## Rubian Civil War Vol 2 The White Armies:

**Lincoln's Peace** Michael Vorenberg, 2025-03-18 One historian's journey to find the end of the Civil War and along the way to expand our understanding of the nature of war itself and how societies struggle to draw the line between war and peace We set out on the James River March 25 1865 aboard the paddle steamboat River Queen President Lincoln is on his way to General Grant's headquarters at City Point Virginia and he's decided he won't return to Washington until he's witnessed or perhaps even orchestrated the end of the Civil War Now it turns out more than a century and a half later historians are still searching for that end Was it April 9 at Appomattox as conventional wisdom holds where Lee surrendered to Grant in Wilmer McLean's parlor Or was it ten weeks afterward in Galveston where a federal commander proclaimed Juneteenth the end of slavery Or perhaps in August of 1866 when President Andrew Johnson simply declared the insurrection is at an end That the answer was elusive was baffling even to a historian of the stature of Michael Vorenberg whose work served as a key source of Steven Spielberg's Lincoln Vorenberg was inspired to write this groundbreaking book finding its title in the peace Lincoln hoped for but could not make before his assassination A peace that required not one but many endings as Vorenberg reveals in these pages the most important of which came well more than a year after Lincoln's untimely death To say how a war ends is to suggest how it should be remembered and Vorenberg's search is not just for the Civil War's endpoint but for its true nature and legacy so essential to the American identity It's also a quest in our age of forever wars to understand whether the United States's interminable conflicts of the current era have a precedent in the Civil War and whether in a sense wars ever end at all or merely wax and wane [The Calculus of Violence](#) Aaron Sheehan-Dean, 2018-11-05 Winner of the Jefferson Davis Award Winner of the Johns Family Book Award Winner of the Army Historical Foundation Distinguished Writing Award A work of deep intellectual seriousness sweeping and yet also delicately measured this book promises to resolve longstanding debates about the nature of the Civil War Gregory P Downs author of *After Appomattox* Shiloh Chancellorsville Gettysburg tens of thousands of soldiers died on these iconic Civil War battlefields and throughout the South civilians suffered terrible cruelty At least three quarters of a million lives were lost during the American Civil War Given its seemingly indiscriminate mass destruction this conflict is often thought of as the first total war But Aaron Sheehan Dean argues for another interpretation *The Calculus of Violence* demonstrates that this notoriously bloody war could have been much worse Military forces on both sides sought to contain casualties inflicted on soldiers and civilians In Congress in church pews and in letters home Americans debated the conditions under which lethal violence was legitimate and their arguments differentiated carefully among victims women and men black and white enslaved and free Sometimes as Sheehan Dean shows these well meaning restraints led to more carnage by implicitly justifying the killing of people who were not protected by the laws of war As the Civil War raged on the Union's confrontations with guerrillas and the Confederacy's confrontations with black soldiers forced a new reckoning with traditional categories of lawful combatants

and raised legal disputes that still hang over military operations around the world today In examining the agonizing debates about the meaning of a just war in the Civil War era Sheehan Dean discards conventional abstractions total soft limited as too tidy to contain what actually happened on the ground *Martial Metaphors* Joseph Allan Frank,2016-07-12 The book draws on letters diaries recent books and articles in History but also relies on multi disciplinary sources in politics and literature along transnational comparisons to place the events in a broader perspective The book invites the reader to embark with the soldiers and some civilians on their journey into the murderous events across the nation The passage began with the heroic clichés that prevailed during the initial organization and embarkation of the armies However the shock of battle and the weary life in camps brought new images of the war such as a bleak vision seeing the war as a chaotic absurdity others began to suspect conspiratorial agencies behind the conflict yet others sought to galvanize their support for the hard road ahead by invoking melodramatic metaphors as a crusade and means of national redemption and punishment of the adversary As the fighting intensified after the initial clashes of 1862 some believed that the hard war opened the way for imposing revolutionary changes such as upending the South's social structure providing social economic and political equality to a new class the ex slaves Finally there were some who felt the war was a Sophoclean Greek tragedy because the outcome and nature of the war proved contrary to what they had assumed the struggle would be about and what it would be like

