Baldwin, 2015-02-21 This study brings together widely divergent discourses to fashion a comprehensive picture of sexual language and attitudes at a particular time and place in the medieval world John Baldwin introduces five representative voices from the turn of the twelfth century in northern France Pierre the Chanter speaks for the theological doctrine of Augustine the Prose Salernitan Questions for the medical theories of Galen Andre the Chaplain for the Ovidian literature of the schools Jean Renart for the contemporary romances and Jean Bodel for the emerging voices of the fabliaux Baldwin juxtaposes their views on a range of essential subjects including social position the sexual body desire and act and procreation The result is a fascinating dialogue of how they agreed or disagreed with ignored imitated or responded to each other at a critical moment in the development of European ideas about sexual desire fulfillment morality and gender These spokesmen allow us into the discussion of sexuality inside the church and schools of the clergy in high and popular culture of the leity This heterogeneous discussion also offers a startling glimpse into the construction of gender specific to this moment when men and women enjoyed equal status in sexual matters if nowhere else Taken together these voices extend their reach encompass their subject and point to a center where social reality lies By articulating reality at its varied depths this study takes its place alongside groundbreaking works by James Brundage John Boswell and Leah Otis in extending our understanding of sexuality and sexual behavior in the

Middle Ages Superb work These five kinds of discourse are not often treated together in scholarly writing let alone compared and contrasted so well Edward Collins Vacek Theological Studies Baldwin has made the five voices speak to us in a language that is at one and the same time familiar and alien in its resonance and accents This is a truly exceptional book interdisciplinary in the real sense of the word which is surely destined to become a landmark in medieval studies Keith Busby Bryn Mawr Reviews Baldwin s attempt to listen to these distant voices and translate their language of sex into our own raises challenging methodological questions that will be of great interest to historians and literary scholars alike John P Dalton Comitatus Encyclopedia of Sex and Sexuality Heather L. Armstrong,2021-03-01 Providing a comprehensive framework for the broad subject of human sexuality this two volume set offers a context of historical development scientific discovery and sociopolitical and sociocultural movements The broad topic of sex encompassing subjects as varied as sexuality sexual and gender identity abortion and such crimes as sexual assault is one of the most controversial in American society today This two volume encyclopedic set provides readers with more than 450 entries on the subject offering a comprehensive overview of major sexuality issues in American and global culture Themes that run throughout the volumes include sexual health and reproduction sexual identity and orientation sexual behaviors and expression the history of sex and sexology and sex and society Entries cover a breadth of subjects such as the major contributors to the field of sexology the biological psychological and cultural dimensions of sex and sexuality and how the modern day political climate and the government play a major role in determining attitudes and beliefs about sex Written in clear jargon free language this set is ideal for students as well as general readers *The Lady's Magazine, Or, Entertaining Companion for the Fair Sex, Appropriated Solely to Their Use and Amusement* ,1794 **The Lady's Magazine Or Entertaining Companion for the Fair Sex** ,1794

Philosophizing About Sex Laurie J. Shrage,Robert Scott Stewart,2015-01-20 Ancient Greek philosophers medieval theologians Enlightenment thinkers and contemporary humanists alike have debated all aspects of human sexuality including its purpose permissibility normalcy and risks Philosophizing About Sex provides a philosophical guide to those longstanding and important debates Each chapter takes a general issue freedom privacy objectification etc and shows how ongoing public discussions of sexuality can be illuminated by careful philosophical investigation Debates over topics such as sexual assault sexual orientation sex education prostitution and sexting involve larger questions about morality law science and politics and cannot be intelligently discussed in isolation from broader issues By asking deceptively simple questions this book shows how difficult but important it is to arrive at satisfying answers **Mixed or Single-sex School? Volume 3** R. R. Dale,2017-05-18 Originally published in 1974 This final volume in the trilogy is concerned primarily with comparing the academic progress made by pupils of near equal ability in the two types of school It considers attainment in different subjects but also attitudes to different subjects and then follows up with a study of university students from both types of school background Ayrshire Digest ,1927 **Sex Crime in the News** Keith Soothill,Sylvia Walby,2023-03-31 First published in

1991 *Sex Crime in the News* is a unique examination of the nature of sex crime reporting in the press. Analysing examples from forty years of newspaper coverage, the authors provide a systematic study of this controversial topic. The book reveals the misleading and trivializing nature of sex crime coverage with serious research reports on rape and discussions on law reform being given short shrift. The authors examine the increasing gap between the reality of sexual abuse and the coverage it receives in the press and they set their detailed empirical work within a context of broader concerns about the relationship between the media, the individual and the state. Critical though it is of the press, this book will be of special interest to people working in the media and to legislators involved in debates about the press. It will also be of value to students on course in women's studies, cultural and media studies and deviancy.

Employing a methodology that includes both quantitative and qualitative research, they provide a new framework of analysis, what they call practices of love, that challenges heteronormative models of engaging domestic violence in research, policy and practice. *The London Gazette* Great Britain, 1825 The Law Times, 1879 *The Rand McNally Bankers' Monthly*, 1899 **The Weekly Notes** Frederick Pollock, 1902 **The Parliamentary Debates** Great Britain.
