New Deal Fat Cats

Kathryn S. Olmsted

New Deal Fat Cats:

Visions of Progress Doug Rossinow, 2009-11-19 Rossinow revisits the period between the 1880s and the 1940s when reformers and radicals worked together along a middle path between the revolutionary left and establishment liberalism He takes the story up to the present showing how the progressive connection was lost and explaining the consequences that followed

Voting Deliberatively Mary E. Stuckey, 2015-06-19 The 1932 election of Franklin Delano Roosevelt seemed to hold the promise of Democratic domination for years to come However leading up to the 1936 election persistent economic problems a controversial domestic agenda and the perception of a weak foreign policy were chipping away at public support The president faced unrelenting criticism from both the Left and the Right and it seemed unlikely that he would cruise to the same clear victory he enjoyed in 1932 But 1936 was yet another landslide win for FDR which makes it easy to forget just how contested the campaign was In *Voting Deliberatively* Mary Stuckey examines little discussed components of FDR's 1936 campaign that aided his victory She reveals four elements of this reelection campaign that have not received adequate attention the creation of public opinion the attention paid to local organizations the focus on specific kinds of interests and the public rhetoric that tied it all together Previous studies of the 1936 presidential election discuss elements such as FDR's vulnerability before the campaign and the weakness of Republican candidate Alf Landon But these histories pay little attention to the quantity and quality of information Roosevelt acquired the importance of organizations such as the Good Neighbor League and the Committee of One the mobilization of the vote and the ways in which these organizational strategies fused with Roosevelt's rhetorical strategies Stuckey shows how these facets combined in one of the largest victories in Electoral College history and provided a template for future victory

The Republicans Lewis L. Gould, 2014-08-29 Lewis L. Gould's 2003 history of the Republican Party was a fast paced account of Republican fortunes The *Republicans* won praise for its even handed incisive analysis of Republican history drawing on Gould's deep knowledge of the evolution of national political history and acute feel for the interplay of personalities and ideology In this revised and updated edition Gould extends this history adding a new chapter on the George W. Bush presidency the election of 2008 and the response of the Grand Old Party to Barack Obama His narrative covers such contemporary figures as Newt Gingrich Sarah Palin and John McCain as well as forgotten Republican leaders including James G. Blaine Mark Hanna Wendell Willkie and Robert A. Taft Contending that the historic Republican skepticism about the legitimacy of the Democratic Party has shaped American politics since the Civil War Gould argues that the persistent flaw in the relations between the two parties has led the nation to the current crisis of stalemate and partisan bitterness No other account of Republican history is as up to date crammed with fascinating information and ready to serve as an informed guide to today's partisan warfare Lay readers and political junkies alike seeking the best book on Republican history will find what they are looking for in Gould's comprehensive volume

A Patriot's History of the United States Larry Schweikart, Michael Allen, 2014-11-25 Revised

and updated this 15th anniversary edition of the 1 New York Times bestseller salutes America's true and proud history. Fifteen years ago Professors Larry Schweikart and Michael Allen set out to correct the doctrinaire biases that had distorted the way America's past is taught and they succeeded. A Patriot's History of the United States is the definitive objective history of our country presented honestly and fairly. Schweikart and Allen don't ignore America's mistakes through the years. Instead they put them back in the proper perspective, celebrating the strengths of the men and women who cleared the wilderness, abolished slavery and rid the world of fascism and communism. Now in this revised fifteenth anniversary edition, a new generation of readers will learn the truth about America's discovery, founding and advancement from Columbus's voyage to Trump's promise to Make America Great Again.

The Republican Party in the Age of Roosevelt Elliot A. Rosen, 2014-02-21

Elliot Rosen's Hoover, Roosevelt and the Brains Trust focused on the transition from the Hoover administration to that of Roosevelt and the formulation of the early New Deal program. Roosevelt, the Great Depression and the Economics of Recovery emphasized long-term and structural recovery programs as well as the 1937-38 recession. Rosen's final book in the trilogy, *The Republican Party in the Age of Roosevelt*, situates distrust of the federal government and the consequent transformation of the party. Domestic and foreign policies introduced by the Roosevelt administration created division between the parties. The Hoover doctrine, which sought to restrict the reach of independent agencies at the federal level in order to restore business confidence and investment, intended to reverse the New Deal and to curb the growth of federal functions. In his new book, Elliot Rosen holds that economic thought regarding appropriate functions of the federal government has not changed since the Great Depression. The political debate is still being waged between advocates for direct intervention at the federal level and those for the Hoover ethic with its stress on individual responsibility. The question remains whether preservation of an unfettered marketplace and our liberties remain inseparable or whether enlarged governmental functions are required in an increasingly complex national and global environment. By offering a well-researched account of the antistatist and nationalist origins, not only of the debate over legitimate federal functions but also of the modern Republican Party, this book affords insight into such contemporary political movements as the Tea Party.

