**Ignatian Pedagogy for Public Schools** Benjamin J. Brenkert, 2023-07-27 This book shows how the pedagogical philosophy of the Society of Jesus the Jesuits founder Ignatius of Loyola can be used and applied in public school settings in the USA and around the world without dismantling the separation of church and state Ignatian Pedagogy should be considered a historical precursor to modern practical and pedagogical theories such as culturally relevant pedagogy and equity frameworks in education with Jesuit foundational texts such as the Ratio Studiorum including material about working within and valuing the context of the culture surrounding schools emphasizing student voice and empowering the student as a co teacher Based on new research

carried out in New York City Department of Education NYC DOE schools the author argues for universal character formation programs based on already existing and highly effective programs at Jesuit sponsored schools The research shows that universal character formation programs are highly effective in developing students flourishing strengthening their relationships with themselves and others and enabling critical reflective thought Based on the theory of Ignatius of Loyola and the work of thinkers including Paulo Freire Mahatma Gandhi Elisabeth Johnson and Martin Luther King Brenkert presents a theological philosophical framework for creating a beloved community free from oppression poverty and hate

*The Myth of the A.D.D. Child* Thomas Armstrong, 1997-09-01 In this controversial and provocative book Dr Thomas Armstrong confronts America's obsession with Attention Deficit Disorder With more than one million children diagnosed with ADD the condition has gained national attention on talk shows magazine covers and The New York Times bestseller list Dr Armstrong well known for his writings on parenting and education presents the very real argument that ADD may in fact not exist He believes that many behaviors labeled as ADD are simply a child's active response to complex social emotional and educational influences and that by tackling the root causes of a child's attention and behavior problems rather than masking the symptoms with medication and behavior modification programs parents can help their children begin to experience fundamentally positive changes in their lives This groundbreaking book provides parents and professionals with 50 innovative and proven strategies they can use to help children overcome their attention and behavior problems His checklist helps parents decide which strategies are most appropriate and hundreds of resources including books and organizations are included The Myth of the A D D Child offers much needed practical help to both parents and professionals **Parents First** Garry Burnett, Kay Jarvis, 2003-04-24 Parents First is designed to improve your understanding of how children learn in order for you to help your child face the challenges of our modern educational system It clearly explains some of the key current research about how the human brain works and provides practical advice on how to apply that research to studying and learning at school Garry Burnett and Kay Jarvis explore practical ways for you to help your child learn effectively which include Developing confidence and self esteem Effective listening and questioning Creating an effective learning environment Building a healthier brain for learning Improving memory recall and spelling *ADD/ADHD Alternatives in the Classroom* Thomas Armstrong, 1999 What does it mean to a kid to be labeled attention deficit disorder ADD Or to have hyperactive added to the label ADHD What can teachers do to boost the success of students with attention and behavioral difficulties Are we relying too much on medication for these kids and not enough on new perspectives on learning child development the child's socioeconomic and cultural background biological and psychological research and the learner's emotional and social needs Armstrong urges educators and parents to look for the positive characteristics in learners who may carry the ADD ADHD label Are they bursting with energy Are they intensely creative Do they enjoy hands on learning Are they natural leaders Are they unusually introspective and reflective We need to look beyond a deficit approach and

embrace a more holistic view of learners that includes teaching to their multiple intelligences learning styles and other brain friendly approaches For example here are some classroom activities for kids who can't sit still Learning spelling words by having kids jump up out of their seats on the vowels and sit down on the consonants Mastering the multiplication tables by forming a conga line moving around the classroom counting from 1 to 30 out loud and on every multiple of 3 shaking their hips and legs Showing patterns of molecular bonding in chemistry class through a swing your atom square dance
