Socially Just, Radical Alternatives for Education and Youth Work Practice Charlie Cooper, Sinéad

Gormally, Gill Hughes, 2015-10-12 Challenging dominant discourses in neoliberal marketized societies about working with disconnected young people this book argues that alternative radical approaches to formal and informal education are necessary to challenge repressive practices and to help build a more equal socially just society *Psychology for Inclusive Education* Peter Hick, Ruth Kershner, Peter Farrell, 2009 What can psychology offer inclusive education Traditionally special education has looked to psychology for many of its theoretical resources and practical strategies While those seeking to promote more inclusive education have tended to see psychology and psychologists as part of the problem by providing a rationale for segregation However in practice many psychologists today are developing inclusive ways of working and are paying attention to psychological theories that underpin inclusive education *Psychology for Inclusive Education* reframes the contribution of psychology in terms of its relevance to inclusion and will show how psychological theories of learning and human development are compatible with inclusive education Part 1 explores psychological theories relevant to understanding inclusive education and Part 2 looks at how psychology can contribute to promoting more inclusive education in practice Chapters cover how psychologists can collaborate with teachers for inclusive solutions Vygotsky's theories of learning and their significance for inclusion the challenge of developing pedagogies for inclusion sociocultural understandings of learning in inclusive classrooms the role of emotion in learning and inclusion cooperative learning and inclusion the challenges and tensions of inclusion and high standards for schools the practice of dynamic assessment as an inclusive alternative to IQ social justice and inclusive psychology Bringing together a highly distinguished list of international contributors from the UK USA and South Africa and including practising educational psychologists this book will link theory to practice in schools and classrooms International in focus and at the very cutting edge of the field this is essential reading for all those interested in the development of inclusive education **Commonsense Methods for Children with Special Educational Needs** Peter Westwood, 2007-03-06 Provides practical strategies for meeting children's special needs in regular classrooms including expanded chapters on learning difficulties behavior management and the teaching of literacy and numeracy skills

Achieving your Masters in Teaching and Learning Mary McAteer, Lisa Murtagh, Fiona Hallett, Gavin Turnbull, 2010-02-05 This book is for all those taking the Masters in Teaching and Learning MTL The contents reflect the units of this new qualification building on Initial Teacher Training deepening and broadening professional understanding and skills while addressing individual teacher needs Chapters cover core topics such as developing pedagogy assessment for learning special educational needs and behaviour The book provides invaluable support for beginning teachers as they manage their professionally based postgraduate learning including guidance on critical thinking reflective practice and research skills and is clearly linked to the newly developed framework of Professional Standards for Teachers **Making Sense of Mass Education** Gordon Tait, 2018-11-29 Making Sense of Mass Education provides an engaging and accessible analysis of traditional issues associated with mass education The book challenges preconceptions about social class gender

and ethnicity discrimination highlights the interplay between technology media popular culture and schooling and inspects the relevance of ethics and philosophy in the modern classroom The third edition has been comprehensively updated to include the latest research statistics and legal policies Each chapter challenges and breaks down common myths surrounding each topic encouraging pre service teachers to think critically and reflect on their own beliefs The inclusion of a new chapter on alternative education reflects the ever changing Australian educational landscape In **Making Sense of Mass Education** Gordon Tait expertly blurs disciplinary boundaries drawing on sociology cultural studies history philosophy ethics and jurisprudence to provide a comprehensive understanding of the fundamental concepts of mass education **Schooling and Society** Gordon Tait, 2017-04-24 This new book is a wide ranging contemporary and accessible analysis of familiar and recurring myths about mass education in the United Kingdom Looking at a variety of important issues and problems each chapter begins by dispelling myths and assumptions about the classroom going beyond class race and gender to offer analysis of topics such as discipline youth cultures information technology and globalisation Utilising an interdisciplinary lens this book offers knowledge from disciplines as diverse as sociology philosophy jurisprudence and cultural studies Gordon Tait examines the strengths and weaknesses of different theoretical approaches to education from critical theory to postmodernism and Foucaultian governance to post colonialism Analysing the many assumptions about education taken for granted in British public discourse important conclusions are drawn about which of these assumptions are fair and reasonable and which we should challenge This book is an essential resource for advanced undergraduate and postgraduate courses on the sociology of education culture and education and the philosophy of education **International Handbook of Interpretation in Educational Research** Paul Smeyers, David Bridges, Nicholas C. Burbules, Morwenna Griffiths, 2015-01-06 This handbook focuses on the often neglected dimension of interpretation in educational research It argues that all educational research is in some sense interpretive and that understanding this issue belies some usual dualisms of thought and practice such as the sharp dichotomy between qualitative and quantitative research Interpretation extends from the very framing of the research task through the sources which constitute the data the process of their recording representation and analysis to the way in which the research is finally or provisionally presented The thesis of the handbook is that interpretation cuts across the fields both philosophically organizationally and methodologically By covering a comprehensive range of research approaches and methodologies the handbook gives early career researchers what they need to know in order to decide what particular methods can offer for various educational research contexts fields An extensive overview includes concrete examples of different kinds of research not limited for example to teaching and learning examples as present in the Anglo Saxon tradition but including as well what in the German Continental tradition is labelled *pädagogisch* examples from child rearing and other contexts of non formal education with full description and explanation of why these were chosen in particular circumstances and reflection on the wisdom or otherwise of the choice combined in each

case with consideration of the role of interpretation in the process The handbook includes examples of a large number of methods traditionally classified as qualitative interpretive and quantitative used across the area of the study of education Examples are drawn from across the globe thus exemplifying the different opportunities and constraints that educational research has to confront in different societies
