**Nationalizing Sex** Richard Togman,2019-02-13 Government sponsored breeding programs medals of motherhood forced abortions and surgical sterilization on park benches all of these policies have come out of government efforts to nationalize sex and harness procreation as a tool of the state Over 170 countries or 85% of governments worldwide have active policies designed to manipulate the fertility of their citizenry with the aim of influencing the rate of growth of their populations While over 90% of least developed states are trying to combat population growth with policies designed to reduce fertility over two thirds of all developed countries are actively crafting legislation to increase their populations Despite over a hundred years of relative failure and innumerable studies questioning the viability and utility of government attempts to manipulate the fertility rate of the population as a whole the majority of governments worldwide continue to uphold and develop such policies What drives government to try to control how many children people will have Nationalizing Sex traces why population emerged as an object of governance and how natalist policy has changed over time and place using case studies from France Germany Russia India and China It analyzes the origins growth and development of fertility as a national and international political issue the rise and fall of the narratives used to ascribe meaning to natality and the global proliferation of oddly similar policies adopted by widely dissimilar states As importantly it explains why after hundreds of years countries continue to pursue natalist policy even though it has been such a widespread failure      **From One Child to Two Children** Shibei Ni,2023-12-30 This book dissects the reproductive intentions and behaviours of the one child generation cohort in China situated in the wider context of changing family life patterns and gendered lenses Demonstrating that the one child family is still favoured by the one child generation this book uncovers the socioeconomic dimensions and mechanisms of family relations underlying young people s decision making processes It also incorporates individual considerations and experiences of childbearing from over 50 interviews to contribute to the development of China s social policy Whereas men s childbearing beliefs were relatively unexplored in the literature the author included male interviewees to better reflect gender differences in relation to childbearing employment and family Analysing the relationship between life routine and the desire or lack thereof to increase China s population the author argues that the current childbearing policy fails to accommodate the needs and demands of young people thus limiting the uptake of China s new policy      **Sex in China** Elaine Jeffreys,2015-06-05 Choice Outstanding Academic Title for 2015 Sex in China introduces readers to some of the dramatic shifts that have taken place in Chinese sexual behaviours and attitudes and public discussions of sex since the 1980s The book explores what it means to talk about sex in present day China where sex and sexuality are more and more visible in everyday life Elaine Jeffreys and Haiqing Yu situate Chinas changing sexual culture and how it is governed in the socio political history of the Peoples Republic of China They demonstrate that Chinese governmental authorities and policies do not set out strictly to repress sex they also create spaces for the emergence of new sexual subjects and subjectivities They
