W. Carey, 1991-05 An Esoteric Analysis and Synthesis of the Zodiacal Signs and Their Physiochemical Allocations Inez Perry, 2022-05-23 An Esoteric Analysis and Synthesis of the Zodiac Signs and their Pyshio Chemical Allocations 1932 by Inez Eudora Perry is a work of astrology homeopathy and biochemistry that offers an explanation of the secrets of the universe and human health Inez Eudora Perry b 1871 d 1961 was an American astrologer and colleague of the homeopath and physician George W Carey Dr Carey was a pioneer in the field of biochemistry He believed that the application of certain minerals called cell salts could cure disease causing mineral deficiencies Through these cell salts Dr Carey proposed that cellular equilibrium could be returned to the human body eliminating symptoms and creating a health full vibrant human Furthermore Dr Carey believed that each person s being is the sum of the vibrations that were present in nature at the time of our birth These vibrations are categorized into the signs of the zodiac Each sign corresponds to a certain cell salt which is consumed by the body more quickly than the others Supplementation of these diminished salts then is required to maintain health and well being Ms Perry was an adherent of Dr Carey s work and his long time collaborator She edited and co authored books with Dr Carey like God Man The Word Made Flesh and The Tree of Life In 1923 Dr Carey brought Ms Perry on as a partner into his biochemical foundation renamed The Carey Perry School of The Chemistry of Life Many years before Dr Carey and Ms Perry s working relationship began Dr Carey published a booklet titled The Relation of the Mineral Salts of the Body to the Signs of the Zodiac After Dr Carey s death in 1924 Ms Perry revisited this short theoretical work and wrote a

much longer book to expound on the concepts presented in the booklet The result was An Esoteric Analysis and Synthesis of the Zodiacal Signs and their Physiochemical Allocations published alongside a reprint of The Relation of the Mineral Salts in 1932 Ms Perry expounds on Dr Carey s ideas and provides thorough explanations of the changes of the seasons signs of the zodiac myths of the great civilizations and the natural world and how all of this relates to the biochemistry of the human body Digging deep into the symbolism of religion and language she thoroughly explores the nature of each zodiac sign and the practical uses of each cell salt By supplementing these deficient salts we can restore equilibrium A lack of potassium phosphate for example can lead to nervousness headaches hysteria and even paralysis Quoting Dr Carey Ms Perry suggests that we Let the overworked business man take it and go home good tempered Let the weary wife nerves unstrung from attending to sick children or entertaining company take it and note how quickly the equilibrium will be restored and calm and reason assert her throne Foundational to this teaching is the concept of body building The incorrect way to apply this biochemistry is to only take the applicable salts when one is in physical distress and then to cease when the symptoms are gone By consistently adding the supplemental cell salts to a moderate diet of natural food simply prepared we keep our bodies nourished and free from disease Today cell salts also called tissue salts are still prescribed by homeopathic medicine practitioners

**Relation of the Mineral Salts of the Body to the Signs of the Zodiac; And, Road to the Moon, a Great Occult Story** George Washington Carey,192? **We Die Standing Up** Dom Hubert Van Zeller,2022-11-08

In this remarkable book of meditations a renowned Benedictine presents a modern spiritual odyssey a way in which the Christian pilgrimage on earth is to be lived in order that we find ourselves on our feet as we enter eternity Vigorous and inspiring a collections of meditations on spiritual life written expressly for the modern reader Print ed Thus it looks in the last analysis as if the soul which serves God in spirit and in truth enjoys a very unusual kind of peace not the satisfying inward rest which we would have expected nor the outward rest of having everything in order and nothing left out but a rest which consists in contentment at having sacrificed both to the will of God Dom Hubert Van Zeller Orpheus George Robert Stow Mead,2022-08-31 WHO has not heard the romantic legend of Orpheus and Eurydice The polished verse of Virgil in his GeorgiME iv 452 527 has immortalised the story told by C rulean Proteus But few know the importance that mythical Orpheus plays in Grecian legends nor the many arts and sciences attributed to him by fond posterity Orpheus was the father of the Pan Hellenic faith the great theologer the man who brought to Greece the sacred rites of secret worship and taught the mysteries of nature and of God To him the Greeks confessed they owed religion the arts the sciences both sacred and profane and therefore in dealing with the subject I have proposed to myself in this essay it will be necessary to treat of a theology which was first mystically and symbolically promulgated by Orpheus afterwards disseminated enigmatically through images by Pythagoras and in the last place scientifically unfolded by Plato and his genuine disciples or to use the words of Proclus the last great master of Neoplatonism all the theology of the Greeks comes from Orphic mystagogy that is to say

initiation into the mysteries Not only did the learned of the Pagan world ascribe the sacred science to the same source but also the instructed of the Christian fathers ibid p 466 It must not however be supposed that Orpheus was regarded as the inventor of theology but rather as the transmitter of the science of divine things to the Grecian world or even as the reformer of an existing cult that even in the early times before the legendary Trojan era had already fallen into decay The well informed among the ancients recognised a common basis in the inner rites of the then existing religions and even the least mystical of writers admit a common bond of discipline as for instance Lobeck who demonstrates that the ideas of the Egyptians Chaldeans Orphic and Pythagoreans were derived from a common source Perfect Health Or, the Highest Curative Power in Man Christian D. Larson, 2022-08-31 Christian D Larson was a New Thought leader and teacher as well as a prolific author of metaphysical and New Thought books He is credited by Horatio Dresser as being a founder in the New Thought movement Many of Larson's books remain in print today nearly 100 years after they were first published and his writings influenced notable New Thought authors and leaders including Religious Science founder Ernest Holmes In this title Larson attempts to apply the principle of faith in the realization of perfect health He believed that When the mind is in the truth it reflects only what is in the truth the body will thus be filled through and through with perfect health the personal man will express the strength the life and the purity of the real man and all that is beautiful and ideal in the within will manifest itself more and more in the without Print ed
