Setting Global Standards Guidelines For Creating Codes Of Conduct In Multinational Corporations:

Setting Global Standards S. Prakash Sethi, 2003-02-24 Learn how large corporations can make real improvements in their standard business practices without jeopardizing their competitiveness in the global marketplace S Prakash Sethi a preeminent business scholar and researcher on the activities of multinational corporations and global business issues outlines a number of highly effective approaches by which corporate leaders can improve their credibility and ensure the protection of the human and civil rights of their workers across the globe Order your copy today **A Review of Setting Global Standards** David Lowry, 2014 **Encyclopedia of Business Ethics and Society** Robert W. Kolb, 2008 This encyclopedia spans the relationships among business ethics and society with an emphasis on business ethics and the role of business in society *Global Justice and International Labour Rights* Yossi Dahan, Hanna Lerner, Faina Milman-Sivan, 2016-04-15 Despite the growing global consensus regarding the need to ensure minimal labour standards such as adequate safety and health conditions freedom of association and the prohibition of child labour millions of workers across the world continue to work in horrific conditions Who should be held responsible both morally and legally for protecting workers rights What moral and legal obligations should individuals and institutions bear towards foreign workers in their countries Is there any democratic way to generate regulate and enforce labour standards in a global labour market This book addresses these questions by taking a fresh look at the normative assumptions underlying existing and proposed international labour regulations By focusing on international labour as a particular sphere of justice it seeks to advance both the contemporary philosophical debate on global justice and the legal scholarship on international labour **The SAGE Encyclopedia of Business Ethics and Society** Robert W. Kolb, 2018-03-27 Spans the relationships among business ethics and society by including numerous entries that feature broad coverage of corporate social responsibility the obligation of companies to various stakeholder groups the contribution of business to society and culture and the relationship between organizations and the quality of the environment [Making Sustainability Work](#) Marc J. Epstein, Adriana Rejc Buhovac, 2017-09-08 The ultimate how to do it guide for corporate leaders strategists academics sustainability consultants and anyone else with an interest in actually making sustainability work for organizations An updated edition of a landmark book at a time when a growing number of corporate leaders are asking for urgent help in getting this done **Leadership and Business Ethics** Gabriel Flynn, 2022-01-24 This book offers new and challenging approaches to business ethics that successfully link theory and practice thereby overcoming lacunae and inadequacies in much of the literature concerning ethics and governance a theme that recurs with remarkable frequency in the history of business ethics as an academic discipline This work provides imaginative and innovative proposals for the indispensable coupling of virtue integrity and character with global business finance and banking The volume seeks to overcome the marginal status of business ethics in universities business and enterprise by demonstrating that virtue ethics is an important step in the direction of an adequate

response to the leadership issue This new edition of a popular work points to new ways of achieving an ever more urgent coalescence of ethics and business It proposes practical advice and viable suggestions to business people on what is right and wrong in business The volume makes a vital contribution in the area of education that should serve the ongoing development of top leaders In the important domain of women in leadership the volume provides new solutions that break boundaries on the global stage The work challenges unethical marketing of human images with important implications for citizenship and society The volume contains creative suggestions for the use of spirituality and human development for the enhancement of business and society The significantly extended second edition includes an exciting line up of leading academics and practitioners in the audacious hope that something may change for the better in the realms of business and banking

Global Business Citizenship: A Transformative Framework for Ethics and Sustainable Capitalism Donna J. Wood, Jeanne M. Logsdon, Patsy G. Lewellyn, Kimberly S. Davenport, 2015-01-28 This practical and engaging book provides a coherent approach to global business responsibility and ethics based on the latest research theory and practice The authors incorporate numerous interesting and current real world examples to support the argument that corporations need to and can identify and implement processes that foster ethical conduct ensure basic human rights protect the natural environment and enhance social justice wherever businesses operate around the globe Global Business Citizenship combines elements of political theory stakeholder relationships business ethics corporate social performance accountability and measurement and organizational change Its practical approach encompasses best practices in stakeholder management experiments in applying corporate values to local conditions and social environmental auditing and reporting Focusing on the strategic alignment and change management process for implementing business citizenship principles and practices it is an essential supplement for any course concerned with ethics and social responsibility in today's global business climate

