Religion Nationalism In Soviet East European Politics:

Religion and Nationalism in Soviet and East European Politics Sabrina P. Ramet, 1989 Religious organizations in many countries of the communist world have served as agents for the preservation defense and reinforcement of nationalist feelings and in playing this role have frequently been a source of frustration to the Communist Party elites Although the relationship between governments and religious groups varies according to the particular country and group in question the mosaic of these relationships constitutes a revealing picture of the political reform shaping the lives of Soviet and East European citizens *East European Nationalism, Politics and Religion* Peter F. Sugar, 1999 The multi national region of Europe situated between the German speaking lands and those of the former Soviet Union has witnessed various forms of nationalism over the last 200 years This book seeks to explain these Eastern European nationalisms

East European Nationalism, Politics and Religion Peter F. Sugar, 2024-10-28 The multi national region of Europe situated between the German speaking lands and those of the former Soviet Union has witnessed many varied manifestations of nationalism over the last two centuries Professor Sugar has been in the forefront of those seeking to understand and explain these Eastern European nationalisms and eleven of his essays on the subject are included in this second selection of his studies The first two essays deal with problems of ethnicity and its specific manifestations in the region the next three present the growth of national antagonisms during the 19th century The third and longest section then sets out to examine the interaction of fully developed nationalism in Eastern Europe with the various political movements and religious organizations that impacted upon these lands *East European Fault Lines* Janusz Bugajski, 2019-04-10 This book provides a comparative analysis of

oppositionist trends in the Soviet satellite states of contemporary Eastern Europe It evaluates the extent and objectives of independent social activism in these countries and explores both the causes and effects of public dissent *Ethnic Politics in Eastern Europe: A Guide to Nationality Policies, Organizations and Parties* Janusz Bugajski, 2016-09-16 This guide charts national histories and policies relevant statistics and chronologies and the identities programmes and activities of the full spectrum of ethnically based parties and organizations in Central and Eastern Europe *Ethnic Politics in Eastern Europe* Janusz Bugajski, 1994 This guide charts national histories and policies relevant statistics and chronologies and the identities programmes and activities of the full spectrum of ethnically based parties and organizations in Central and Eastern Europe

Post-Soviet Political Order Barnett Rubin, Jack Snyder, 2002-11-01 Post Soviet Political Order asks what is shaping the institutional pattern of the post Soviet political order what the new order will be like what patterns of conflict are emerging and what can be done about stabilising the region In considering these questions the contributors converge on four common themes the institutional legacy of empire the social processes unleashed by imperial collapse patterns of bargaining within and between states to resolve conflicts arising out of the imperial collapse the impact of the wider international setting on the pattern of post imperial politics Focusing on the former Soviet Union and Eastern European countries the contributors

show how strong state institutions are essential if conflict and political instability are to be avoided

Modes of Religiosity in Eastern Christianity Vlad Naumescu, 2007 This volume offers original insights into the religious transformations taking place in postsocialist western Ukraine Applying a cognitive theory based on two modes of religiosity the doctrinal and the imagistic author Vlad Naumescu reveals the mechanisms of reproduction and change that make the local eastern Christian tradition a living tradition of faith He combines rich ethnographic materials with historical and theological sources to depict a religion in equilibrium between the two modes maintaining revelation at the core of its doctrinal corpus He argues that religion is a potential source for social change that empowers people to act upon reality and transform it With his innovative exploration of the dynamics of an eastern Christian tradition Naumescu makes a major contribution to the emerging anthropology of Christianity as well as to studies of postsocialism

Transnational Actors in Central and East European Transitions Mitchell Alexander Orenstein, Stephen Bloom, Nicole Lindstrom, 2008-07-06 When Vladimir Putin claimed outside forces were at work during the Ukrainian Orange Revolution of 2004 it was not just a case of paranoia In this uprising against election fraud protesters had been trained in political organization and nonviolent resistance by a Western financed democracy building coalition Putin s accusations were more than just a call to xenophobic impulses they were a testament to the pervasive influence of transnational actors in the shaping of postcommunist countries Despite this the role of transnational actors has been downplayed or dismissed by many theorists Realists maintain that only powerful states assert major influence while others argue that transnational actors affect only rhetoric not policy outcomes The editors of this volume contend that transnational actors have exerted a powerful influence in postcommunist transitions They demonstrate that transitions to democracy capitalism and nation statehood which scholars thought were likely to undermine one another were facilitated by the integration of Central and East European states into an international system of complex interdependence Transnational actors turn out to be the dark matter that held the various aspects of the transition together Transnational actors include international governmental and nongovernmental organizations corporations banks foundations religious groups and activist networks among others The European Union is the most visible transnational actor in the region but there are many others including the OSCE NATO Council of Europe the Catholic Church and the Soros Foundation Transnational Actors in Central and East European Transitions assembles leading scholars to debate the role and impact of transnational actors and presents a promising new research program for the study of this rapidly transforming region

Soviet and Kosher Anna Shternshis, 2006-05-21 Kosher pork an oxymoron Anna Shternshis s fascinating study traces the creation of a Soviet Jewish identity that disassociated Jewishness from Judaism The cultural transformation of Soviet Jews between 1917 and 1941 was one of the most ambitious experiments in social engineering of the past century During this period Russian Jews went from relative isolation to being highly integrated into the new Soviet culture and society while retaining a strong ethnic and cultural identity This identity took shape during the 1920s and 1930s

when the government attempted to create a new Jewish culture national in form and socialist in content Soviet and Kosher is the first study of key Yiddish documents that brought these Soviet messages to Jews notably the Red Haggadah a Soviet parody of the traditional Passover manual songs about Lenin and Stalin scripts from regional theaters Socialist Realist fiction and magazines for children and adults More than 200 interviews conducted by the author in Russia Germany and the United States testify to the reception of these cultural products and provide a unique portrait of the cultural life of the average Soviet Jew
