The Sexes Throughout Nature Antoinette Louisa BLACKWELL, 1875 **Anarchafeminism** Chiara Bottici, 2021-11-18 How can we be sure the oppressed do not become oppressors in their turn How can we create a feminism that doesn't turn into yet another tool for oppression It has become commonplace to argue that in order to fight the subjugation of women we have to unpack the ways different forms of oppression intersect with one another class race gender sexuality disability and ecology to name only a few By arguing that there is no single factor or arche explaining the oppression of women Chiara Bottici proposes a radical anarchafeminist philosophy inspired by two major claims that there is something specific to the oppression of women and that in order to fight that we need to untangle all other forms of oppression and the anthropocentrism they inhabit Anarchism needs feminism to address the continued subordination of all femina but feminism needs anarchism if it does not want to become the privilege of a few Anarchafeminism calls for a decolonial and deimperial position and for a renewed awareness of the somatic communism connecting all different life forms on the planet In this new revolutionary vision feminism does not mean the liberation of the lucky few but liberation for all living creatures from both capitalist exploitation and an androcentric politics of domination Either all or none of us will be free *Teaching Moral Sex* Kristy L. Slominski, 2021 *Teaching Moral Sex* is the first comprehensive study of the role of religion in the history of public sex education in the United States from the late nineteenth century to the early twenty first Far from being a barrier to sex education Kristy Slominski demonstrates religion has been deeply embedded in the history of sex education and its legacy has shaped the terms of current debates *Ecomasculinities* Rubén Cenamor, Stefan Brandt, 2019-01-25 While there exist numerous studies on ecocriticism and ecofeminism much less has been written about ecomasculinities This volume contributes to filling this gap by examining models of fictional ecomasculinity in and through contemporary U S literature and cinema Our study examines ecomasculinities as practices of masculinity which are deeply conservationist and can

embrace non masculine traits In this line of thought a main goal of the volume is to interrogate the potential of ecomasculinities to elicit in men a desire to become engage in other practices of masculinity that are counter hegemonic and have as main goal to achieve equality on different strata of society Bridging the gap between the Social Sciences and the Humanities the book interrogates intersections between ecomasculinities and masculinities beyond capitalism ecomasculinities and aging and ecomasculinities and queerness among others *Paul against the Nations* Neil Elliott,2023-11-10 In these essays some of them never published before Neil Elliott presents an understanding of Romans at odds with the traditional Protestant understanding a treatise on justification by faith or the New Perspective Paul s argument with Jewish ethnocentrism The letter that emerges here is an urgent response to a historical situation Paul engages what would quickly become the supersessionist norm in gentile Christianity shaped by the Roman construal of subject peoples Gathered here for the first time these studies rely on rhetorical criticism broad attention to Roman imperial ideology and postcolonial criticism to argue for a strikingly new perspective on Romans **Journal of the Society of Sanitary and Moral Prophlaxis** ,1914 *Rural New Yorker* ,1896 Deviations Gayle Rubin,2011-11-28 Collection of writings by Gayle S Rubin an American theorist and activist in feminist lesbian and gay queer and sexuality studies since the 1970s
