Congress, **The UN Convention on the Rights of Persons with Disabilities** Great Britain. Parliament. Joint Committee on Human Rights,2009 The UN Convention on the Rights of Persons with Disabilities builds on existing human rights treaties including the International Covenant on Civil and Political Rights and the International Covenant on Economic Social and Cultural Rights The UN Handbook for Parliamentarians on the Convention stresses that it is not intended to create new rights but clarifies the obligations and legal duties of States to respect and ensure the equal enjoyment of all human rights by all persons with disabilities Its purpose is to Promote protect and ensure the full enjoyment of all human rights and fundamental freedoms by all persons with disabilities and to promote respect for their inherent dignity The UK was among the first countries to sign the Convention on 30 March 2007 The findings of our recent inquiry on the rights of adults with learning disabilities showed that although UK law and policy on the treatment of adults with learning disabilities takes a human rights based approach the day to day experiences of people with learning disabilities are not so positive Ratification will send a strong signal to all people with disabilities in the UK and abroad that the Government takes equality and the protection of their human rights seriously The Government first publicly stated that reservations to the Convention were being considered in its response to our Report on the treatment of adults with learning disabilities in May 2008 more than a year after it signed the Convention Despite the Committee s call for a full explanation of the government s views on the compatibility of domestic law with the Convention the were then provided with little detail on the reservations being considered or the Government s approach to the process The Committee considers that progress towards ratification of the Convention by the UK has so far lacked transparency and has unfortunately alienated disabled people and their organisations This is unacceptable in the light of the clear Convention commitment which the Government intends to make to the

involvement of disabled people in the development of policies and laws which affect them This approach undermines the previous role that the UK Government has played in championing equality for disabled people and their leading role in negotiating the terms of the UNCRPD

ISRAEL AGAINST ALL ODDS Christopher H. K. Persaud,2019-07-19 The Jewish people have been and are indisputably the most persecuted people in the annals of history Today 53% of all hate crimes in the United States of America are directed at the Jewish People At the source of Jew hatred in its myriad forms is anti Semitism a sinister and vile mindset that has existed since Old Testament times or for thousands of years Anti Semites pervade social religious economic and political confines even mainstream Christianity and their dislike for people of Jewish ancestry often translate into mindless persecution and slaughter such as the atrocities perpetrated by the Nazis and their collaborators during the Second World War in the mid twentieth century whereby over six million Jews met their deaths in the Holocaust Anti Semitism instead of diminishing after the horrors of World War II showed no sign of abatement and it seems as though the entire world with a few exceptions like the Jewish nation of Israel itself and the United States of America is at loggerheads with Jews Even international peacekeeping and monitoring organizations like the United Nations and its numerous spinoff groups are known to discriminate sometimes barefacedly against Jews and Israel Middle Eastern Arabs and Muslims harbor intense loathing for Israel and Jews and notwithstanding their occupancy of over ninety nine percent of Middle Eastern territories seek to covet the less than one percent of land in which Israelis reside by any means necessary Despite the seemingly insurmountable hardships and challenges Jews have faced throughout the centuries they persist and even progress in today s societies They leave their enemies awe struck at their resilience and their will to survive It seems as though Israel and Jews in general enjoy a kind of divine providence ISRAEL and Jews around the world continue to stand tall today against all odds

Congressional Record , **The Reception of Copernicus' Heliocentric Theory** J. Dobrzycki,2013-06-29 In 1965 the International Union of the History and Philosophy of Science founded the Nicolas Copernicus Committee whose main task was to explore the means by th which different nations could co operate in celebrating the 5 centenary of the great scholar s birth The committee initiated the publication of a collection of studies dealing with the effect that Copernicus theory has had on scientific developments in centres of learning all over the world An Editorial Board consisting of J Dobrzycki Warsaw J R Ravetz Leeds H Sandblad Goteborg and B Sticker Hamburg was nominated We found that our initiative aroused a lively interest among Copernicus scholars the present volume with 11 articles by authors from nine American Asian and European countries contains the result of their research It appears in the

series *Studia Copernicana* by agreement with the Polish Academy of Science and we hope to publish a number of other contributions in a subsequent volume We are happy to say that our efforts have been fruitful and that this volume presents not only several in depth studies but also a more general survey of the rules governing the evolution of science rules set within the framework of Copernicus theory as it developed among various nations and in various scientific institutions over the centuries It has been shown once again that 500 years after his birth the work of Copernicus remains a source of scientific interest and continues to stimulate fresh study and research
