news**

Show all students why social studies matters.

Static, one-sided textbooks reduce engagement, leading many students to dismiss social studies as something focused on the past and not relevant to their lives. By making social studies more dynamic, we have an opportunity to engage students in the subject. With this in mind, we pinpointed 4 areas to focus on when planning your social studies content.

DYNAMIC AND DIVERSE SOURCES

Prioritize a range of engaging and representative instructional materials that connect the past to the present.

SKILLS DEVELOPMENT

Provide opportunities for students to develop literacy and social-emotional skills, like self-awareness and social-awareness, to navigate conversations about complex topics.

Madgic, 1970 Teaching Culturally and Linguistically Relevant Social Studies for Emergent Bilingual and Multilingual Youth Ashley Taylor Jaffee, Cinthia Salinas, Wayne Journell, 2024

In recent years social studies scholars have pushed to consider critical ways of thinking about curriculum particularly challenging what we teach and how we teach. Russell, 2013-12-01. The world is ever changing and the way students experience social studies should reflect the environment in which they live and learn. Digital Social Studies explores research, effective teaching strategies, and technologies for social studies practice in the digital age. The digital age of education is more prominent than ever, and it is an appropriate time to examine the blending of the digital age and the field of social studies. What is digital social studies? Why do we need it, and what is its purpose? What will social studies look like in the future? The contributing authors of this volume seek to explain through an array of ideas and visions what digital social studies can and should look like while providing research and rationales for why digital social studies is needed and important. This volume includes twenty-two scholarly chapters discussing relevant topics of importance to digital social studies. The twenty-two chapters are divided into two sections. This stellar collection of writings includes contributions from leading scholars like Cheryl Mason Bolick, Michael Berson, Elizabeth Washington, Linda Bennett, and many more. **Culturally Relevant Pedagogy** Gloria Ladson-Billings, 2021. For the first time, this volume

provides a definitive collection of Gloria Ladson-Billings's groundbreaking concept of Culturally Relevant Pedagogy (CRP). After repeatedly confronting deficit perspectives that asked, "What's wrong with those kids?" Ladson-Billings decided to ask a different question, one that fundamentally shifted the way we think about teaching and learning: "Noting that those kids usually meant Black students, she posed a new question: What is right with Black students and what happens in classrooms where teachers, parents, and students get it right?" This compilation of Ladson-Billings's published work on Culturally Relevant Pedagogy examines the theory, how it works in specific subject areas, and its role in teacher education. The final section looks toward the future, including what it means to re-mix CRP with elements of youth culture such as hip-hop. This one-of-a-kind collection can be used as an introduction to CRP and as a retrospective of the idea as it evolved over time, helping a new generation to see the possibilities that exist in teaching and learning for all students. **Featured Essays:** 1.
