French Revolution and the People David Andress,2004-01-01 Shares the personal stories of middle class citizens

and peasants who experienced the French Revolution firsthand discussing their everyday lives and the factors that motivated their participation in the conflict s political and social upheavals Revolutions in the Atlantic World, New Edition Wim Klooster, 2018-01-23 Introduction Empires at war Civil war in the British Empire the American Revolution The war on privilege and dissension the French Revolution From prize colony to black independence the revolution in Haiti Multiple routes to sovereignty the Spanish American revolutions The revolutions compared causes patterns legacies **Capitalism, Jacobinism and International Relations** Eren Duzgun, 2022-06-23 Revised version of the author s thesis doctoral University of York 2017 titled Property state and geopolitics re interpreting the Turkish road to modernity
