Rubens Before 1620:

Rubens and the Eloquence of Drawing Catherine H. Lusheck, 2017-08-07 Rubens and the Eloquence of Drawing re-examines the early graphic practice of the preeminent northern Baroque painter Peter Paul Rubens Flemish 1577 1640 in light of early modern traditions of eloquence particularly as promoted in the late sixteenth and early seventeenth century Flemish Neostoic circles of philologist Justus Lipsius 1547 1606 Focusing on the roles that rhetorical and pedagogical considerations played in the artist's approach to disegno during and following his formative Roman period 1600-08 this volume highlights Rubens's high ambitions for the intimate medium of drawing as a primary site for generating meaningful and original ideas for his larger artistic enterprise As in the Lipsian realm of writing personal letters the humanist activity then described as a cognate activity to the practice of drawing a Senecan approach to eclecticism a commitment to emulation and an Aristotelian concern for joining form to content all played important roles Two chapter-long studies of individual drawings serve to demonstrate the relevance of these interdisciplinary rhetorical concerns to Rubens's early practice of drawing Focusing on Rubens's Medea Fleeing with Her Dead Children Los Angeles Getty Museum and Kneeling Man Rotterdam Museum Boijmans Van Beuningen these close-looking case studies demonstrate Rubens's commitments to creating new models of eloquent drawing and to highlighting his own status as an inimitable maker Demonstrating the force and quality of Rubens's intellect in the medium then most associated with the closest ideas of the artist such designs were arguably created as more robust pedagogical and preparatory models that could help strengthen art itself for a new and often troubled age

Renaissance and Reformation, 1500-1620 Jo Carney, 2000-10-30 Covering the period comprising the Renaissance and Reformation this volume introduces a unique set of interdisciplinary biographical dictionaries providing basic information on the people who have contributed significantly to the culture of Western civilization Unlike general dictionaries which focus on political and military figures this book covers such figures as the religious leaders who contributed to the Reformation scientists who paved the way for a new view of the universe and Renaissance painters sculptors and architects as well as writers musicians and scholars While the great personalities are included Michelangelo Shakespeare Galileo the volume covers lesser-known figures as well the Muslim scholar Leo Africanus the Flemish geographer astronomer Gemma Frisius the English travel writer Thomas Coryate Although many of the subjects also had political influence the entries are written to highlight their individual cultural achievement An exciting tumultuous and chaotic age the years from 1500 to 1620 saw increasing discontent with Catholicism and the beginning of Protestantism with Luther's 95 theses great strides in the development of the printing press and a resulting increase in literacy the humanist movement with its emphasis on the arts of antiquity a proliferation of literature and art inspired by but moving beyond classical forms and conflict between the triumph of Renaissance culture and the theologians of the Protestant Reformation The resulting cultural production was astounding This volume covers those who contributed to the fields of art and

study of the Society of Jesus's early missions Up to now historians have treated the early modern Catholic missionary project as a disjointed collection of regional missions rather than as a single world encompassing example of religious globalization Luke Clossey shows how the vast distances separating missions led to logistical problems of transportation and communication incompatible with traditional views of the Society as a tightly centralized military machine In fact connections unmediated by Rome sprung up between the missions throughout the seventeenth century He follows trails of personnel money relics and information between missions in seventeenth century China Germany and Mexico and explores how Jesuits understood space and time and visualized universal mission and salvation This pioneering study demonstrates that a global perspective is essential to understanding the Jesuits and will be required reading for historians of Catholicism and the early modern world

Federico Barocci and the Oratorians Ian F. Verstegen, 2015-07-01 In 1586 Federico Barocci delivered his Visitation of the Virgin and St Elizabeth to the Chiesa Nuova in Rome For the next quarter century Barocci dominated the art scene in Rome there was no other artist from whom it was harder to get work and no other artist charged such high prices Having two important altarpieces in the Chiesa Nuova and two additional commissions discussed was an impressive feat for an artist living exclusively in Urbino Why did the Oratorians monopolize Barocci's talents in Rome and why does it seem that Barocci was their first choice when considering artists to decorate their church What was it about Barocci's art that appealed to Oratorian sensibilities and their vision of the artistic program for decoration of their church This book examines the relationship between Barocci and the Congregation of the Oratory arguing for a distinct physiognomy of Oratorian patronage and exposing the function the Oratorians expected of religious imagery in contrast to other groups of their time While explaining Oratorian patronage it thus deals with a thorny question in social science how can a collective body have unified intentions and actions The result is a contribution both to the history of Italian painting and to art historical methodology

