**Proceedings of the Royal Society of Medicine** Royal Society of Medicine (Great Britain), 1957 Comprises the proceedings of the various sections of the society each with separate t p and pagination No Way to Treat a Friend: Lifting the Lid on Complementary and Alternative Veterinary Medicine Niall Taylor, Alex Gough, 2017-09-08 No Way to Treat a Friend is an informative and readable expos of Complementary and Alternative Veterinary Medicine CAVM Written in an

accessible style and illustrated with stories and cases from veterinary practice about real animals this book is a counterweight to the mass of pro literature in existence which uncritically promotes CAVM without consideration of whether or not it works or could even be harmful to our animal companions The book takes a close look at how thinking can go wrong and how animals can appear to respond to treatment even when it is ineffective Individual alternative practices are examined including homeopathy acupuncture raw diets and the anti vaccination lobby and we find out if their claims stand up to scrutiny With a thoroughly scientific line it is not an attack on different belief systems but a rigorous analysis of the facts and a consideration of typical CAVM arguments as well as a helpful explanation for people who may be unfamiliar with what the various therapies entail Following on from the several successful books questioning the use of complementary therapies in human medicine such as *Bad Science No Way to Treat a Friend* looks at their use in veterinary medicine This is a valuable resource for veterinary practitioners as well as lay people who are interested in popular science animal topics animal welfare and medical matters 5m Books     *The Lancet* ,1865     **Nursing Times, Nursing Mirror** ,2000     Nursing Times ,1987-07     *Is Work Good for Your Health and Well-being?* Gordon Waddell,A. Kim Burton,Great Britain: Department for Work and Pensions,2006-09-06 Increasing employment and supporting people into work are key elements of the Government's public health and welfare reform agendas This independent review commissioned by the Department for Work and Pensions examines scientific evidence on the health benefits of work focusing on adults of working age and the common health problems that account for two thirds of sickness absence and long term incapacity The study finds that there is a strong evidence base showing that work is generally good for physical and mental health and well being taking into account the nature and quality of work and its social context and that worklessness is associated with poorer physical and mental health Work can be therapeutic and can reverse the adverse health effects of unemployment in relation to healthy people of working age for many disabled people for most people with common health problems and for social security beneficiaries
