The Risky Business of French Feminism

Jennifer L. Sweatman, 2014-08-26 *The Risky Business of French Feminism* Publishing Politics and Artistry examines the institutional history of the publishing house Editions des Femmes as well as its relationship to the French Women's Liberation Movement MLF from 1972 to the present. The founding and subsequent success of Editions des Femmes in the publishing milieu intensified the ideological divisions within the MLF and highlighted the extent to which that movement failed to adequately reflect on the power inherent in its recourse to print culture as an agent of change. In particular, Editions des Femmes produced several periodical publications and pioneered a woman-centered subculture that attached militant political meanings to the practice of buying and publishing books. While the MLF succeeded in changing legislation detrimental to women, it was not able to create unified cultural politics or construct a long-term media strategy that could preserve the movement's original ideals and unity. Jennifer L. Sweatman explores the long-term dissipation of the MLF as a unified force not only as an outcome of ideological disagreement but also due to conflicting views on culture, women's creativity as a strategy for empowerment, and the utility of media for creating change. As the MLF fragmented, unable to fully come to terms with its various consumer identities, its need for capital to support creative projects and its difficult experience with collective decision-making, the Editions des Femmes project was seen as incredibly controversial. However, Editions des Femmes embodied a broader strategy for cultural transformation that privileged women's creative works rather than feminism, situating it as a successful forerunner of the revitalization of the publishing industry from below as small independent houses challenged the large media conglomerate control of the industry.

Language and Sexual Difference

Susan Sellers, 1991-12-02 An accessible introduction to French feminist theory and contemporary French women's writing for non-French speakers. The Feminist Encyclopedia of French Literature

Eva M. Sartori, 1999-07-30 The earliest known literary productions by women living in Europe were probably written by French writers. As early as the 12th century, women troubadours in the south of France were writing poems. French women continued writing through the ages, their number increasing as education became more available to women of all classes. And yet, of the great number of works by women writers who preceded the current feminist movement, very few have survived. A few writers such as Marie de France, George Sand, and Simone de Beauvoir became part of the canon. But critics, mostly male, had judged the works of only a few women writers worthy of recognition. As part of the feminist move to reclaim women writers and to rethink literary history, scholars in French literature began to take a new look at women writers who had been popular during their lifetimes but who had not been admitted into the canon. This reference book provides extensive information about French women writers and the world in which they lived. Included are several hundred alphabetically arranged entries for

authors literary genres such as the novel poetry and the short story literary movements such as classicism realism and surrealism life cycle events particular to women such as menstruation and menopause events and institutions which affected women differently than men such as revolutions wars and laws on marriage divorce and education The volume spans French literature from the Middle Ages to the present and covers those writers who lived and worked mainly in France The entries are written by expert contributors and each includes bibliographical information The entries focus on each writer's awareness of how her gender shaped her outlook and opportunities on how categorizations structures and terms used to describe literary works have been defined for women and the ways in which women writers have responded to these definitions The volume begins with a feminist history of French literature and concludes with a selected general bibliography and a chronology of women writers
