The Royal Academy's popular Summer Exhibition has been an annual event since 1769. Today about 1 000 works are selected each year from more than 10 000 entries representing some 5 000 artists. The resulting exhibition includes paintings, drawings, prints, sculpture, architectural design and models and continues to be the largest open exhibition in the UK. The *Royal Academy Illustrated* first published in the 1870s presents the highlights of each year's show and is a fascinating barometer of changing artistic tastes. About 180 works are illustrated accompanied by installation shots of the galleries that reveal the individual nature of each year's show. These photographs together with commentaries on the works by the exhibition coordinators make this a handsome and informative record of this most popular show.      *Visual, Material and Textual Cultures of Food and Drink in China, 200 BCE-1900 CE* Stacey Pierson, 2022-08-25. This collection of essays examines aspects of the history of food and drink in China through an innovative interdisciplinary lens. Arranged in chronological and thematic order, the chapters present the research of a diverse group of international scholars and cover subjects ranging from Han period tomb paintings, jade goblets used for ceremonial elixirs and pottery figurines of kitchen servants to Tang gold vessels, Ming porcelain wine cups and 18th century imperial tea houses. This volume can therefore be read as a material history of Chinese food and drink through utensils and ingredients such as tea and wine as well as a developmental survey of drinking and dining practices, food cultures and culinary concepts in historical China. It will appeal to anyone with an interest in Chinese culinary history, Chinese art and archaeology as well as world food cultures.      *The Architecture Co-laboratory* Kas Oosterhuis, Lukas Feireiss, 2006.
