Smith,Woodrow T. Fail,2023-04-26 There are many books covering the rules of golf but very little written on how to be a golf referee rules official Most people do not realize that almost all golf referees are volunteers Sure many of them get lunch or breakfast covered while at a tournament But very few actually get paid The comradery and

passion for the game of golf are what inspires most golf enthusiasts to begin an exploration of the rules. From there many want to help with golf tournaments. There is very little guidance other than word of mouth on how to become involved or what golf referees do. Some seem to think that golf referees hang out in the woods and race out in a golf cart to tell a player they incurred a penalty. But on the contrary we try to help players avoid penalties and be there for them when they have questions to insure they play according to the rules. We also help set up the course, set the tees, mark the course and choose hole locations and set up the tournament notice to players, local rules, starting times and many other administrative duties. We hope this book provides a different side of golf that might inspire you to become a golf referee. **In Dogs We Trust** Jacob F. Rivers III, Jeffrey Makala, 2019-05-17

A grand anthology that celebrates the many sterling virtues of the canine species. Dogs have lived with humans for thousands of years as working partners. By the nineteenth century their role expanded to companions. American dog literature reflects this gradual but dramatic shift that continues even today. Our household dogs are quite literally closer than ever to us, sleeping in our beds, getting dressed in Halloween costumes and serving as emotional support companions. *In Dogs We Trust* is the first comprehensive anthology of American dog literature. It features stories, anecdotes and poetry that celebrate the many sterling virtues of the canine species. By mining the vast American literary archive of nineteenth and early twentieth century periodicals, Jacob F. Rivers III and Jeffrey Makala reveal the mystique and magic of the human-canine relationship and what they believe is one of the best connections humans have to the mysteries of the natural world. This grand anthology features a rich harvest of fiction and nonfiction in which the canine heroes and heroines think and act in ways that illuminate their unquestioning loyalty and devotion. By taking dog literature seriously, Rivers and Makala believe we can learn more about our animal companions, ourselves and our national literature. For them dog literature is American literature; it helps us explore and explain who we are and who we wish to be. *Speaking, Listening and Understanding* Catherine Delamain, Jill Spring, 2022-01-27
