## **Royal Landscape The Gardens And Parks Of Windsor:**

*Royal Landscape* Jane Roberts, 1997-01-01 The parks that surround England's Windsor Castle were established in the Middle Ages for the protection of the royal deer With the assistance of documents in the Public Record Office and the Royal Archives and works of art in the Royal Collection Jane Roberts has created an extensive and beautifully illustrated history of this royal acreage 200 color 300 b w illustrations **Capability Brown, Royal Gardener** Jonathan Finch, Jan

Woudstra, 2020-10-26 Lancelot Capability Brown was one of the most influential landscape designers of the eighteenth century at a time when Britain was changing radically from an agrarian to an industrial and colonial nation whilst Europe was periodically convulsed by war and revolution The extent and nature of his influence are however fiercely debated Brown worked at hundreds of important sites across England and his name became synonymous with the English Garden style which was copied across Northern Europe and entranced Catherine the Great who remodelled her landscapes in St Petersburg to reflect the new style He was famed in his time and recognised by the Crown but Brown's style was readily copied over his later life and particularly after his death Arguably this ubiquity led to the denigration of his achievements and even his character particularly by the agents of the Picturesque The lack of any personal primary material from Brown forcing scholars to rely on his landscapes contracts and bank accounts has hindered attempts to provide a rounded and credible account of the man and his works However by exploring his team of associates and his role as Royal Gardener new light can be thrown on the man his landscapes and his landscape legacy Bringing together a number of perspectives from across Northern Europe *Capability Brown Royal Gardener* explores the lasting international impact of Brown With Brown's position as Royal Gardener at its heart this book explores for the first time his business methods working methods and European influence It assesses how crucially Brown's work practices placed him within the world of nurserymen and landscape designers and how his business practices and long term relationships with draughtsmen and designers allowed him to manage a huge number of projects and a substantial financial turnover This in turn allowed him to work in a way that promoted and advanced his style of landscape Edited by Professor Jonathan Finch University of York and Dr Jan Woudstra University of Sheffield and with a varied range of engaging contributors drawn internationally from archaeology art history history and landscape architecture *Capability Brown Royal Gardener* weaves together strands from across a broad range of disciplinary interests It makes an important contribution to the scholarly discussion of Brown's work the work of his collaborators and legacy in the UK and across Northern Europe Relevant to students and academics at all levels this volume throws new light on Capability Brown and his impact on the business of place making in Northern Europe *The British Are Coming* Rick Atkinson, 2019-05-14 Winner of the George Washington Prize Winner of the Barbara and David Zalaznick Book Prize in American History Winner of the Excellence in American History Book Award Winner of the Fraunces Tavern Museum Book Award From the bestselling author of the Liberation Trilogy comes the extraordinary first volume of his new trilogy

about the American Revolution Rick Atkinson author of the Pulitzer Prize winning *An Army at Dawn* and two other superb books about World War II has long been admired for his deeply researched stunningly vivid narrative histories Now he turns his attention to a new war and in the initial volume of the Revolution Trilogy he recounts the first twenty one months of America's violent war for independence From the battles at Lexington and Concord in spring 1775 to those at Trenton and Princeton in winter 1777 American militiamen and then the ragged Continental Army take on the world's most formidable fighting force It is a gripping saga alive with astonishing characters Henry Knox the former bookseller with an uncanny understanding of artillery Nathanael Greene the blue-eyed bumpkin who becomes a brilliant battle captain Benjamin Franklin the self-made man who proves to be the wildest of diplomats George Washington the commander in chief who learns the difficult art of leadership when the war seems all but lost The story is also told from the British perspective making the mortal conflict between the redcoats and the rebels all the more compelling Full of riveting details and untold stories *The British Are Coming* is a tale of heroes and knaves of sacrifice and blunder of redemption and profound suffering Rick Atkinson has given stirring new life to the first act of our country's creation drama *The Secret Life of the Georgian*

