Several Deaths Later:

Several Deaths Later Ed Gorman, 2016-09-17 The popular game show *Celebrity Circle* is something of a graveyard for show biz mediocrities so Tobin the five foot five movie critic with the fiery hair and the equally fiery temper is less than thrilled to accept a guest stint as the show films a week's worth of broadcasts aboard an ocean liner But Tobin's career has hit the skids since he solved his TV partner's murder *Murder on the Aisle* money is money and besides he gets a free cruise in the bargain But someone on board has more in mind than fabulous prizes and Ken Norris the smarmy emcee of *Celebrity Circle* turns up with a knife in his back The Captain blames Cindy McBain the young secretary from Kansas City in whose room the victim's body was discovered Although Tobin finds her wearing nothing but a robe covered in Norris blood he thinks she is innocent if less than pure and he swears his belief has nothing to do with her incredible body or her enthusiastically expressed affection for celebrities

Some Remarkable Passages in the Holy Life and Death of the Late

Reverend Mr. Edmund Trench Edmund Trench, 1693 **Some Account of the Circumstances Attendant on the Death of the Late Miss Lavinia Robinson. To which is Added, The Funeral, a Poem, Written on the Day of Her Interment**, 1814

Dying and Death in Later Anglo-Saxon England Victoria Thompson, 2012 Study of late Anglo Saxon texts and grave monuments illuminates contemporary attitudes towards dying and the dead Pre Conquest attitudes towards the dying and the dead have major implications for every aspect of culture society and religion of the Anglo Saxon period but death bed and funerary practices have been comparatively and unjustly neglected by historical scholarship In her wide ranging analysis Dr Thompson examines such practices in the context of confessional and penitential literature wills poetry chronicles and homilies to show that complex and ambiguous ideas about death were current at all levels of Anglo Saxon society Her study also takes in grave monuments showing in particular how the Anglo Scandinavian sculpture of the ninth to the eleventh centuries may indicate not only the status but also the religious and cultural alignment of those who commissioned and made them Victoria Thompson is Lecturer in the Centre for Nordic Studies at the University of the Highlands and Islands

Environment, Society and the Black Death Per Lagerås, 2016-01-30 In the mid fourteenth century the Black Death ravaged Europe leading to dramatic population drop and social upheavals Recurring plague outbreaks together with social factors pushed Europe into a deep crisis that lasted for more than a century The plague and the crisis and in particular their short term and long term consequences for society have been the matter of continuous debate Most of the research so far has been based on the study of written sources and the dominating perspective has been the one of economic history A different approach is presented here by using evidence and techniques from archaeology and the natural sciences Special focus is on environmental and social changes in the wake of the Black Death Pollen and tree ring data are used to gain new insights into farm abandonment and agricultural change and to point to the important environmental and ecological consequences of the crisis The archaeological record shows that the crisis was not only characterized by abandonment and

