ABSTRACT. Based on the constitutive ambiguity of the One that Lacan promotes from logic and mathematics in the seminars *O saber do psicanalista e ...ou pior*, between 1971 and 1972, the article seeks to support the theory of sexualization developed in that period and clarify that such conceptualization resumes the Freudian subversion of the drive polymorphism. If the drive does not have any instinctual determination as to its object, it appears that this same misunderstanding is revealed as the impossibility of proportion and sexual relationship [*rapport sexuel*] for the speaking being, who grammatically positions themselves in the structure of language from this impasse. Thus, the bifidity of the One, between set and element, sameness and difference, particularity and universality, ex-sistence and relativity, real and symbolic, rewrites the (sexual) difference according to psychoanalysis. Sex, therefore, is the very absence of any reference other than the constitutive opacity of the signifier, it is the fundamental evasion of the being from the truth.

Keywords: Sexuality; psychoanalysis; significant.

O UM E A FUNÇÃO DO SEXO SEGUNDO A PSICANÁLISE

RESUMO. Segundo a ambigüidade constitutiva do Um que Lacan promove a partir da lógica e da matemática nos seminários *O saber do psicanalista e ... ou pior*, entre 1971 e 1972, o artigo busca fundamentar a teoria da sexualização desenvolvida nesse período e esclarecer que tal conceituação retoma a subversão freudiana do polimorfismo pulsional. Se a pulsão não tem qualquer determinação instintual quanto a seu objeto, constata-se que esse mesmo equívoco se deslinda como impossibilidade de proporção e relação sexual [*rapport sexuel*] para o ser falante, que se posiciona gramaticalmente na estrutura da linguagem a partir desse impasse. Nesse sentido, a bifididade do Um, entre conjunto e elemento, mesmidade e diferença, particularidade e universalidade, ex-sistência e relatividade, real e simbólico, reescreve a diferença (sexual) conforme a psicanálise. O sexo, portanto, é a própria ausência de qualquer referência que não seja a opacidade de princípio do significante, é a evasão fundamental do ser à verdade.

Palavras-chave: Sexualidade; psicanálise; significante.

Three Contributions to the Theory of Sex Sigmund Freud, Abraham Arden Brill, 1920 **Sex in Psychoanalysis** Sándor Ferenczi, 1950 **Sex in Psycho-analysis** Sándor Ferenczi, Ernest Jones, 1916 **Freud on the Acropolis** Susan Sugarman, 1958-01 This book analyzes a unique mental event the paradoxical surprise that people often feel when they come upon something that they have felt sure existed but are seeing for the first time Noted first by Sigmund Freud this common but odd thought proves remarkably resistant to trivial explanation marks instead a distinct type of experience Similarly in everyday life we often feel compelled to verify firsthand the scene of a recent event even though we never doubted its occurrence Susan Sugarman probes this experience its relation to other everyday sensibilities such as the pleasure of reencountering the familiar people s fascination with authenticity Although the experience manifests itself in a seeming lapse in logic remains obscure in a way that one might that Freud did associate with pathological formations it is neither illogical nor pathological On the contrary it observes a moment of mental health personal integration On the contrary it observes a moment of mental health personal integration **Sex in Psychoanalysis** S. Ferenczi, Ernest Jones, 2014-03 This Is A New Release Of The Original 1916 Edition **Sex in Christianity and Psychoanalysis** William Cole, 2015-11-06 Originally published in 1956 this survey of the interpretations of sex by the major figures in Christian thought and in psychoanalysis made an important contribution to the re thinking of our sexual morality at the time The author refutes the common belief that the negative attitude toward sex and the body which had been predominant in western civilization originated with Christianity He shows that such a viewpoint was widespread in the early Hellenism Age nearly three centuries before Christ He emphasizes the essentially positive view which Biblical religion demands and shows how Christianity s attitude early became corrupted by the dualism of the Orient He points to the need for a return to essential naturalism and the Biblical interpretation of sex The first part of the book consists of a historical treatment in the Christian tradition touching upon the teaching of Jesus Paul Augustine Aquinas Luther Calvin and others He analyses the classical and contemporary attitudes and ideas in both Catholic and Protestant circles and shows how Christian understanding comes into conflict with psychoanalysis In the later portions of the book the author discusses sex and psychoanalysis and the major problems in sexual mores He ends with a synthesis of the religious and psychoanalytic points of view and a critical reconstruction of a Christian interpretation **Sex in Psycho-Analysis** Ferenczi Sandor 1873-1933, HardPress, 2013-06 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy **Three Contributions to the Theory of Sex** Sigmund Freud, 2011-12 This book is part of the TREDITION CLASSICS series The creators of this series are

Sex for Structuralists Shanna de la Torre,2018-08-03 This book argues that structuralism makes itself useful when it engages with the non Oedipal logics of femininity and psychosis Building from the psychoanalytic belief that norms repress unconscious desire while structures open onto the creative resources of the symbolic Sex for Structuralists looks to key texts in myth trauma and unconscious fantasy by Sigmund Freud Jacques Lacan and Claude L vi Strauss It also examines innovative writings by contemporary Lacanian thinkers in order to discover what becomes of structuralism when the ground upon which it ostensibly stands namely that of the zero symbol or the incest prohibition drops out from under it

Sex and

Nothing Alejandro Cerda-Rueda,2018-05-08 From its etymological roots sex is related to a scission Latin for sectus secare meaning to divide or cut Therefore regardless of the various studies applied to defining sex as inscribed by discursive acts i e merely a performatively enacted signification there is something more to sex than just a social construction or an aprioristic substance Sex is irreducible to meaning or knowledge This is why psychoanalysis cannot be formulated as an erotology nor a science of sex scientia sexualis In this matter sex escapes the symbolic restraints of language however it is through its failure that it manifests itself through the symbolic e g symptoms or dream life So what is sex Sex and Nothing embarks upon a dialogue between colleagues and friends interested in bridging psychoanalysis and philosophy linking sex and thought where what emerges is a greater awareness of the irreducibility of sex to the discourse of knowledge and meaning in other words sex and nothing
