**The Carpetbaggers of Kabul and Other American-Afghan Entanglements** Jennifer L. Fluri, Rachel Lehr, 2017 The 2001 invasion of Afghanistan by United States and coalition forces was followed by a flood of aid and development dollars and experts representing well over two thousand organizations each with separate policy initiatives geopolitical agendas and socioeconomic interests This book examines the everyday actions of people associated with this international effort with a special emphasis on small players individuals and groups who charted alternative paths outside the existing networks of aid and development This focus highlights the complexities complications and contradictions at the intersection of the everyday and the geopolitical showing how dominant geopolitical narratives influence daily life in places like Afghanistan and what happens when the goals of aid workers or the needs of aid recipients do not fit the narrative Specifically this book examines the use of gender need and grief as drivers for both common and exceptional responses to geopolitical interventions Throughout this work Jennifer L. Fluri and Rachel Lehr describe intimate encounters at a microscale to complicate and dispute the ways in which Afghans and their country have been imagined described fetishized politicized vilified and rescued The authors identify the ways in which Afghan men and women have been narrowly categorized as perpetrators and victims respectively They discuss several projects to show how gender and grief became forms of currency that were exchanged for different social economic and political opportunities Such entanglements suggest the power and influence of the United States while illustrating the ways in which individuals and groups have attempted to chart alternative avenues of interaction intervention and interpretation

Kenya Daniel Branch, 2011-11-15 On December 12 1963 people across Kenya joyfully celebrated independence from British colonial rule anticipating a bright future of prosperity and social justice As the nation approaches the fiftieth anniversary of its independence however the people's dream remains elusive During its first five decades Kenya has experienced assassinations riots coup attempts ethnic violence and political corruption The ranks of the disaffected the unemployed and the poor have multiplied In this authoritative and insightful account of Kenya's history from 1963 to the present day Daniel Branch sheds new light on the nation's struggles and the complicated causes behind them Branch describes how Kenya constructed itself as a state and how ethnicity has proved a powerful force in national politics from the start as have disorder and violence He explores such divisive political issues as the needs of the landless poor international relations with Britain and with the Cold War superpowers and the direction of economic development Tracing an escalation of government corruption over time the author brings his discussion to the present paying particular attention to the rigged election of 2007 the subsequent compromise government and Kenya's prospects as a still evolving independent state

*The Rise of a Party-State in Kenya* Jennifer A. Widner, 2023-04-28 Although Kenya is often considered an African success story its political climate became increasingly repressive under its second president Daniel arap Moi Widner charts the transformation of the Kenya African National Union KANU from a weak loosely organized political party under Jomo

Kenyatta into an arm of the president's office with watchdog youth wings and strong surveillance and control functions under Moi. She suggests that single party systems have an inherent tendency to become party states or single party regimes in which the head of state uses the party as a means of control. The speed and extent of these changes depend on the countervailing power of independent interest groups such as business associations, farmers or professionals. Widner's study offers important insights into the dynamics of party systems in Africa. Although Kenya is often considered an African success story, its political climate became increasingly repressive under its second president Daniel arap Moi. Widner charts the transformation of the Kenya African National Union (KANU) from a weak, loosely

### **The Dialogue of Earth and Sky**

Timothy J. Knab, 2022-07-12. In Mexico's Sierra Norte de Puebla, beliefs that were held before the coming of Europeans continue to guide the lives of modern Aztecs. For residents of San Martín Zinacapan, life in and on the earth is animated by the same forces through which people seek to maintain a cohesive view of the relationship of mankind, the cosmos, and the natural world. This delicate balance of the human spirit maintains the health and well-being of villagers and is an essential part of the social and ideological framework that makes a person's life whole. This book describes the basic elements of a belief system that has survived the onslaught of Catholicism, colonialism, and the modern world. Timothy Knab has spent thirty years working in this area of Mexico, learning of the Most Holy Earth and following what its people there call the good path. He was initiated as a dreamer, learned the prayers and techniques for curing maladies of the human soul, and from his long association with the Sanmartinos has constructed a thorough account of their beliefs and practices. Learning to recount dreams, forming a dreamtale, and carrying it on one's back to the waking world is the first part of the practitioner's labor in curing. But dreamtales are shown to be more than parables in this world; for they embody the ethos and cosmovision that link Sanmartinos with their traditions and the Most Holy Earth. Building on this background, Knab describes how the open-ended interpretation of dreams is the practitioner's primary instrument for restoring a client's soul to its proper equilibrium, thus providing a practical approach to finding and resolving everyday problems. Many anthropologists hold that such beliefs have long since disappeared into the nebulous past, but in San Martín they remain alive and well. The underworld of the ancestors, *talocan* or *Tlalocan* for the Aztecs, is still a vital part of everyday life for the people of the Sierra Norte de Puebla. The *Dialogue of Earth and Sky* is an important record of a culture that has maintained a precolumbian cosmovision for nearly 500 years, revealing that this system is as resonant today with the ethos of Mesoamerican peoples as it was for their ancestors.

Madder Red Robert Chenciner, 2003-09-02. Madder red is an ancient dyestuff extracted from the root of the madder plant growing in many countries around the world. The secret and devilishly complex Oriental dyeing process to obtain the lustrous colour known as Turkey Red was avidly sought by Europeans from the time before the fall of Ancient Rome. It was finally cracked by the French about 1760, who were able to dye wool, silk, and cotton bright red. After the lowlands of the Caspian, Caucasus had been subdued by the Russians in the early 1800s, madder was cultivated there and rapidly became the main

crop The quest for Turkey Red went hand in hand with an avalanche of scientific research which not only improved the yield of dyestuff from the roots but led to its chemical synthesis and in 1870 the collapse of the world wide madder industry Many of the nascent dye companies grew into chemical giants of our time Further regional and cultural background may be found in Chenciner s Daghestan Tradition and Survival also published in the Caucasus World series **Kenya National Assembly Official Record (Hansard)** ,1972-09-12 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya *Comparative Anatomy of the Vegetative Organs of the Phanerogams and Ferns* Anton de Bary,1884
