Minority protection in Bulgaria** Bernd Rechel,2012-02-27 The protection of minorities in Bulgaria presents a paradox Although minority protection played a prominent role in the accession of the country to the European Union hardly any positive minority rights were adopted in post communist Bulgaria Apart from the reversal of communist assimilation campaigns only limited progress has been made in the area of minority protection Positive minority rights have remained very restricted some minorities notably Pomaks and Macedonians have been denied recognition and the formal adoption of legislation or policy documents has often not been followed by implementation By charting minority rights policies in Bulgaria in the period between 1989 and 2004 this study clarifies the main reasons for the limited progress in the post communist period While in contrast to some other countries in Central and Eastern Europe minority kin states did not play a major role in post communist Bulgaria the European Union and the Council of Europe were instrumental in putting minority questions on the agenda of Bulgarian governments However their impact was smaller than much of the literature on enlargement and conditionality would suggest Domestic factors were crucial in shaping minority rights policies in post

communist Bulgaria Of particular importance was the communist legacy which acted as a brake on the development of minority rights

**The European Union's Africa Policies** Daniela Sicurelli, 2016-12-05 The European Union EU is a key partner for African regional organizations and a major promoter of economic and political integration in the region Several studies have interpreted the EU's role in Africa as either a self interested hegemonic actor or as a value oriented normative power In this volume Daniela Sicurelli challenges these views by taking a closer look at Europe's policies towards Sub Saharan Africa in the area of peacekeeping trade and development and environmental protection Using fresh empirical evidence including interviews with both European and African officials she argues that the EU is far from becoming a unitary player in Africa Lacking a clear strategy and coherent normative framework the EU should be considered a multi level actor where national and supranational institutions have different interests and push forward contrasting views of what role Europe should play in Africa The ability of single institutions to frame an issue as requiring either intergovernmental or supranational procedures appears crucial for shaping the content of European Africa policies An original contribution to the growing literature on the EU as an international actor this book is extremely useful to scholars researchers and policy makers demanding critical work in the field of EU Africa policy