SAGE Brief Guide to Business Ethics Sage Publishing, 2012 Designed for courses in business ethics corporate social responsibility corporate strategy and organizational behaviour this text will also be an indispensable companion text for business students to use throughout their full programme of study This text provides objective coverage of key issues in corporate social responsibility the obligation of companies to various stakeholder groups the contribution of business to society and culture and the relationship between organizations and the quality of the environment Business Ethics in Brief is divided into eight sections which contain important keywords that relate to those sections Ethics and the Individual Theories of Ethics Understanding Global Ethics Ethics of Management and Business Employee and Human Resources Issues Consumer Issues Ethics of Advertising Marketing and PR and Environmental Issues in Ethics Key features of the text include the following Keyword entries featuring comprehensive essays on such crucial topics as strategic corporate social responsibility consumer rights and ethical decision making A listing of suggested readings for each entry so that readers can find more information on topics of particular interest Three appendices An appendix of problematic practices that highlights key corporations and

industries and the ethical issues they faced an appendix with key ethics institutes and organizations and an appendix listing key business ethics periodicals

Corporate Accountability in the Context of Transitional Justice Sabine

Michalowski, 2014-06-23 Corporate Accountability in the Context of Transitional Justice explores how corporations can be held accountable for their role in past human rights violations when a country is making a transition from conflict or repression to peace and democracy It breaks new ground in theorizing the linkages between the areas of transitional justice and corporate accountability and analyzing problems frequently arising where the two fields meet in practice for example where the role of corporations in past human rights violations is examined by truth and reconciliation commissions or in the course of litigation The book provides an overview of the current trends in law and in legal and political discussion relating to both areas as well as in depth analysis of how tools of corporate accountability and transitional justice can complement each other in order to achieve the best outcomes for bringing justice to victims and lasting peace to societies The authors bring extensive experience from diverse professional backgrounds and jurisdictions to provide the first sustained attempt to address this link The book will be of interest to scholars practitioners policymakers and activists working in the areas of transitional justice corporate accountability and business and human rights

Corporate Ethics and Corporate

Governance Walther C. Zimmerli, Klaus Richter, Markus Holzinger, 2007-06-12 Corporations are under fire Hardly a day goes by that executive conduct doesn't appear as a topic or more accurately as a problem in the media This leads to increased public pressure on corporations many of whom are reacting and publicly assuming their corporate responsibility This book represents an introduction to and overview of the diverse aspects of the ethical challenges confronting companies today It introduces executives students and interested observers to the complex trends and developments in business ethics On the one hand this book presents industry specific topics in ethics and on the other provides a general interdisciplinary survey of the ethical dimensions of management and business

Law and Legalization in Transnational Relations Christian

Brütsch, Dirk Lehmkuhl, 2007-03-06 Complex legalization and the many moves to law Christian Britsch and Dirk Lehmkuhl Transnational legalization of accounting the case of international financial reporting standards Jens Wistemann and Sonja Kierzek The harmonization of private commercial law the case of secured finance Edward S Cohen Multi stakeholder initiatives to combat money laundering and bribery Mark Pieth Legalization transnationalism and organic agriculture William D Coleman and Austina J Reed Beyond Westphalia competitive legalization in emerging transnational regulatory systems Errol Meidinger Beyond legalization how global standards work Bas Arts and Dieter Kerwer International standards functions and links to law Erich Schanze Beyond legalization reading the increase variation and differentiation of legal and law like arrangements in international relations through world society theory Mathias Albert The role of the transnational corporation in the process of legalisation insights from economics and corporate social responsibility Andreas Georg Scherer and Dorothe Baumann

