Religion And Politics In Enlightenment Europe:

Religion and Politics in Enlightenment Europe James E. Bradley, Dale K. Van Kley, 2001 This work shows that the collapse of the post reformation confessional state was more the result of religious dissent from within much of it orthodox than attacks of an anti religious Enlightenment In sharp contrast to the Reformation era religious conflicts which tended to pit Protestant and Catholic confessions and states against each other the 18th century religious conflicts described in this work took place within the various confessional establishments and states that founded and maintained them such as Russian Orthodoxy in the East and the Anglican Establishment in England and Ireland In the course of its analysis this work destroys the notion of any kind of privileged relationship between religion and political or social reaction This work reveals the religious roots of modern ideas of individual rights and limitations on government as well as the imperative of political order and the need for social hierarchy

The Oxford Handbook of Religion and Europe Grace Davie, Lucian Leuștean, 2022 Features contributions from leading scholars providing crucial insight into the role of religious ideas structures and institutions in the making of Europe Introduces the building blocks of Europe s religious and the part that they played in the formation of the continent Explores the relationship between religious communities and ideologies in the twentieth century connections that play out very differently in East and West Europe Examines the role of religion in the construction of the European Union from the end of the Second World War until the present day Assesses the relationship between the major world religions and the idea of Europe Book jacket

Art and Religion in Eighteenth-Century Europe Nigel Aston, 2009-07-15 Eighteenth century Europe witnessed monumental upheavals in both the Catholic and Protestant faiths and the repercussions rippled down to the churches religious art forms Nigel Aston now chronicles here the intertwining of cultural and institutional turmoil during this pivotal century The sustained popularity of religious art in the face of competition from increasingly prevalent secular artworks lies at the heart of this study Religious art staked out new spaces of display in state institutions palaces and private collections the book shows as well as taking advantage of patronage from monarchs such as Louis XIV and George III who funded religious art in an effort to enhance their monarchical prestige Aston also explores the motivations and exhibition practices of private collectors and analyzes changing Catholic and Protestant attitudes toward art The book also examines purchases made by corporate patrons such as charity hospitals and religious confraternities and considers what this reveals about the changing religiosity of the era as well An in depth historical study Art and Religion in Eighteenth Century Europe will be essential for art history and religious studies scholars alike

Religion, Politics and Dissent, 1660-1832 Robert D. Cornwall, 2016-04-15 The idea of the long eighteenth century 1660 1832 as a period in which religious and political dissent were regarded as antecedents of the Enlightenment has recently been advanced by several scholars The purpose of this collection is further to explore these connections between religious and political dissent in Enlightenment Britain Addressing the many and rich connections between political and religious

dissent in the long eighteenth century the volume also acknowledges the work of Professor James E Bradley in stimulating interest in these issues among scholars Contributors engage directly with ideas of secularism radicalism religious and political dissent and their connections with the Enlightenment or Enlightenments together with other important themes including the connections between religious toleration and the rise of the enlightenments Contributors also address issues of modernity and the ways in which a modern society can draw its inspiration from both religion and secularity as well as engaging with the seventeenth century idea of the synthesis of religion and politics and its evolution into a system in which religion and politics were interdependent but separate Offering a broadly conceived interpretation of current research from a more comprehensive perspective than is often the case the historiographical implications of this collection are significant for the development of ideas of the nature of the Enlightenment and for the nature of religion society and politics in the eighteenth century By bringing together historians of politics religion ideas and society to engage with the central theme of the volume the collection provides a forum for leading scholars to engage with a significant theme in British history in the long eighteenth century

