The Walleye War Larry Nesper, 2002-01-01 For generations the Ojibwe bands of northern Wisconsin have spearfished spawning walleyed pike in the springtime The bands reserved hunting fishing and gathering rights on the lands that would become the northern third of Wisconsin in treaties signed with the federal government in 1837 1842 and 1854 Those rights however would be ignored by the state of Wisconsin for more than a century When a federal appeals court in 1983 upheld the bands off reservation rights a deep and far reaching conflict erupted between the Ojibwe bands and some of their non Native neighbors Starting in the mid 1980s protesters and supporters flocked to the boat landings of lakes being spearfished Ojibwe spearfisher men were threatened stoned and shot at Peace and protest rallies marches and ceremonies galvanized and rocked the local communities and reservations and individuals and organizations from across the country poured into northern Wisconsin to take sides in the spearfishing dispute From the front lines on lakes to tense behind the scenes maneuvering on and off reservations The Walleye War tells the riveting story of the spearfishing conflict drawing on the experiences and perspectives of the members of the Lac du Flambeau reservation and an anthropologist who accompanied them on spearfishing expeditions We learn of the historical roots and cultural significance of spearfishing and off reservation treaty rights and we see why many modern Ojibwes and non Natives view them in profoundly different ways We also come to understand why the Flambeau tribal council and some tribal members disagreed with the spearfishermen and pursued a policy of negotiation with the state to lease the off reservation treaty rights for fifty million dollars Fought with rocks and metaphors The Walleye War is the story of a Native people's struggle for dignity identity and self preservation in the modern world

history self identification and their relationships with Aboriginal and Eurocanadian cultures and spiritualities *Political Spirituality for a Century of Water Wars* James W. Perkinson, 2019-04-11 This book offers resources for re imagining the biblical vision of water for a time quickly emerging as the century of water wars It takes its urgency from the author's 5 year activist engagement with a grass roots led social movement pushing back on Detroit water shutoffs as global climate crises intensify Concerned with both white supremacist biopolitics and continuing settler colonial reliance on the Doctrine of Christian Discovery and beholden to an interreligious methodology of crossing over and coming back the text creatively re reads the biblical tradition under tutelage to the mythologies and practices of various indigenous cultures Algonquian Huron Haitian Vodouisant and Celtic Norman whose embrace of water is animate and spiritual as well as political and communal Not enough today merely to engage the political battle over water rights however indigenous wisdom and biblical prophecy alike insist that recovery of water spirituality is central to a sustainable future **Hands-On Science and Technology for Ontario, Grade 1** Jennifer E. siblings Gizhaa and Inaa accompany their father on a historic diplomatic journey to the capital they find themselves at the centre of a plot to restore an ancient government Someone doesn't want their journey to succeed however and they are soon entwined in political espionage They must decide if they will help to overthrow the Immortals or trust their own gifts which warn them of great danger ahead When it seems Inaa's heart is compromised leading her into a reckless relationship Gizhaa wonders if he will lose her But how much will it cost him and the world *Children of the Seventh Fire* Lisa A. Hart, 2011

This book is written primarily for young readers aged 9 to 11 years but is also of value to their teachers friends and families This story follows a group of elementary school students as they travel to a nearby Indian reservation to join with Indian children and hear an Anishinabe elder tell of the Seven Fires Prophecy a teaching of ancient wisdom that foresaw long ago what might become of the Anishinabe people The prophets had foretold that the Anishinabe people would need to move from their Atlantic coast homeland westward throughout and beyond the Great Lakes to recognize the existence of good and bad among all people and learn how to deal with these different traits to anticipate struggles among and between people of different cultures to gather and protect their native wisdom in the face of efforts to destroy or erase it and according to the prophecy of the Seventh Fire to be prepared to recall and share that wisdom when the time was right The elder concluded his presentation by suggesting that now might be the time for all of Earth's people to consider adopting more balanced holistic world views such as those of the Anishinabe people in order to deal with the many social and environmental problems facing the modern world Indigenous people all over the world still possess the wisdom of how to think with their minds and hearts If we bring this way of decision making into our lives it will help us create the positive change we need to make We are living in the time of the Seventh Fire It's up to all of us to determine if the Seventh Fire will light the Eighth and final Fire of peace and healing If we make the right choices we will be successful Are we the new people of the Seventh Fire Could you be the Children of the Seventh Fire After finishing the story the elder asked questions of the students they responded discussions ensued ideas were formed Then they returned to their communities and in many different ways acted upon what they had learned from Kinoo's teaching of the Seven Fires Prophecy Could you your family your friends and your neighbors also be Children of the Seventh Fire Indigenous wisdom draws upon the complex holistic perspectives of traditional lifeways to help inform children and adults with a more comprehensive and balanced understanding of the modern world and its challenges Such balanced insight helps individuals to make better informed decisions in all areas of their lives

