The Cambridge Companion to English Poets Claude Julien Rawson, 2011-01-27 This volume provides essays by twenty nine leading scholars and critics on the best English poets from Chaucer to Larkin **Theory into Poetry**, 2022-05-20 At the beginning of the 21st century there is still no generally accepted comprehensive definition of the lyric or differentiated modern toolkit for its analysis The reception of poetry is largely characterised either by an empathetic identification of critics with the lyric persona or by exclusive interest in formal patterning The present volume seeks to remedy this deficit All the contributors theorise the lyric to overcome the impasse of an impressionistic and narrowly formalistic critical debate on the genre Their papers focus on a variety of different questions the problem of establishing a framework for definition and classification the search for dynamic and potent critical approaches investigations of poetry s cultural performance and its fundamental relevance for the construction of group cohesion The essays collected in this volume offer a consciously polyphonic range of theories and interpretations suggesting to the reader a variety of theoretical frameworks and practical illustrations of how a discussion of poetry may be firmly grounded in modern literary theory **Twentieth-Century**

Metapoetry and the Lyric Tradition Daniella Jancsó, 2019-02-19 Twentieth Century Metapoetry and the Lyric Tradition reveals the unique value of metapoems for exploring twentieth century poetry By placing these texts into a hitherto barely investigated literary historical perspective it demonstrates that modern metapoetry is steeped in the lyric tradition to a much greater extent than previously acknowledged Since these literary continuities that cut across epochal boundaries can be traced across all major poetic movements they challenge established accounts of the history of twentieth century poetry that postulate a radical break with the immediate past Moreover the finding that metapoems perpetuate traditional forms and topoi distinguishes metapoetry historically and systematically from metafiction and metadrama After highlighting the most

important differences as regards to the function of metareference in poetry on the one side and in fiction and drama on the other the book concludes with a discussion of how to account for these generic differences theoretically With its extraordinarily subtle and perceptive Ronald Bush St John s College Oxford interpretive readings of over one hundred metapoems by canonical anglophone authors it offers the first representative selection of twentieth century poems about poetry in English

Robert Lowell's Imitations and the Cold War Simon van Schalkwyk,2025-08-07 The first book length study focusing on Robert Lowell s career long preoccupation with the liberal mode of translational adaptation known as imitation Robert Lowell s Imitations and the Cold War argues that Lowell s imitations are simultaneously symptomatic of and critically responsive to familiar nodes of Cold War ideology such as containment and contamination secrecy and security post imperial U S expansion and Empire It departs from studies focused solely on Imitations 1961 Lowell s book length collection of translational adaptations by demonstrating how imitation shadows Lowell s work from his earliest collections Land of Unlikeness 1944 and Lord Weary s Castle 1946 through his celebrated mid career collections Life Studies 1959 and For the Union Dead 1964 and to later works such as Near the Ocean 1969 and his contributions of adaptations from the Russian of Anna Akhmatova and Osip Mandelstam collected in Olga Carlisle s anthology Poets on Street Corners 1967 Simon van Schalkwyk excavates the imitational substrate undergirding and informing Lowell s compositional method and poetic imagination throughout the course of his career In so doing he shows how imitation enacts at the level of form Lowell s restless investment in Cold War geopolitics and literary networks in ways that inform develop and complicate his more conventional canonization as an unquestionably American poet preoccupied solely and simplistically with personal or autobiographical modes of poetic confession As literary sites at which containment s dualities porosities leakages and contaminants are most clearly displayed Lowell s imitations simultaneously challenge and develop our understanding of confession s presumably strict preoccupation with the personal regional and national frameworks through which Lowell has commonly been understood