The Limits of Empire: European Imperial Formations in Early Modern World History Professor Tonio Andrade, Professor William Reger, 2013-01-28 This volume published in honor of historian Geoffrey Parker explores the working of European empires in a global perspective focusing on one of the most important themes of Parker's work the limits of empire which is to say the centrifugal forces sacral dynastic military diplomatic geographical informational that plagued imperial formations in the early modern period 1500 1800 During this time of wrenching technological demographic climatic and economic change empires had to struggle with new religious movements incipient nationalisms new sea routes new military technologies and an evolving state system with complex new rules of diplomacy Engaging with a host of current debates the chapters in this book break away from conventional historical conceptions of empire as an essentially western phenomenon with clear demarcation lines between the colonizer and the colonized These are replaced here by much more fluid and subtle conceptions that highlight complex interplays between coalitions of rulers and ruled In so doing the volume builds upon recent work that increasingly suggests that empires simply could not exist without the consent of their imperial subjects or at least significant groups of them This was as true for the British Raj as it was for imperial China or Russia Whilst the thirteen chapters in this book focus on a number of geographic regions and adopt different approaches each shares a focus on and interest in the working of empires and the ways that imperial formations dealt with or failed to deal with the challenges that beset them Taken together they reflect a new phase in the evolving historiography of empire They also reflect the scholarly contributions of the dedicatee Geoffrey Parker whose life and work are discussed in the introductory chapters and we are proud to say in a delightful chapter by Parker himself an autobiographical reflection that closes the book

Religion and Mass Electoral Behaviour in Europe David Broughton, Hans-Martien ten Napel, 2000-12-14 The onset of a new millennium has given renewed impetus to the study of religion and its place in the

secular world Religion and Mass Electoral Behaviour in Europe is an innovative cutting edge study which focuses on the question of whether and how religion continues to influence and shape electoral behaviour across Europe With exceptional detail this book presents empirical data drawn from a range of country case studies to provide examples of different religious experiences and relationships

Religion and Politics in the Contemporary United States R. Marie Griffith, Melani McAlister, 2008-06-09 This collection of essays from a special issue of American Quarterly explores the complex and sometimes contradictory ways that religion matters in contemporary public life Religion and Politics in the Contemporary United States offers a groundbreaking cross disciplinary conversation between scholars in American studies and religious studies The contributors explore numerous modes through which religious faith has mobilized political action They utilize a variety of definitions of politics ranging from lobbying by religious leaders to the political impact of popular culture Their work includes the political activities of a very diverse group of religious believers Christians Jews Muslims Hindus Buddhists and others In addition the book explores the meanings of religion for people who might contest the term those who are spiritual but not religious for example as well as activists who engage symbols of faith and community but who may not necessarily consider themselves members of a specific religion Several essays also examine the meanings of secular identity humanist politics and the complex evocations of civil religion in American life No other book on religion and politics includes anything like the diversity of religions ethnicities and topics that this one does from Mormon political mobilization to attempts at Americanizing Muslims in the post 9 11 United States from Cesar Chavez to James Dobson from interreligious cooperation and conflict over Darfur to the global politics surrounding the category of Hindus and South Asians in the United States

Religion and the Conceptual Boundary in Central and Eastern Europe T. Bremer, 2015-12-11 This volume concentrates on the conceptual boundary through Europe which is determined by Western and Eastern Christianity The chapters show that the boundary has never been a stable and defined division but that it was also subject to change and development and a place of encounter and exchange between religions and cultures

Religion and Politics in the United States and Germany Dagmar Pruin, Rolf Schieder, Johannes Zachhuber, 2007 Current interest in the relation of religion and politics is intense in both the US and Germany Yet observers are regularly struck by fundamental divergences between approaches to and conceptualisations of this field on either side of the Atlantic This volume containing contributions by German and US authors from various disciplinary backgrounds seeks to offer some clarification by elucidating traditional and newly emerging differences between but also common challenges to these societies in issues such as pluralism of values religious education the role of religious minorities the relation of religion and elite formation and religious aspects of voting patterns

European Self-Reflection Between Politics and Religion L. Bruun, K. Lammers, G. Sørensen, 2013-05-07 This collection of essays suggests new ways of looking at the intertwining of political and religious agonies in the period 1914 1991 The long European civil war revealed that Europe far from being formed by a one track progression has followed

several tracks or fault lines leading to a number of contrasts in European self perception