Questioning the Secular State David Westerlund, 1996 Should the state be secular or religious Here the author seeks to determine the extent of the role of religion in political life **Braiding Sweetgrass** Robin Kimmerer, 2013-09-16 As a botanist Robin Wall Kimmerer has been trained to ask questions of nature with the tools of science As a member of the Citizen Potawatomi Nation she embraces the notion that plants and animals are our oldest teachers In *Braiding Sweetgrass* Kimmerer brings these two lenses of knowledge together to take us on a journey that is every bit as mythic as it is scientific

as sacred as it is historical as clever as it is wise Elizabeth Gilbert Drawing on her life as an indigenous scientist and as a woman Kimmerer shows how other living beings asters and goldenrod strawberries and squash salamanders algae and sweetgrass offer us gifts and lessons even if we've forgotten how to hear their voices In reflections that range from the creation of Turtle Island to the forces that threaten its flourishing today she circles toward a central argument that the awakening of ecological consciousness requires the acknowledgment and celebration of our reciprocal relationship with the rest of the living world For only when we can hear the languages of other beings will we be capable of understanding the generosity of the earth and learn to give our own gifts in return

Coming Down from Above Lee Irwin, 2014-10-20

For longer than five centuries Native Americans have struggled to adapt to colonialism missionization and government control policies This first comprehensive survey of prophetic movements in Native North America tells how religious leaders blended indigenous beliefs with Christianity's prophetic traditions to respond to those challenges Lee Irwin gathers a scattered literature to provide a single volume overview that depicts American Indians creative synthesis of their own religious beliefs and practices with a variety of Christian theological ideas and moral teachings He traces continuities in the prophetic tradition from eighteenth century Delaware prophets to Western dream dance visionaries showing that Native American prophecy was not merely borrowed from Christianity but emerged from an interweaving of Christian and ancient North American teachings integral to Native religions From the highly assimilated ideas of the Puget Sound Shakers to such resistance movements as that of the Shawnee Prophet Irwin tells how the integration of non Native beliefs with prophetic teachings gave rise to diverse ethnotheologies with unique features He surveys the beliefs and practices of the nation to which each prophet belonged then describes his or her life and teachings the codification of those teachings and the impact they had on both the community and the history of Native religions Key hard to find primary texts are included in an appendix An introduction to an important strand within the rich tapestry of Native religions Coming Down from Above shows the remarkable responsiveness of those beliefs to historical events It is an unprecedented encyclopedic sourcebook for anyone interested in the roots of Native theology

Culturally Responsive Pedagogy Fatima Pirbhai-Illich, Shauneen Pete, Fran Martin, 2017-03-03 This book convincingly argues that effective culturally responsive pedagogies require teachers to firstly undertake a critical deconstruction of Self in relation to and with the Other and secondly to take into account how power affects the socio political cultural and historical contexts in which the education relation takes place The contributing authors are from a range of diaspora indigenous and white mainstream communities and are united in their desire to challenge the hegemony of Eurocentric education and to create new educational spaces that are more socially and environmentally just In this venture the ideal education process is seen to be inherently critical and intercultural where mainstream and marginalized colonized and colonizer indigenous and settler communities work together to decolonize selves teacher student relationships pedagogies the curriculum and the education system itself This book will be of great interest and relevance to policy makers and researchers in the field of education teacher educators and pre and in service teachers

Drinking from the Fire Hose Christopher J Frank, Paul Magnone, 2011-09-01 You're sitting in a windowless conference room Twenty minutes into the meeting the presenter finally makes it to slide four of a thirty two slide deck At least you can read this one unlike the others which were crammed with numbers graphs and charts You look around wondering if anyone else is following the presentation Just about everyone these days suffers from information overload the 24/7 explosion from our computers smartphones media colleagues and customers Information is essential to making intelligent decisions but more often than not it simply overwhelms us It's like trying to drink from a fire hose The question isn't how to stop all those e-mails meetings conference calls and fat reports that's impossible The question is what to do with them How do you find the truly essential nuggets of information and use them with confidence The solution proposed by

Christopher Frank and Paul Magnone sounds deceptively simple Learn how to ask the right questions at the right time Whatever field you re in asking smarter questions will expose you to new information point you to connections between seemingly unrelated facts and open new avenues of discussion with your colleagues The authors explain the seven questions that can help you bring a big picture perspective to problems that often leave others buried in irrelevant details And they show through real life case studies including Trader Joe s Starbucks Kodak Microsoft iRobot and IBM how their method can have a dramatic impact It really is possible to convert the fire hose of information into useful insights Consider a nonbusiness example the 2010 Icelandic volcano eruption that sent a giant ash cloud toward Europe Tens of thousands of flights were canceled and five million passengers stranded leading to billions in economic losses Europe s best scientists generated oceans of data and carefully modeled the cloud s dispersion pattern But no one could answer the essential question Was the concentration of volcanic ash in the air enough to damage a jet engine Without that key answer all the carefully gathered facts were useless to the decision makers Once you adopt the seven questions you ll start having more productive brainstorming sessions You ll answer critical questions faster and find unexpected solutions to important problems And you ll get better at communicating to your colleagues with more clarity and focus turning down the fire hose that other people have to cope with
