Manteo and the Algonquians of the Roanoke Voyages Brandon Fullam, 2020-01-17 When the English first arrived at the Outer Banks in the summer of 1584 they were greeted by native Algonquian speaking people who had long occupied present day North Carolina That historic contact initiated the often turbulent period of early American history commonly known as the Roanoke Voyages Unfortunately contemporary accounts regularly mischaracterize or marginalize the Algonquians and their significance in this period is poorly understood This volume is a unique collection of narratives highlighting by name all of the Algonquians who played a role in the often contentious attempts to establish the first permanent English colony in the New World Starting with Manteo the fascinating Croatoan Indian who traveled to England twice and learned to speak English this book focuses on the identities and endeavors of each of these individual Algonquians and tells their stories

'Voyage to the Moon' and Other Imaginary Lunar Flights of Fancy in Antebellum America Paul C. Gutjahr, 2018-03-22 Voyage to the Moon And Other Imaginary Lunar Flights of Fancy in Antebellum America gathers for the first time in a scholarly critical edition four moon voyage stories published by Americans prior to the Civil War Included in this volume are

the works by George Tucker Edgar Allan Poe Richard Adams Locke and John Leonard Riddell Along with a general introduction to the collection as a whole each story has its own introductory material along with explanatory footnotes and appendixes to help identify the key points of its textual and cultural history **Travel Narratives, the New Science, and Literary Discourse, 1569-1750** Judy A. Hayden, 2016-03-03 The focus of this volume is the intersection and the cross fertilization between the travel narrative literary discourse and the New Philosophy in the early modern to early eighteenth century historical periods Contributors examine how in an historical era which realized an emphasis on nation and during a time when exploration was laying the foundation for empire science and the literary discourse of the travel narrative become intrinsically linked Together the essays in this collection point out the way in which travel narratives reflect the anxiety from changes brought about through the discoveries of the new knowledge and the way this knowledge in turn provided a new and more complex understanding of the expanding world in which the writers lived The worlds in this text are many for no world is monomial from the antipodes to the New World from the heavens to the seas and from fictional worlds to the world which contains and or constructs one s nation and empire All of these essays demonstrate the manner in which the New Philosophy dramatically changed literary discourse **Proceedings** ,1987 *Monthly Catalog of United States Government Publications* ,1993