Art and Reform in the Late Renaissance Jesse M. Locker, 2018-08-14 Drawing on recent research by established and emerging scholars of sixteenth and seventeenth century art this volume reconsiders the art and architecture produced after 1563 across the conventional geographic borders Rather than considering this period a degraded afterword to Renaissance classicism or an inchoate proto Baroque the book seeks to understand the art on its own terms By considering artists such as Federico Barocci and Stefano Maderno in Italy Hendrick Goltzius in the Netherlands Antoine Caron in France Francisco Ribalta in Spain and Bartolomeo Bitti in Peru the contributors highlight lesser known reforms of art from outside the conventional centers As the first text to cover this formative period from an international perspective this volume casts new light on the aftermath of the Renaissance and the beginnings of Baroque

Art Market and Connoisseurship Anna Tummers, Koenraad Jonckheere, 2008 The question of whether seventeenth century painters such as Rembrandt and Rubens were exclusively responsible for the paintings later sold under their names has caused many a heated debate Despite the rise of scholarship on the history of the art market much is still unknown about the ways in which

paintings were produced assessed priced and marketed during this period which leads to several provocative questions did contemporary connoisseurs expect masters such as Rembrandt to paint works entirely by their own hand Who was credited with the ability to assess paintings as genuine The contributors to this engaging collection Eric Jan Sluijter Hans Van Miegroet and Neil De Marchi among them trace these issues through the booming art market of the seventeenth and eighteenth centuries arriving at fascinating and occasionally unexpected conclusions **Catalog of Copyright Entries.**

Third Series Library of Congress. Copyright Office, 1975 Frans Floris (1519/20-1570): Imagining a Northern Renaissance Edward H. Wouk, 2018-03-20 Frans Floris de Vriendt radically transformed Netherlandish art His monumental mythologies introduced a new appreciation for the heroic nude to the Low Countries and his religious art challenged standards of decorum Born into a family of sculptors and architects Floris refashioned his art through travel first studying with the humanist painter Lambert Lombard in Liège and then continuing on to Italy These experiences defined the hybridizing novelty of his art forged by juxtaposing antique and modern Italian and northern sources This book maps Floris's hybrid style onto shifting conceptions of cultural religious and political identity on the eve of the Dutch Revolt It explores his collaborations and rivalries engagement with artistic theory hierarchical workshop and revolutionary use of print **Craft Guilds in the Early Modern Low Countries** Catharina Lis, Hugo Soly, 2017-03-02 In the half millennium of their existence guilds in the Low Countries played a highly significant role in shaping the societies of which they were a part One key aspect that has been identified in recent historical research to explain the survival of the guilds for such a long time is the guilds continued adaptability to changing circumstances This idea of flexibility is the point of departure for the essays in this volume which sheds new light on the corporate system and identifies its various features and regional variances The contributors explore the interrelations between economic organisations and political power in late medieval and early modern towns and address issues of gender religion and social welfare in the context of the guilds This cohesive and focussed volume will provide a stimulus for renewed interest and further research in this area It will appeal to scholars and students with an interest in early modern economic social and cultural history in particular but will also be valuable to those researching into political religious and gender history Renaissance and Baroque Art Leo Steinberg, 2021-02 Leo Steinberg was one of the most original art historians of the twentieth century known for taking interpretive risks that challenged the profession by overturning reigning orthodoxies In essays and lectures ranging from old masters to contemporary art he combined scholarly erudition with an eloquent prose that illuminated his subject and a credo that privileged the visual evidence of the image over the literature written about it His writings sometimes provocative and controversial remain vital and influential reading Steinberg's perceptions evolved from long hard looking at his objects of study Almost everything he wrote included passages of formal analysis but always put into the service of interpretation This volume begins and ends with thematic essays on two fundamental precepts of Steinberg's art history how dependence on textual authority mutes the visual truths of images and

why artists routinely copy or adapt earlier artworks In between are fourteen chapters on masterpieces of renaissance and baroque art with bold and enlightening interpretations of works by Mantegna Filippo Lippi Pontormo El Greco Caravaggio Steen and finally Vel zquez Four chapters are devoted to some of Vel zquez s best known paintings ending with the famously enigmatic Las Meninas Renaissance and Baroque Art is the third volume in a series that presents Steinberg s writings selected and edited by his longtime associate Sheila Schwartz

Rubens David Freedberg, Peter Paul Rubens, 1984 Such are the characteristics of Rubens s compositions of the Life of Christ after the Passion and these are some of the problems they raise They count amongst his most popular compositions as witnessed by the large number of surviving copies after individual works or after elements within them They were mostly painted in the decade after Rubens s return to Antwerp from Italy at a time when his reputation was being firmly established A wide range of primarily local patrons commissioned them and certain subjects were painted with striking frequency But despite the exigencies of patronage and iconography all bear testimony to the extraordinary originality of Rubens s art an originality tempered by his keen awareness of the achievements of Italian art and a deep understanding of the Netherlandish tradition And whatever the role assigned to his assistants in the purely mechanical aspects of the execution of these works we are rarely left in doubt about the fluency of his painting the faultless effectiveness of his drawing and the fertility of his invention Introduction page 28