Corporate Social Responsibility Mark S. Schwartz, 2017-03-02 The essays in this volume

examine the emergence of the concept of corporate social responsibility and the uses that have been made of the language of corporate responsibility to explore the business society relationship The first section traces the emergence of the concept of corporate social responsibility as a way of understanding and framing the business society relationship Section two of the volume looks at Definitions and ethical justifications with a view to exploring current discussions of the nature scope and source of the social responsibilities of corporations Section three CSR and Management Critical Reflections explores the integration of CSR theories and justifications into business management and business management theories Articles in the final section of the volume apply the concept of corporate social responsibility and the theoretical frameworks and analytical tools to which it has given rise to the examination and resolution of specific social issues arising out of the economic activities of corporations

Corporate Human Rights Violations Stefanie Khoury, David Whyte, 2016-12-08 This book develops an analysis of the historical political and legal contexts behind current demands by NGOs and the United Nations Human Rights Council to hold corporations accountable for their human rights violations Based on an analysis of the range of mechanisms of accountability that currently exist it argues that those demands are a response to the failure of neo liberal policies that have dominated the practice of politics and law since the emergence of this debate in its current form in the 1970s Offering a new approach to understanding how struggles for hegemony are refracted through a range of legal challenges to corporate human rights violations the book offers a fresh perspective for understanding how those struggles are played out in the global sphere In order to analyse the prospects for using human rights law to challenge the right of corporations to author human rights violations the book explores the development of a range of political initiatives in the UN the uses of tort law in domestic courts and the uses of human rights law at the European Court of Human Rights and at the Inter American Court of Human Rights This book will be essential reading for all those interested in how international institutions and NGOs are both shaping and being shaped by global struggles against corporate power

The SAGE Encyclopedia of Corporate Reputation Craig E. Carroll, 2016-05-31 What creates corporate reputations and how should organizations respond Corporate reputation is a growing research field in disciplines as diverse as communication management marketing industrial and organizational psychology and sociology As a formal area of academic study it is relatively young with roots in the 1980s and the emergence of specialized reputation rankings for industries products services and performance dimensions and for regions Such rankings resulted in competition between organizations and the alignment of organizational activities to qualify and improve standings in the rankings In addition today's changing stakeholder expectations the growth of advocacy demand for more disclosures and greater transparency and globalized mediatized environments create new challenges pitfalls and opportunities for organizations Successfully engaging dealing with and working through reputational challenges requires an understanding of options and tools for organizational decision making and stakeholder engagement For the first time the vast and important field of corporate reputation is explored in the

format of an encyclopedic reference The SAGE Encyclopedia of Corporate Reputation comprehensively overviews concepts and techniques for identifying building measuring monitoring evaluating maintaining valuing living up to and or changing corporate reputations Key features include 300 signed entries are organized in A to Z fashion in 2 volumes available in a choice of electronic or print formats Entries conclude with Cross References and Further Readings to guide students to in depth resources Although organized A to Z a thematic Reader's Guide in the front matter groups related entries by broad areas A Chronology provides historical perspective on the development of corporate reputation as a discrete field of study A Resource Guide in the back matter lists classic books key journals associations websites and selected degree programs of relevance to corporate reputation A General Bibliography will be accompanied by visual maps noting the relationships between the various disciplines touching upon corporate reputation studies The work concludes with a comprehensive Index which in the electronic version combines with the Reader's Guide and Cross References to provide thorough search and browse capabilities