decline but also how families and households survived by swiftly developing new strategies during these uncertain times Finally stature and isotope studies are applied to human skeletons from medieval churchyards to reveal changes in health and living conditions during the crisis The conclusions are put in wider perspective that highlights the close relationship between society and the environment and the historical importance of past epidemics Death and Rebirth in Late Antiquity Lee M. Jefferson,2022-08-16 Death and rebirth was of vital importance to early Christians in late antiquity In late antiquity death was all encompassing Mortality rates were high plague and disease in urban areas struck at will and one lived on the knife s edge regarding one s health Religion filled a crucial role in this environment offering an option for those who sought cure and comfort Following death the inhumed were memorialized providing solace to family members through sculpture painting and epigraphy This book offers a sustained interdisciplinary treatment of death and rebirth a theme that early Christians and scholars found important By analysing the theme of death and rebirth through various lenses the contributors deepen our understanding of the early Christian funerary and liturgical practices as well as their engagement with other groups in the Empire *Deaths After Police Contact* David Baker,2016-10-18 This book investigates death after police contact in England and Wales in the twenty first century It examines how regulatory bodies construct accountability in such cases Cases of death after police contact have the potential to cause deep unease in society They highlight the unique role of the police in being legitimately able to use force whilst at the same time being expected to preserve life People who are from Black or Minority Ethnic backgrounds or have mental health issues or are dependent on substances are disproportionately more likely to die in these cases and this emphasises the sensitive nature of many of these deaths to society Deaths after Police Contact examines police legitimacy and the legitimacy of police regulators in these cases The book argues that accountability is produced by a relatively arbitrary system of regulation that investigates such deaths as individual cases rather than attempting to learn lessons from annual trends and patterns that might prevent future deaths It will be of great interest to scholars and upper level students of policing and criminal justice **Death Ritual in Late Imperial and Modern China** James L. Watson,Evelyn S. Rawski,1988 During the late imperial era 1500 1911 China though divided by ethnic linguistic and regional differences at least as great as those prevailing in Europe enjoyed a remarkable solidarity What held Chinese society together for so many centuries Some scholars have pointed to the institutional control over the written word as instrumental in promoting cultural homogenization others the manipulation of the performing arts This volume comprised of essays by both anthropologists and historians furthers this important discussion by examining the role of death rituals in the unification of Chinese culture **Country Reports on Human Rights Practices** ,1980 **The Last Days, Death, Funeral Obsequies, Etc. of Her Late Majesty Caroline, Queen Consort of Great Britain** John Adolphus,1822 **The Oxford Handbook of the Archaeology of Death and Burial** Sarah Tarlow,Liv Nilsson Stutz,2013-06-06 The Oxford Handbook of the Archaeology of Death and Burial reviews the current state of mortuary archaeology and its practice

highlighting its often contentious place in the modern socio politics of archaeology It contains forty four chapters which focus on the history of the discipline and its current scientific techniques and methods Written by leading international scholars in the field it derives its examples and case studies from a wide range of time periods such as the middle palaeolithic to the twentieth century and geographical areas which include Europe North and South America Africa and Asia Combining up to date knowledge of relevant archaeological research with critical assessments of the theme and an evaluation of future research trajectories it draws attention to the social symbolic and theoretical aspects of interpreting mortuary archaeology The volume is well illustrated with maps plans photographs and illustrations and is ideally suited for students and researchers

The Death Penalty in Late-Medieval Catalonia Flocel Sabaté, 2019-09-03 The death penalty was unusual in medieval Europe until the twelfth century From that moment on it became a key instrument of rule in European society and we can study it in the case of Catalonia through its rich and varied unpublished documentation The death penalty was justified by Roman Law accepted by Theology and Philosophy for the Common Good and used by rulers as an instrument for social intimidation The application of the death penalty followed a regular trial and the status of the individual dictated the method of execution reserving the fire for the worst crimes as the Inquisition applied against the so called heretics The executions were public and the authorities and the people shared the common goal of restoring the will of God which had been broken by the executed person The death penalty took an important place in the core of the medieval mind people included executions in the jokes and popular narratives while the gallows filled the landscape fitting the jurisdictional limits and also showing rotten corpses to assert that the best way to rule and order the society is by terror This book utilises previously unpublished archival sources to present a unique study on the death penalty in late Medieval Europe **Late**

Effects Studies on Radiation-induced Homologous Mouse Chimeras W. E. Davis, L. J. Cole, W. A. Foley, V. J. Rosen, 1962 In studies on lymphoid cell chimerism and homograft tolerance in long lived homologous radiation chimeras data were collected on life span and on leukemia and other lesions The chimeras were hybrid mice 10 12 weeks old exposed to 880 rad of X radiation and injected with bone marrow cells from C3H donors Out of 119 mice 65% were dead by age 32 weeks with symptoms of secondary disease evident in the great majority Relatively few deaths occurred between 32 and 75 weeks and the maximum life span was 105 weeks Histopathological data were obtained from many of these long lived chimeras There was an 80% incidence of glomerulosclerosis of moderate to severe degree and a 20% incidence of arteriolar sclerosis in the kidney and spleen Leukemias were observed in 5 out of 54 homologous chimeras Also two leukemias occurred in 13 chimeras 15% which had been injected with lymphoid cells obtained from other long lived homologous chimeras The possibility of a causal relationship between secondary disease and the increased incidence of leukemia is briefly discussed Author
