Is a River Alive? Robert Macfarlane, 2025-05-20 From the celebrated writer observer and naturalist Robert Macfarlane comes a brilliant perspective shifting new book which answers a resounding yes to the question of its title At the heart of Is a River Alive is a single transformative idea that rivers are not mere matter for human use but living beings who should be recognized as such in both imagination and law Macfarlane takes the reader on a mind expanding global journey into the history futures people and places of the ancient urgent concept Around the world rivers are dying from pollution drought and damming But a powerful movement is also underway to recognize the lives and the rights of rivers and to re animate our relationships with these vast mysterious presences whose landscapes we share The young rights of nature movement has lit up activists artists law makers and politicians across six continents and become the focus for revolutionary thinking about rivers in particular The book flows like water from the mountains to the sea over three major journeys The first is to northern Ecuador where a miraculous cloud forest and its rivers are threatened with destruction by Canadian gold mining The second is to the wounded rivers creeks and lagoons of southern India where a desperate battle to save the lives of these waterbodies is underway The third is to northeastern Quebec where a spectacular wild river the Mutehekau or Magpie is being defended from death by damming in a river rights campaign led by an extraordinary Innu poet and leader called Rita Mestokosho Is A River Alive is at once a literary work of art a rallying cry and a catalyst for change It is a book that will open hearts spark

debates and challenge perspectives A clarion call to re centre rivers in our stories law and politics it invites us to radically re imagine not only rivers but life itself At the heart of this vital beautiful book is the recognition that our fate flows with that of rivers and always has
