Religion And Human Rights Competing Claims:

Religion and Human Rights Peter Juviler, Carrie Gustafson, 2016-07-01 Much has been written about the issue of religious freedom and church state relations The contributors to this book however take up another side of the question what has been the impact of religion on human rights Representatives from various religious traditions address a broad range of topics from environmental rights to the basic validation of human rights to the rights of women in India and Iran and within Orthodox Judaism to the global imposition of criminal justice to pressures for democratization within the Catholic Church in Latin America The six major essays along with their accompanying replies answer questions and raise issues in a provocative and compelling debate *Islam and the Challenge of Human Rights* Abdulaziz Sachedina, 2009-11-05 In 1948 the General Assembly of the United Nations adopted and proclaimed the International Declaration of Human Rights a document designed to hold both individuals and nations accountable for their treatment of fellow human beings regardless of religious or cultural affiliations Since then the compatibility of Islam and human rights has emerged as a particularly thorny issue of international concern and has been addressed by Muslim rulers conservatives and extremists as well as Western analysts and policymakers all have commonly agreed that Islamic theology and human rights cannot coexist Abdulaziz Sachedina rejects this informal consensus arguing instead for the essential compatibility of Islam and human rights He offers a balanced and incisive critique of Western experts who have ignored or underplayed the importance of religion to the development of human rights contending that any theory of universal rights necessarily emerges out of particular cultural contexts At the same time he re examines the juridical and theological traditions that form the basis of conservative Muslim objections to human rights arguing that Islam like any culture is open to development and change Finally and most importantly Sachedina articulates a fresh position that argues for a correspondence between Islam and secular notions of human rights Textual, Comparative, Sociological, and Cognitive Approaches Peter Antes, Armin W. Geertz, Randi R. Warne, 2008-12-19 Since its founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline **The Routledge Companion to Media and Human Rights** Howard Tumber, Silvio Waisbord, 2017-07-14 The Routledge Companion to Media and Human Rights offers a comprehensive and contemporary survey of the key themes approaches and debates in the field of media and human rights The Companion is the first collection to bring together two distinct ways of thinking about human rights and media including scholarship that examines media as a human right alongside that which looks at media coverage of human rights issues This international collection of 49 newly written pieces thus provides a unique overview of current research in the field while also providing historical

context to help students and scholars appreciate how such developments depart from past practices The volume examines the universal principals of freedom of expression legal instruments the right to know media as a human right and the role of media organisations and journalistic work It is organised thematically in five parts Communication Expression and Human Rights Media Performance and Human Rights Political Processes Media Performance and Human Rights News and Journalism Digital Activism Witnessing and Human Rights Media Representation of Human Rights Cultural Social and Political Individual essays cover an array of topics including mass surveillance LGBT advocacy press law freedom of information and children s rights in the digital age With contributions from both leading scholars and emerging scholars the Companion offers an interdisciplinary and multidisciplinary approach to media and human rights allowing for international comparisons and varying perspectives The Routledge Companion to Media and Human Rights provides a comprehensive introduction to the current field useful for both students and researchers and defines the agenda for future research [New Approaches to the Study of Religion](#) Peter Antes, Armin W. Does Human Rights Need God? Elizabeth M. Bucar, Barbra Barnett, 2005-08-31 When the Universal Declaration of Human Rights was drafted in 1945 French Catholic philosopher Jacques Maritain observed We agree on these rights providing we are not asked why With the why the dispute begins The world since then has continued to agree to disagree fearing that an open discussion of the divergent rationales for human rights would undermine the consensus of the Declaration Is it possible however that current failures to protect human rights may stem from this tacit agreement to avoid addressing the underpinnings of human rights This consequential volume presents leading scholars activists and officials from four continents who dare to discuss the why behind human rights Appraising the current situation from diverse religious perspectives Jewish Protestant Orthodox Muslim Confucian and secular humanist the contributors openly address the question whether God is a necessary part of human rights Despite their widely varying commitments and approaches the authors affirm that an investigation into the why of human rights need not devolve into irreconcilable conflict Contributors Khaled Abou El Fadl Barbra Barnett Elizabeth M Bucar Jean Bethke Elshtain Robert P George Vigen Guroian Louis Henkin Courtney W Howland David Novak Sari Nusseibeh Martin Palou Robert A Seiple Max L Stackhouse Charles Villa Vicencio Anthony C Yu

Public Theology in Law and Life Paul Babie, Brian Edgar, David Wilson, 2012-08-30 Public theology involves the application of biblical and theological principles outside the confines of the church and assesses their implications for wider society It examines both the theoretical structures of society the nature of secularity government globalisation pluralism and so forth and the myriad specific issues involved in daily life everything from sport to work place relations to economics Public theology is also very importantly a discipline that is practiced by the ordinary Christian as well as the academic and it is done in public with all the scrutiny that entails and in such a way that it communicates to non Christians although it remains a theological endeavour In a real sense it is theology for the world from the Word by the people of God The volume has a variety of contributors and includes an article on the role of public theology in Islam
