Lesser, 2019-05-14 An extensive history of the American Museum of Natural History and Hayden Planetarium featuring a cast of colorful characters The American Museum of Natural History is one of New York City s most beloved institutions and one of the largest most celebrated museums in the world Since 1869 generations of New Yorkers and tourists of all ages have been educated and entertained here Located across from Central Park the sprawling structure spanning four city blocks is a fascinating conglomeration of many buildings of diverse architectural styles built over a period of 150 years The first book to tell the history of the museum from the point of view of these buildings including the planned Gilder Center *The American Museum of Natural History and How It Got That Way* contextualizes them within New York and American history and the history of science Part II *The Heavens in the Attic* is the first detailed history of the Hayden Planetarium from the museum s earliest astronomy exhibits to Clyde Fisher and the original planetarium to Neil deGrasse Tyson and the Rose Center for Earth and Space and it features a photographic tour through the original Hayden Planetarium Author Colin Davey spent much of his childhood literally and figuratively lost in the museum s labyrinthine hallways The museum grew in fits and starts according to the vicissitudes of backroom deals personal agendas two world wars the Great Depression and the Cold War Chronicling its evolution from the selection of a desolate rocky hilly swampy site known as Manhattan Square to the present day the book includes some of the most important and colorful characters in the city s history including the notoriously corrupt and powerful Boss Tweed Father of New York City Andrew Haswell Green and twentieth century powerbroker and master builder Robert Moses museum presidents Morris K Jesup Henry Fairfield Osborn and Ellen Futter and American presidents polar and African explorers dinosaur hunters and German rocket scientists Features a new preface by the author and a new foreword by Neil deGrasse Tyson This is in many ways a particularly American story and anyone interested in history or museums will find this a very satisfying read Author Colin Davey had a life long love affair with the museum growing up in New York and spending many many hours happily lost in the museum collections and that shines through in his writing as does his fine in depth research Plenty of excellent

graphics and photographs support this fascinating history **Seattle Book Review** **Star Theatre** William Firebrace, 2017-12-30 Most of us can recall a childhood visit to a planetarium the sense of anticipation as the room darkens The stars begin to appear as the voice of an astronomer is heard In the planetarium where the audience is transported to distant galaxies the wondrous complexity of the cosmos combines with entertainment to become a theater of the night **Star Theatre** explores the history of the planetarium s mix of science and spectacle William Firebrace reveals how in the planetarium the solar system and universe is demonstrated on an ever expanding scale He traces the origins of the building through history from its antecedents to its invention in Germany in the 1920s developments in the USSR and the United States to its expansion across the globe at the time of the space race and finally to the evolution of the contemporary planetarium in a time of startling astronomical and cosmological discoveries This concise and well illustrated history will appeal to astronomy lovers and those interested in architecture theater and cinema **Rose Center for Earth and Space** American Museum of Natural History, 2001-07 This is a colorful pictorial tour of the architecture Big Bang Theater and exhibits of the Rose Center which replaced the American Museum of Natural History s Hayden Planetarium in 2000 It includes essays on its building and state of the art technology and a foreword by the museum president Annotation copyrighted by Book News Inc Portland OR **Rose Center for Earth and Space** Ellen Futter, American Museum of Natural History, 2001-07-01 **Polshek Partnership Architects** James Stewart Polshek, Polshek Partnership Architects, 2005 Polshek Partnership is one of the most successful architectural firms in the US This monograph offers a detailed look at 16 projects following each from the initial conception through to completion *Natural History*, 2002 **Merlin's Tour of the Universe, Revised and Updated for the Twenty-First Century** Neil deGrasse Tyson, 2024-10-29 A USA Today bestseller The 1 New York Times bestselling author of *Astrophysics for People in a Hurry* takes readers on an entertaining and edifying tour of the universe In Neil deGrasse Tyson s delightful journey through the cosmos his fictional character Merlin responds to popular questions asked by adults and children alike Merlin a timeless visitor from Planet Omniscia in the Andromeda Galaxy has observed firsthand many of the major scientific events of Earth s history Merlin s friends include the most important scientific figures and explorers of all time da Vinci Magellan Newton Einstein and Hubble While Merlin occasionally recounts playful conversations with these luminaries all questions are answered with authentic science infused with wit wisdom and an occasional rhyme With the help of intermittent humorous cartoons Merlin clarifies the details of familiar phenomena like gravity light space and time and travels to distant stars and galaxies to describe what makes them tick rotate explode and collapse Merlin s Tour of the Universe is perfect for anyone who harbors burning questions on how the cosmos works **The Twenty-first Century in Space** Ben Evans, 2014-12-15 This final entry in the History of Human Space Exploration mini series by Ben Evans continues with an in depth look at the latter part of the 20th century and the start of the new millennium Picking up where Partnership in Space left off the story commemorating the evolution of manned

space exploration unfolds in further detail More than fifty years after Yuri Gagarin s pioneering journey into space Evans extends his overview of how that momentous voyage continued through the decades which followed The Twenty first Century in Space the sixth book in the series explores how the fledgling partnership between the United States and Russia in the 1990s gradually bore fruit and laid the groundwork for today s International Space Station The narrative follows the convergence of the Shuttle and Mir programs together with standalone missions including servicing the Hubble Space Telescope many of whose technical and human lessons enabled the first efforts to build the ISS in orbit The book also looks to the future of developments in the 21st century **Garden Guide: New York City (Revised Edition)** Nancy

Berner,Susan Lowry,2010-08-16 From the giant topiary of an airplane in the Queens Botanical Garden to the mannered space of the Frick Collection here are the stories of more than 100 gardens in New York City In addition to describing a variety of flora and fauna This book chronicles the events and personalities behind the green spaces visited by generations of New Yorkers Includes 50 color photos and visitor information for each garden **Curators** Lance Grande,2017-03-21 Over the centuries natural history museums have evolved from being little more than musty repositories of stuffed animals and pinned bugs to being crucial generators of new scientific knowledge They have also become vibrant educational centers full of engaging exhibits that share those discoveries with students and an enthusiastic general public At the heart of it all from the very start have been curators Yet after three decades as a natural history curator Lance Grande found that he still had to explain to people what he does This book is the answer and oh what an answer it is lively exciting up to date it offers a portrait of curators and their research like none we ve seen one that conveys the intellectual excitement and the educational and social value of curation Grande uses the personal story of his own career most of it spent at Chicago s storied Field Museum to structure his account as he explores the value of research and collections the importance of public engagement changing ecological and ethical considerations and the impact of rapidly improving technology Throughout we are guided by Grande s keen sense of mission of a job where the why is always as important as the what This beautifully written and richly illustrated book is a clear eyed but loving account of natural history museums their curators and their ever expanding roles in the twenty first century *Benjamin Banneker* Rose Blue,Corinne J.
