chronometers which were carried in ships to show mean time at Greenwich the chosen prime meridian Greenwich time could be compared with local astronomical time to determine longitude but chronometers were mechanical devices that had to be checked for accuracy Land based signals that were regulated by astronomical observations evolved from the ideas in 1818 of Robert Wauchope a British naval officer who served at the Cape of Good Hope He inspired introduction of time balls specifically the time ball at Greenwich in 1833 which set the standard for subsequent installations and is still in operation today The main emphasis is on the external appearance of time signals at different locations around the world and how they were used by mariners for rating chronometers Time balls and guns also became popular signals for public use and workplace control but then had social and political implications

Christian and Islamic Philosophies of Time Sotiris

Mitralaxis, Marcin Podbielski, 2019-12-31 This volume constitutes an attempt at bringing together philosophies of time or more precisely philosophies on time and in a concomitant way history emerging from Christianity's and Islam's intellectual histories Starting from the Neoplatonic heritage and the voice of classical philosophy the volume enters the Byzantine and Arabic intellectual worlds up to Ibn Al Arabi's times A conscious choice in this volume is not to engage with perhaps the most prominent figures of Christian and Arabic philosophy i.e. Augustine on the one hand and Avicenna Ibn Sina on the other precisely because these have attracted so much attention due to their prominence in their respective traditions and beyond In a certain way Maximus the Confessor and Ibn Al Arabi together with Al Farabi emerge as alternative representatives of their two traditions in this volume offering two axes for this endeavor The synthesis of those approaches on time and history their comparison rather than their mere co-existence is left to the reader's critical inquiry and philosophical investigation
