The trend of fiction running in the line of works upon the early scenes in our country s history has probably been the incentive that has brought to light the pages of this book We have had no diary of by gone days but we have gleaned from musty records out of print in the first half of the past century Histories of the present day as well as those of early date have lent their aid in securing data and where such occurs we have given credit They have also furnished us scenes and characters familiar to all readers of their pages The period through which our story extends antedates that of the Revolution by over a quarter of a century although some of our characters figured conspicuously in that great struggle for freedom About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Papers and Records - Ontario Historical Society** Ontario Historical Society,1924

beyond Nevada's borders the state is no more than the nation's desert dumping ground for dangerous waste Others know it only for its hedonistic centers of gambling and entertainment This scandal belies the extraordinary beauty and wonder of the state's wilderness areas and the precious natural aesthetic and cultural resources to be found there In Wild Nevada editors Roberta Moore and Scott Slovic have assembled twenty nine writers who know and love the Nevada wilderness to testify on its behalf Contributors include literary artists and scholars environmental and community activists leading politicians ranchers scientists and park rangers Some essays offer observations on the political and philosophical discussions of wilderness that heat up the halls of academia and Congress others recount moving personal encounters with wild places within Nevada and still others comment on the ambiguities of preserving wild places through wilderness designation But despite the eclectic backgrounds of the writers and their varied perspectives on public policy they are all united in their devotion to the ecological and aesthetic values of Nevada's threatened wilderness areas Foreword by Michael Frome **The**
