Serving Our Children Kevin P. Chavous, 2004 Washington D C council member Chavous has long been an outspoken advocate for educational reform that serves the needs of all of the nation's children Having been at the forefront of the charter school movement Chavous now explores what his city has learned from the charter school experience and what it means to American public education as a whole

Reinventing America's Schools David Osborne, 2017-09-05 From David Osborne the author of *Reinventing Government* a biting analysis of the failure of America's public schools and a comprehensive plan for revitalizing American education In *Reinventing America's Schools* David Osborne one of the world's foremost experts on public sector reform offers a comprehensive analysis of the charter school movements and presents a theory that will do for American schools what his New York Times bestseller *Reinventing Government* did for public governance in 1992 In 2005 when Hurricane Katrina devastated New Orleans the city got an unexpected opportunity to recreate their school system from scratch The state's Recovery School District RSD created to turn around failing schools gradually transformed all of its New Orleans schools into charter schools and the results are shaking the very foundations of American education Test scores school performance scores graduation and dropout rates ACT scores college going rates and independent studies all tell the same story the city's RSD schools have tripled their effectiveness in eight years Now other cities are following suit with state governments reinventing failing schools in Newark Camden Memphis Denver Indianapolis Cleveland and Oakland In this book Osborne uses compelling stories from cities like New Orleans and lays out the history and possible future of public education Ultimately he uses his extensive research to argue that in today's world we should treat every public school like a charter school and grant them autonomy accountability diversity of school designs and parental choice

Green, 2016-04-01 The future of public education and democracy is at risk Powerful forces are eroding commitment to public schools and weakening democratic resolve Yet even in deeply troubling times it is possible to broaden social imagination and empower effective advocacy for systemic progressive reform *Re-envisioning Education and Democracy* explores challenges and opportunities for restructuring public education to establish and sustain more broadly inclusive deeply democratic and effectively transforming approaches to social inquiry and civic participation *Re-envisioning Education and Democracy* adopts a non-traditional format to extend social awareness and imagination Within each chapter one episode of an evolving strategic narrative traces the life cycle of a systemic reform initiative This is followed by an exploratory essay that draws from theory research criticism and practice to prompt consideration of focal issues Woven through each chapter is a poetically framed meditative stream informed by varied historical and cultural conceptions of oracles A developmental sequence of social learning strategies exploratory democratic practices accompanied by thematic bibliographic references are included to model democratic teaching and learning applicable in classroom and community settings

**Building a Learning Culture**

**in America** Kevin Chavous,2017-07-05 Building a Learning Culture in America takes an incisive no holds barred look at how America embraced and cultivated a culture of learning in the past how that culture declined in the sixties and seventies and what must be done to regain it From political gridlock to systemic discrimination Chavous details the many ways education today is off track and cites specific examples of what Americans might do to reform it Part memoir and part manifesto this is a frank fascinating and personal account of Chavous experience as a politician working to enact school choice in Washington DC and throughout the United States During the course of his political career he has seen political skirmishes and party scuffles interfere with the United States ability to improve its educational system These conflicts did not cause the problem they were merely a result The true problem was more basic the decline of America s learning culture This pivotal work calls for Americans to unite in making the changes needed to re establish a learning culture as an inherent piece of the American national fabric and tells us how to begin

*Cheating Our Kids* Joe Williams,2014-12-09 Journalist Joe Williams shows how parents can use consumer power to put children first shining light on the special interests controlling our schools where politics and pork infuse everything and our children s education is compromised He argues that increased accountability and choice are necessary and shows how the people can take back the education system enhancing responsibility inherent in democracy The solution is a new brand of hardball politics that demands competence from school leaders and shifts the power away from bureaucrats and union leaders to the people who have a the greatest reason to put kids first concerned parents With practical steps and uplifting examples of success Cheating Our Kids How Politics and Greed Ruin Education is a manifesto to action

**Voices of Determination** Kevin Chavous,2017-09-08 Voices of Determination tells the stories of ten children who overcame extraordinarily difficult circumstances to get an education and end the cycle of generational poverty It debunks the myth that children are victims of circumstance In this moving work Kevin P Chavous argues that children can and will succeed if the educational system provides them with the opportunity to learn Many of these narratives depict public schools at their worst Chavous argues that poor communities routinely hire inexperienced teachers lack resources and pass kids along until they drop out Once out of school these youngsters quickly find out that they are unprepared for the job market

This he claims leads many young people to drift into anti social behavior and turn to gangs drugs and unproductive lifestyles In addition the narratives in this volume also address such social issues as immigration bad neighborhoods poor health care addiction and child abuse Chavous highlights how hope for a better future enabled the children whose stories make up this volume to achieve a better life There are potential challenges at every stage of a child s development and the adults around them need to be nearby and ready to act effectively Chavous concludes that the need to strengthen families and to rebuild surrounding communities should be the top priorities for society as a whole **March to a Promised Land** Al
