 ethnomusicology in Europe recorded in Southeast Asia More than just a discography this work demonstrates that cultures
 around the world and over time have more similarities than differences A necessity for scholars students archivists and
 individual record collectors and dealers The goals of this volume are many and varied to promote thought and discussion
 toward a concise definition of recorded ethnic music to assist specialists working on individual discographical projects to
 introduce users to the interconnectedness of cultures through regional music to gather heretofore disparate pieces of
 information under one cover in a way that for the first time allows specialists to accurately identify all manner of recordings
 in many languages The four sections of the volume work together for easy usage through cross referencing The philosophy
 behind the volume was expressed by Rodney Gallop when he remarked that music for him was often the key to the
 understanding of other cultures