*Garden* Kate Felus, 2016-12-09 Georgian landscape gardens are among the most visited and enjoyed of the UK's historical treasures The Georgian garden has also been hailed as the greatest British contribution to European Art seen as a beautiful composition created from grass trees and water a landscape for contemplation But scratch below the surface and history reveals these gardens were a lot less serene and in places a great deal more scandalous Beautifully illustrated in colour and black and white this book is about the daily life of the Georgian garden It reveals its previously untold secrets from early morning rides through to evening amorous liaisons It explains how by the eighteenth century there was a desire to escape the busy country house where privacy was at a premium and how these gardens evolved aesthetically with modestly sized far-flung temples and other eye-catchers to cater for escape and solitude as well as food drink music and fireworks Its publication coincides with the 2016 tercentenary of the birth of Lancelot Capability Brown arguably Britain's greatest ever landscape gardener and the book is uniquely positioned to put Brown's work into its social context *Washington at the Plow* Bruce A. Ragsdale, 2021-10-12 George Washington spent most of his time farming often employing experimental methods Washington saw slave-powered scientific agriculture as the key to the nation's prosperity Bruce Ragsdale argues that it was slave labor's inefficiency as much as its inhumanity that finally convinced Washington to emancipate the men and women bonded to him

*Landscape History*, 1998 **Hanover and England** Marcus Köhler, Joachim Wolschke-Bulmahn, 2018-07-31 When George I Elector of Hanover was crowned King of England in 1714 he established a dynastic union between the two countries that endured until 1837 leaving many cultural and political accomplishments to posterity The 300th anniversary of this union led the Institute of Landscape Architecture Technische Universität Dresden and the Centre of Garden and Landscape Architecture CGL Leibniz Universität Hannover to take a critical look at the gardens that resulted The symposium Hanover

and England a union of state and garden German and British garden culture between 1714 and today was sponsored by the Lower Saxonian Ministry of Science and Culture The resulting papers dealt with far more than garden history addressing as well the background and channels by which ideas on art agriculture commerce technology literature and politics were exchanged Given the encyclopedic interests of late 18th century thinkers it was necessary to invite several academic disciplines to participate in order to describe and discuss the cultural transfer between Great Britain and Hanover The transfer of horticultural and artistic ideas very often flourished in the 19th century at different places For this reason the conference focused on two key aspects the Hanoverian British exchange between 1714 and 1837 the period of the actual royal union and the Anglo German relations that endure to the present day Als Georg I Kurfürst von Hannover 1714 zum König von England gekrönt wurde begründete dies eine Personalunion zwischen den beiden Ländern die bis 1837 bestand und der Nachwelt eine Vielzahl kultureller und politischer Errungenschaften hinterließ Das 300 jährige Jubiläum dieses Zusammenschlusses nahmen das Institut für Landschaftsarchitektur der Technischen Universität Dresden und das Zentrum für Gartenkunst und Landschaftsarchitektur CGL der Leibniz Universität Hannover zum Anlass sich kritisch mit den in dieser Zeit entstandenen Gärten auseinanderzusetzen Das Symposium Hanover and England a union of state and garden German and British garden culture between 1714 and today wurde vom Niedersächsischen Ministerium für Wissenschaft und Kultur gefördert Die Beiträge beschäftigten sich nicht nur mit Gartengeschichte sondern widmeten sich auch dem Austausch von Ideen zu Kunst Landwirtschaft Handel Technologie Literatur und Politik So schien es sinnvoll unterschiedliche akademische Disziplinen zur Teilnahme einzuladen um den kulturellen Transfer zwischen Großbritannien und Hannover zu untersuchen und zu diskutieren Die Konferenz konzentrierte sich auf zwei Schlüsselaspekte den hannoverisch britischen Austausch zwischen 1714 und 1837 die Zeit der Personalunion und die deutsch englischen Beziehungen die bis heute andauern