*Historical Dictionary of the Civil War* Terry L. Jones,2011 The Civil War was the most traumatic event in American history pitting Americans against one another rending the national fabric leaving death and devastation in its wake and instilling an anger that has not entirely dissipated even to this day 150 years later This updated and expanded two volume second edition of the Historical Dictionary of the Civil War relates the history of this war through a chronology an introductory essay an extensive bibliography and hundreds of cross referenced dictionary entries on persons places events institutions battles and campaigns This book is an excellent access point for students researchers and anyone wanting to know more about the Civil War *The Hippies* John Anthony Moretta,2017-01-26 Among the most significant subcultures in modern U S history the hippies had a far reaching impact Their influence essentially defined the 1960s hippie antifashion divergent music dropout politics and make love not war philosophy extended to virtually every corner of the world and remains influential The political and cultural institutions that the hippies challenged or abandoned mainly prevailed Yet the nonviolent egalitarian hippie principles led an era of civic protest that brought an end to the Vietnam War Their enduring impact was the creation of a 1960s frame of reference among millions of baby boomers whose attitudes and aspirations continue to reflect the hip ethos of their youth *From Yeoman to Redneck in the South Carolina Upcountry, 1850-1915* Stephen A. West,2008 In *From Yeoman to Redneck in the South Carolina Upcountry* Stephen A West revises understandings of the American South by offering a new perspective on two iconic figures in the region's social landscape Yeoman a term of praise for the small landowning farmer was commonly used during the antebellum era but ultimately eclipsed by redneck an epithet that

emerged at the end of the nineteenth century In popular use each served less as a precise class label than as a means to celebrate or denigrate the moral and civic worth of broad groups of white men Viewing these richly evocative figures as ideological inventions rather than sociological realities West examines the divisions they obscured and the conflicts that gave them such force The setting for this impressively detailed study is the Upper Piedmont of South Carolina the sort of upcountry region typically associated with the white plain folk West shows how the yeoman ideal played a vital role in proslavery discourse before the Civil War but poorly captured the realities of life with important implications for how historians understand the politics of slavery and the drive for secession After the Civil War the South Carolina upcountry was convulsed by the economic transformations and political conflicts out of which the redneck was born West reinterprets key developments in the history of the New South such as the politics of lynching and the phenomenon of the Southern demagogue and uncovers the historical roots of a stereotype that continues to loom large in popular understandings of the American South Drawing together periods and topics often treated separately West combines economic social and political history in an original and compelling account

**International Criminal Law, Volume 1: Sources, Subjects and Contents** M. Cherif Bassiouni, 2008-12-31 Volume 1 deals with international crimes It contains several significant contributions on the theoretical and doctrinal aspects of ICL which precede the five chapters addressing some of the major categories of international crimes The first two chapters address the sources and subjects of ICL and its substantive contents The other five chapters address Chapter 3 The Crime Against Peace and Aggression The Crime Against Peace and Aggression From its Origins to the ICC The Crime of Aggression and the International Criminal Court Chapter 4 War Crimes Crimes Against Humanity Penal Aspects of International Humanitarian Law Non International Armed Conflict and Guerilla Warfare Mercenarism and Contracted Military Services Customary International Law and Weapons Control Genocide Crimes Against Humanity Overlaps Gaps and Ambiguities in Contemporary International Humanitarian Law Genocide and Crimes Against Humanity Chapter 5 Crimes Against Fundamental Human Rights Slavery Slave Related Practices and Trafficking in Persons Apartheid International Prohibition of Torture The Practice of Torture in the United States September 11 2001 to Present Chapter 6 Crimes of Terror Violence International Terrorism Kidnapping and Hostage Taking Terrorism Financing Piracy International Maritime Navigation and Installations on the High Seas International Civil Aviation Chapter 7 Crimes Against Social Interest International Control of Drugs Challenges in the Development of International Criminal Law The Negotiations of the United Nations Convention Against Transnational Organized Crime and the United Nations Convention Against Corruption Transnational Organized Crime Corruption of Foreign Public Officials International Criminal Protection of Cultural Property Criminalization of Environmental Protection

**Politics and Religion in the White South** Glenn Feldman, 2005-09-30 Politics and Religion in the White South examines the powerful ways in which religious considerations have shaped American political discourse Since the inception of the Republic politics have remained a subject of lively

discussion and debate Although based on secular ideals American government and politics have often been peppered with Christian influences Especially in the mostly Protestant South religion and politics have been nearly inextricable This collection of thirteen essays from prominent historians and political scientists including Mark K Bauman Charles S Bullock III Natalie M Davis Andrew M Manis Mark J Rozell and Clyde Wilcox explores the intersection of religion politics race relations and Southern culture from post Civil War America to the present when the religious right has begun to exercise a profound influence on the course of American politics     *Arts & Humanities Citation Index* ,2002     *Pax Britannica: Tracing Customary War Crimes in the Age of Empire* Samuel C. Duckett White,Ikhwan Fazli,2025-04-07 The original sin of the laws of war its exclusion of non Europeans from its protection shapes discussions around criminal liability for conduct during colonial expansion This monograph disproves this position however utilising State practice across various colonial frontiers that fell to Pax Britannica In doing so the groundbreaking research highlights eight clear customary colonial wars that applied to the other across the Empire on Which the Sun Never Set     *America, History and Life* ,2005 Article abstracts and citations of reviews and dissertations covering the United States and Canada     *American Political Science Research Guide* George W.
