Place and the Politics of Identity Michael Keith,Steve Pile,2004-11-23 In the last two decades new political subjects have been created through the actions of the new social movements often by asserting the unfixed and overdetermined character of identity Further in attempting to avoid essentialism people have frequently looked to their territorial roots to establish their constituency A cultural politics of resistance as exemplified by Black politics feminism and gay liberation has developed struggles to turn sites of oppression and discrimination into spaces of resistance This book collects together perspectives which challenge received notions of geography which are in danger of becoming anachronisms without a language to articulate the new space of resistance the new politics of identity

Exploring Gender and Sikh Traditions Doris R. Jakobsh,2021-09-01 This volume gathers scholars who focus on gender through a variety of disciplines and approaches to Sikh Studies The intersections of religion and gender are here explored based on an understanding that both are socially constructed Far from being static as so often presented in world religions textbooks religious traditions are constantly in flux

responding to historical cultural and social contexts So too is the Sikh tradition in terms of practices ideologies rituals and notions of identity We here conclude that a Sikh tradition does not exist instead there are numerous forms thereof In this volume Sikhism is presented as a collection of Sikh traditions Gender studies in line with women s liberation masculine and feminist studies have long examined and have long deconstructed the patriarchy but also move to identify other subordinate dominant relations between individuals Indeed there are numerous forms of discrimination and power structures that simultaneously create a multiplicity of oppression Intersectionality has become the basis of an increasingly systematized production of contemporary discourses on feminism and gender analysis as is evidenced by the varied contributions in this volume