*Fourteenth Century England IV* J. S. Hamilton, 2000 This series provides a forum for the most recent research into the political social and ecclesiastical history of the 14th century      *Gardens of Court and Country* David Jacques, 2017-01-01 Gardens of Court and Country provides the first comprehensive overview of the development of the English formal garden from 1630 to 1730 Often overshadowed by the English landscape garden that became fashionable later in the 18th century English formal gardens of the 17th century displayed important design innovations that reflected a broad rethinking of how gardens functioned within society With insights into how the Protestant nobility planned and used their formal gardens the domestication of the lawn and the transformation of gardens into large rustic parks David Jacques explores the ways forecourts flower gardens bowling greens cascades and more were created and reimagined over time This handsome volume includes 300 illustrations including plans engravings and paintings that bring lost and forgotten gardens back to life      **The Past, Present, and Future of Libraries** Patrick Spero, 2021-01-01 In October 2018 the American Philosophical Society APS gathered a group of scholars library professionals Academic Libraries Supporting Change in American Higher Education 1860-1920

Nicholas Entrikin,Doug Richardson,2012-03-15 There has been a remarkable resurgence in the past decade of intellectual interplay between geography and the humanities in both academic and public circles Terminology and concepts such as space place landscape mapping and geography are becoming pervasive as conceptual frameworks and core metaphors in recent publications by humanities scholars and well known writers Envisioning Landscapes Making Worlds examines the depth and complexity of human meaning invested in maps attached to landscapes and embedded in the spaces and places of modern life The clashing and blending of cultures caused by globalization and the new technologies that profoundly alter human environmental experience suggest new geographical narratives and representations that are explored here by a multidisciplinary group of authors With contributions from leading scholars this text is essential reading for scholars and students seeking to understand the new synergies and interconnectedness of geography and the humanities **Baroque Garden Cultures** Michel Conan,2005 Baroque Garden Cultures proposes a new approach to the study of baroque gardens examining the social reception of gardens as a means to understand garden culture in general and exploring baroque gardens as a feature of baroque cultures in particular **A Companion to Chivalry** Robert W. Jones,Peter R. Coss,2019 A comprehensive study of every aspect of chivalry and chivalric culture Chivalry lay at the heart of elite society in the Middle Ages but it is a nebulous concept which defies an easy definition More than just a code of ethical behaviour it shaped literary tastes art and manners as well as socialhierarchies political events and religious practices its impact is everywhere This work aims to provide an accessible and holistic survey of the subject Its chapters by leading experts in the field cover a wide range of areas the tournament arms and armour the chivalric society s organisation in peace and war its literature and its landscape They also consider the gendered nature of chivalry its propensity for violence and its post medieval decline and reinvention in the early modern and modern periods It will be invaluable to the student and the scholar of chivalry alike ROBERT W JONES is a Visiting Scholar in History Franklin and Marshall College PETER COSS is Emeritus Professor of Medieval History Cardiff University Contributors Richard Barber Joanna Bellis Matthew Bennett Sam Claussen Peter Coss Oliver Creighton David Green Robert W Jones Megan G Leitch Ralph Moffat Helen J Nicholson Clare Simmons David Simpkin Peter Sposato Louise J Wilkinson Matthew Woodcock

**Lancelot Brown and the Capability Men** David Brown,Tom Williamson,2016-08-15 Lancelot Capability Brown is often thought of as the innovative genius who single handedly pioneered a new naturalistic style of landscape design but he was in fact only one of many landscape designers in Georgian England Published to commemorate the three hundredth anniversary of Brown s birth this book casts important new light on his world renowned work his eventful life and the wider and robust

world of landscape design in Georgian England David Brown and Tom Williamson argue that Brown was one of the most successful designers of his time working in a style that was otherwise widespread and that it was his skill with this style and not his having invented it that linked his name to it The authors look closely at Brown s design business and the products he offered clients showing that his design packages helped define the era s aesthetic They compare Brown s business to those of similar designers such as the Adam brothers Thomas Chippendale and Josiah Wedgwood and they contextualize Brown s work within the wider contexts of domestic planning and the rise of neoclassicism Beautifully illustrated throughout this book celebrates the work of a master designer who was both a product and harbinger of the modern world Majolica Mania