Responsible Mining Sara Bice, 2016-06-23 Mining can have negative environmental and social impacts but can also be responsible However corporations have little impetus to act responsibly without being held to account by an informed and active public and by strong institutions and governments which not only create but also enforce legislation Yet what does such practice look like This book shows how the concept of responsible mining is based on five key principles or pillars holistic assessment ethical relationships community based agreements appropriate boundaries and good governance Together these pillars circumscribe global best practice and innovative ideas to catalyse new and improved approaches to a sustainable mining industry The author argues that these practices are critical to the future viability and social acceptability of the global mining industry and draws on a range of case studies including from Australia Canada Central Asia Papua New Guinea and west Africa The role of informed communities governments and civil societies in holding the industry to account to achieve responsible mining is assessed The book explains how companies judge what effects they may have on communities and investigates ways to improve the prediction and prevention of such impacts and to provide clearer more meaningful public communication It offers alternatives to common corporate social responsibility practices in which mining companies adopt roles which are usually the remit of government Ultimately it looks to the future exploring the essential pathways towards responsible mining

Corporations and International Lawmaking Stephen Tully, 2007-11-30 The classical model of international lawmaking posits governments as exclusively authoritative actors However commercially oriented entities have long been protagonists within the prevailing international legal order concluding contracts and resolving disputes with governments Is the international legal personality of corporations undergoing further qualitative transformations Corporations influence the State practice constitutive of custom and create refashion or challenge normative rules The corporate willingness to fill legal lacunae where governments do not exercise their full regulatory responsibility is also observable through resort to alternative legal mechanisms Corporations moreover contribute directly to treaty

negotiations and occupy crucial roles during subsequent implementation. Indeed an analysis of the access conditions and participatory modalities for non State actors could support a right to participate under common international procedural law. Their substantive contributions are also evident when corporations participate in enforcing international law against governments through national courts, diplomatic protection including the WTO and arbitration including NAFTA. However the practice of intergovernmental organizations reveals several challenges including managing corporate interaction with developing country governments and other non State actors. Acknowledging corporate contributions also has important implications for national regulatory autonomy, the ability of governments to mediate contested policy issues, the democratic legitimacy of the contemporary lawmaking process and an understanding of consent as the underlying basis for international law.

The Handbook of Transnational Governance Thomas Hale, David Held, 2018-02-12. When we speak of global governance today we no longer mean simply state to state diplomacy, international treaties or intergovernmental organizations like the United Nations. Alongside these traditional elements of global politics are a host of new institutions ranging from global networks of governmental officials to private codes of conduct for corporations to action oriented partnerships of NGOs, governments, corporations and other actors. These innovative mechanisms offer intriguing solutions to pressing transnational challenges as diverse as climate change, financial governance, workers rights and public health. But they also raise new questions about the effectiveness and legitimacy of transnational governance. An expanding body of scholarship has sought to identify and assess these new forms of governance but this young body of work has lacked a sense of the larger picture. This volume seeks to fill that need by presenting a comprehensive overview of new forms of transnational governance. This resource is essential for those who want to explain why transborder governance has changed and to understand what implications these changes have for global politics.

Multinational Corporations and Organization Theory Christoph Dörrenbächer, Mike Geppert, 2017-02-24. This volume covers a range of on going and newly emerging debates in the study of multinational companies (MNCs). A key aim is to consolidate and make available in one place new conceptual, methodological and critical MNC research.

Corporate Social Responsibility Oliver F. Williams, 2013-11-26. Over the last 30 years corporate social responsibility (CSR) has become a household term reflecting a combination of factors that we have come to associate with that most catch all of terms globalization including the widespread popular concern with such social issues as the environment and international human rights. Corporate Social Responsibility examines the history of the idea of business ethics which goes back at least to ancient Mesopotamia before exploring the state of CSR today. This book argues that a wide ranging understanding of the purpose of business is necessary to create value for a community of stakeholders which in turn can generate a sustainable future. The book suggests that corporations still have a long way to go but remains optimistic. The book's sanguine interpretation of the current state of corporate affairs and a recommended way forward results not only from the authors analysis but also his direct experience. This book presents the case that we are in

the midst of a major paradigm shift in our understanding of the purpose of business and that this new understanding holds much promise for business being a significant force for a more just and peaceful world This work provides a concise overview of CSR and an important examination of the present and future work of the UN Global Compact and will be of interest to students of international organizations international business and corporate social responsibility
