Another Love Asma Abbas, 2018-10-15 In a time when our loves feel conscripted and exhausted by what we often do not remember desiring *Another Love* A Politics of the Unrequited explores the form method imperatives and inflections of love in the global post colony and offers a way to re apprehend and re inscribe love in an anticolonial materialist and nonfascist politics and aesthetics The figure of the unrequited is invoked as a symptom of a brutally loveless yet effusively sentimentalized era and also as an ineluctable yet very concrete political location in the face of both the intensifying external realities of war occupation apartheid austerity and terror as well as the increasingly normalized internalizations of ordinary imperialism nationalism neoliberalism fascism and colonialism all of which seem bent on extinguishing the possibility of relation itself The book asks that we look at practices of love and other material labors that yield and sustain these realities within complex lifeworlds indeed those which sustain entire systems of our subjection extraction and disposability such as colonialism capitalism liberalism and fascism as lifeworlds especially when given dominant forms of recognition affection embrace and belonging are unacceptable or even repulsive Distancing itself from shortcuts afforded by love's abstract forms deployed in ethical and moral discourses that at once elevate it yet wholly reduce it to a timeless apolitical essence *Another Love* sees love as a material and political relation to time and space signaling willed and unwilled shifts in historical reality in societies juggling various wars and annihilations It maintains that love is something in and with which we confess our complicities not only with but also against hegemonic notions of belonging devotion martyrdom hospitality publicity collectivity and solidarity nurtured and harvested under capital and colony The longing and the love missed by the pernicious and reactionary politics both of liberal democracy and the incidental fascisms that it claims to set out to fix can give us clues into past present and future moments of rebellion resistance rejection and redemption that are crucial to a liberatory anticolonial and antifascist politic and to rethinking attachment desire and relation itself **All the Living and the Dead**

Hayley Campbell, 2022-08-16 A deeply compelling exploration of the death industry and the people morticians detectives crime scene cleaners embalmers executioners who work in it and what led them there We are surrounded by death It is in our news our nursery rhymes our true crime podcasts Yet from a young age we are told that death is something to be feared How are we supposed to know what we're so afraid of when we are never given the chance to look Fueled by a childhood fascination with death journalist Hayley Campbell searches for answers in the people who make a living by working with the dead Along the way she encounters mass fatality investigators embalmers and a former executioner who is responsible for ending sixty-two lives She meets gravediggers who have already dug their own graves visits a cryonics facility in Michigan goes for late night Chinese with a homicide detective and questions a man whose job it is to make crime scenes disappear Through Campbell's incisive and candid interviews with these people who see death every day she asks Why would someone choose this kind of life Does it change you as a person And are we missing something vital by letting death remain hidden A

dazzling work of cultural criticism All the Living and the Dead weaves together reportage with memoir history and philosophy to offer readers a fascinating look into the psychology of Western death *What Twenty-first Century Leadership Can Learn from Nineteenth Century American Literature* Christine A. Eastman,2024-05-03 What Twenty First Leadership Can Learn from Nineteenth Century American Literature aims to narrow the gap between leadership theory and practice offering an account of how leaders in organizations can improve their practice by drawing on the literary imagination Eastman analyses how business students can use literary fiction to find solutions to workplace problems how they can engage with fictional writers ideas about work morality and the self and how they can articulate their own ideas about fostering a deeper connection between leaders and their teams in the workplace The book contributes to leadership studies by setting out the case for using literary fictional texts to explore leadership scenarios It has several purposes The first is to provide educators with ideas on how to use fiction with students following a business curriculum The second is to encourage industry to help their employees to become better able to analyse and synthesize complex and possibly conflicting ideas as well as how to articulate these ideas with clarity A third purpose is to demonstrate how university and industry can work together The work presents an alternative orientation for leaders predicated on the conviction that reading fiction will support students in becoming better at thinking about working relationships and at understanding other people and it provides the underpinnings of a unifying theoretical framework for learning through fiction in a professional context and aims to demonstrate that reading about how fictional characters respond to the challenges of life supports students to formulate their own innovative leadership thinking **Severed: A History of Heads Lost and Heads Found** Frances

Larson,2014-11-17 A wide ranging and thoughtful Wall Street Journal exploration of the varied obsessions that the civilized West has had with decapitated heads and skulls The human head is exceptional It accommodates four of our five senses encases the brain and boasts the most expressive set of muscles in the body It is our most distinctive attribute and connects our inner selves to the outer world Yet there is a dark side to the head s preeminence one that has in the course of human history manifested itself in everything from decapitation to headhunting So explains anthropologist Frances Larson in this fascinating history of decapitated human heads From the Western collectors whose demand for shrunken heads spurred massacres to Second World War soldiers who sent the remains of the Japanese home to their girlfriends from Madame Tussaud modeling the guillotined head of Robespierre to Damien Hirst photographing decapitated heads in city morgues from grave robbing phrenologists to skull obsessed scientists Larson explores our macabre fixation with severed heads

Official Gazette of the United States Patent and Trademark Office ,2000 **The Severed Head** Julia Kristeva,2025-03-04 Informed by a provocative exhibition at the Louvre curated by the author The Severed Head unpacks artistic representations of severed heads from the Paleolithic period to the present Surveying paintings sculptures and drawings Julia Kristeva turns her famed critical eye to a study of the head as symbol and metaphor as religious object and

physical fact further developing a critical theme in her work the power of horror and the potential for the face to provide an experience of the sacred Kristeva considers the head as icon artifact and locus of thought seeking a keener understanding of the violence and desire that drives us to sever and in some cases keep such a potent object Her study stretches all the way back to 6 000 B C E with humans early decoration and worship of skulls and follows with the Medusa myth the mandylion of Laon a holy relic in which the face of a saint appears on a piece of cloth the biblical story of John the Baptist and his counterpart Salome tales of the guillotine modern murder mysteries and even the rhetoric surrounding the fight for and against capital punishment Kristeva interprets these capital visions through the lens of psychoanalysis drawing infinite connections between their manifestation and sacred experience and very much affirming the possibility of the sacred even in an era of faceless interaction