Susan Weber,2021-01-12 The first comprehensive study of the most important ceramic innovation of the 19th century Colorful wildly imaginative and technically innovative majolica was functional and aesthetic ceramic ware Its subject matter reflects a range of 19th century preoccupations from botany and zoology to popular humor and the macabre Majolica Mania examines the medium s considerable impact from wares used in domestic settings to monumental pieces at the World s Fairs Essays by international experts address the extensive output of the originators and manufacturers in England including Minton Wedgwood and George Jones and the migration of English craftsmen to the U S New research including information on important American makers in New York Baltimore and Philadelphia is also featured Fully illustrated the book is enlivened by new photography of pieces from major museums and private collections in the U S and Great Britain **In**

**Ruins** Christopher Woodward,2010-05-12 In this enchanting meditation on ruins Christopher Woodward takes us on a thousand year journey from the plains of Troy to the monuments of ancient Rome from the crumbling palaces of Sicily Cuba and Zanzibar to the rubble of the London Blitz With an exquisite sense of romantic melancholy we encounter the teenage Byron in the moldering Newstead Abbey Flaubert watching the buzzards on the pyramids Henry James in the Colosseum and Freud at Pompeii We travel the Appian Way with Dickens and behold the Baths of Caracalla with Shelley An exhilarating tour at once elegant and stimulating In Ruins casts an exalting spell as it explores the bewitching power of architectural remains and their persistent hold on the imagination **Queen Anne**

James Anderson Winn,2014-06-03 As the last Stuart monarch Queen Anne 1665 1714 received the education thought proper for a princess reading plays and poetry in English and French while learning dancing singing acting drawing and instrumental music As an adult she played the guitar and the harpsichord danced regularly and took a connoisseur s interest in all the arts In this comprehensive interdisciplinary biography James Winn tells the story of Anne s life in new breadth and detail and in unprecedented cultural context Winn shows how poets painters and musicians used the works they made for Anne to send overt and covert political messages to the queen the court the church and Parliament Their works also illustrate the pathos of Anne s personal life the loss of her mother when she was six her troubled relations with her father and her sister James II and Mary II and her own doomed efforts to produce an heir Her eighteen pregnancies produced only one child who lived past infancy his death at the age of eleven mourned by poets

was a blow from which Anne never fully recovered Her close friendship with Sarah Duchess of Marlborough a topic of scabrous ballads and fictions ended in bitter discord the death of her husband in 1708 left her emotionally isolated and the wrangling among her chief ministers hastened her death Richly illustrated with visual and musical examples Queen Anne draws on works by a wide array of artists among them the composer George Frideric Handel the poet Alexander Pope the painter Godfrey Kneller and the architect Christopher Wren to shed new light on Anne's life and reign This is the definitive biography of Queen Anne *Country Life*, 1999 *The Power of Place* David Rollason, 2016-07-19 This volume explores the nature of power the power of kings emperors and popes through the places that these rulers created or developed including palaces cities landscapes holy places inauguration sites and burial places Ranging across all of Europe from the 1st to the 16th centuries David Rollason examines how these places conveyed messages of power and what those messages were

*The Hyperlocal in Eighteenth- and Nineteenth-Century Literary Space* Nicholas Birns, 2019-08-26 This book examines literary representations of hyperlocal spaces that subvert the idea of grounded and organic spatial identities Figures such as the pond the scientific particle and Wedgwood creamware often go unnoticed but they exemplify important shifts in culture and aesthetics in the eighteenth and nineteenth centuries *The Hyperlocal in Eighteenth and Nineteenth Century Literary Space* argues that these objects as well as locations such as alcoves in remote shires city inns and mountain retreats were portrayed by writers in the late eighteenth and early to mid nineteenth centuries as gambits that challenged cultural hegemonies It shows that the hyperlocal space or object though particular reaches beyond itself affording an elasticity that can allow those things that seem beneath notice to reveal broader cultural significance
