Sheikh,Katharina Sheikh,2018-10-26 Sages of various traditions and ages have reiterated that we must incorporate the inevitability of death into the fabric of life to experience life s breadth and beauty Imagery is an important tool in dealing with death and this book is devoted to exploring many facets of this fascinating issue It begins with an overview of ancient and modern approaches to the use of death imagery for therapeutic purposes including a discussion of its possible benefits

Chapter 2 specifically exploring Stephen Levine's contributions in this area shows that only by opening up to the reality of death can one make living a conscious process of growth. A number of excellent imagery-based experiential exercises are discussed in detail. Chapter 3 demonstrates the significance of confronting death through mental and artistic images; it discusses six examples of death-related religious and existential works of art. Recently there has been an upsurge of interest in near-death experiences and their salutary effects on attitudes, beliefs, and values. Of particular interest here are increases in spirituality, concern for others, an appreciation of life, and an enhanced sense of meaning and purpose in life. Chapter 4 presents a detailed critical overview of this field of investigation with special emphasis on the transformatory after-effects of near-death experiences. Of all the major religions in the world, Buddhism is at the forefront of exploring the topic of death and dying and developing specific meditative exercises for confronting death. Chapter 5 presents an in-depth treatment of death imagery in Buddhist thought. Exploring the use of hypnosis for death rehearsal. Chapter 6 continues the theme that confrontation with death can lead to healthful consequences. A variation of this technique, hypnotic suicidal rehearsal, is also discussed; it seems to be effective for use with clients who are contemplating suicide. Case examples clarify the details of the process. Over the years, several clinicians have proposed the use of imagery for reconstructing death-related events and thereby facilitating the grieving process for individuals who are experiencing symptoms rooted in unfinished grieving. Chapter 7 gives an exhaustive account of the use of imagery for unresolved grieving, including a number of case histories. Researchers have perhaps devoted more time and energy to the investigation of death anxiety than any other death-related topic. Chapter 8 reviews the literature on death anxiety and death imagery and demonstrates a core connection between the two phenomena. The authors claim that death imagery has the potential not only to ameliorate death anxiety but also to lead to a more authentic existence. In Chapter 9, the authors explain how death imagery can be used constructively in death education; they present several practical suggestions and specific guided imagery exercises. The volume closes with a presentation of a detailed death imagery experiential exercise aimed at encountering death to enhance our appreciation of life. The reader will notice this thread running steadily throughout the book. This comprehensive book devoted to the role of death imagery in health and growth, perhaps the first of its kind, will be helpful in changing the rather sinister view of death prevalent in our culture to a deeper appreciation for its enhancing potential.

The Teachings of Padmasambhava

Herbert Guenther, 2023-08-21. This study explores the ideas of the enigmatic and controversial visionary known as Padmasambhava. It takes as its starting point a unique and hitherto untouched source: Padmasambhava's writings preserved in the rNying ma rgyud bum that remain excluded from the standard editions of the Tibetan Tanjur collections to this day. The first chapter explains Padmasambhava's holistic background that reflects an anthropocosmic worldview. The second chapter deals with the problem of how this anthropocosmic whole becomes enworlded as samsara and of how the enworlded experiencer disentangles himself from it and regains his original wholeness. The third chapter assesses Padmasambhava's

psychological insights and their hermeneutical interpretations In this study Herbert Guenther discloses the mind of one of the greatest spiritual geniuses in human history Padamasambhava wanderer mystic and one of the original founders of Tibetan Buddhism Here his teachings step out from obscurity to speak with a wonderful clarity In them is found a surprisingly postmodern portrait of how process dynamics self organize to construct and light up our worlds of experience