The New Deal's War on the Bill of Rights David T. Beito, 2023-10-10

Spying on citizens, censoring critics, imprisoning minorities. These are the acts of dictators, not American presidents. Or are they? The legacy of President Franklin D. Roosevelt enjoys regular acclaim from historians, politicians and educators. Lauded for his New Deal policies, leadership as a wartime president, cozy fireside chats and groundbreaking support of the forgotten man, FDR we have been told is worthy of the same praise as men like Washington, Jefferson and Lincoln. But is that true? Does the father of today's welfare state really deserve such generous approbation? Or is there a dark side to this golden legacy? *The New Deal's War on the Bill of Rights: The Untold Story of FDR's Concentration Camps, Censorship and Mass Surveillance* unveils a much different portrait than the standard orthodoxy found in today's historical studies. Deploying an abundance of primary source evidence and well-reasoned arguments, historian and

distinguished professor emeritus David T Beito masterfully presents a complete account of the real Franklin D Roosevelt a man who abused power violated human rights targeted dissidents and let his crude racism imprison American citizens merely for being of Japanese descent Read it and discover how FDR shamelessly censored critics of his administration barred them from the public square destroyed their careers and even bankrupted them when possible locked up Japanese American citizens in concentration camps built on American soil sowed the seeds of today s out of control surveillance state and much much more Here is an all too rare portrait of a man who changed the course of American history not for the better Read it and you ll never view the fireside president the same again *White Protestant Nation* Allan J. Lichtman,2008 Examines the origins development and achievements of conservatism in the United States from the birth of the modern right in the 1920s through the restoration of the conservative consensus at the end of the twentieth century **Social History of the United States** Brian Greenberg,Linda S. Watts,Richard A. Greenwald,Gordon Reavley,Alice L. George,Scott Beekman,Cecelia Bucki,Mark Ciabattari,John C. Stoner,Troy D. Paino,Laurie Mercier,Andrew Hunt,Peter C. Holloran,Nancy Cohen,2008-10-23 This ten volume encyclopedia explores the social history of 20th century America in rich authoritative detail decade by decade through the eyes of its everyday citizens Social History of the United States is a cornerstone reference that tells the story of 20th century America examining the interplay of policies events and everyday life in each decade of the 1900s with unmatched authority clarity and insight Spanning ten volumes and featuring the work of some of the foremost social historians working today Social History of the United States bridges the gap between 20th century history as it played out on the grand stage and history as it affected and was affected by citizens at the grassroots level Covering each decade in a separate volume this exhaustive work draws on the most compelling scholarship to identify important themes and institutions explore daily life and working conditions across the economic spectrum and examine all aspects of the American experience from a citizen s eye view Casting the spotlight on those whom history often leaves in the dark Social History of the United States is an essential addition to any library collection **The Newspaper Axis** Kathryn S. Olmsted,2022-03-22 How six conservative media moguls hindered America and Britain from entering World War II A landmark in the political history of journalism Michael Kazin author of What It Took to Win A History of the Democratic Party As World War II approached the six most powerful media moguls in America and Britain tried to pressure their countries to ignore the fascist threat The media empires of Robert McCormick Joseph and Eleanor Patterson and William Randolph Hearst spanned the United States reaching tens of millions of Americans in print and over the airwaves with their isolationist views Meanwhile in England Lord Rothermere s Daily Mail extolled Hitler s leadership and Lord Beaverbrook s Daily Express insisted that Britain had no interest in defending Hitler s victims on the continent Kathryn S Olmsted shows how these media titans worked in concert including sharing editorial pieces and coordinating their responses to events to influence public opinion in a right wing populist direction how they echoed fascist and anti Semitic propaganda and how they weakened and delayed both Britain s

and America's response to Nazi aggression *The Corporate Rich and the Power Elite in the Twentieth Century* G. William Domhoff, 2019-06-21 The *Corporate Rich and the Power Elite in the Twentieth Century* demonstrates exactly how the corporate rich developed and implemented the policies and created the government structures that allowed them to dominate the United States. The book is framed within three historical developments that have made this domination possible: the rise and fall of the union movement, the initiation and subsequent limitation of government social benefit programs, and the postwar expansion of international trade. The book's deep exploration into the various methods the corporate rich used to centralize power corrects major empirical misunderstandings concerning all three issue areas. Further, it explains why the three ascendant theories of power in the early twenty-first century—interest group pluralism, organizational state theory, and historical institutionalism—cannot account for the complexity of events that established the power elite's supremacy and led to labor's fall. More generally and convincingly, the analysis reveals how a corporate-financed policy planning network, consisting of foundations, think tanks, and policy discussion groups, gradually developed in the twentieth century and played a pivotal role in all three issue areas. Filled with new archival findings and commanding detail, this book offers readers a remarkable look into the nature of power in America during the twentieth century and provides a starting point for future in-depth analyses of corporate power in the current century.

Studying the Power Elite G. William Domhoff, Eleven Other Authors, 2017-08-04 This book critiques and extends the analysis of power in the classic *Who Rules America* on the fiftieth anniversary of its original publication in 1967 and through its subsequent editions. The chapters, written especially for this book by twelve sociologists and political scientists, provide fresh insights and new findings on many contemporary topics among them: the concerted attempt to privatize public schools, foreign policy, and the growing role of the military-industrial component of the power elite; the successes and failures of union challenges to the power elite; the ongoing and increasingly global battles of a major sector of agribusiness; and the surprising details of how those who hold to the egalitarian values of social democracy were able to tip the scales in a bitter conflict within the power elite itself on a crucial banking reform in the aftermath of the Great Recession. These social scientists thereby point the way forward in the study of power, not just in the United States but globally. A brief introductory chapter situates *Who Rules America* within the context of the most visible theories of power over the past fifty years: pluralism, Marxism, Millsian elite theory, and historical institutionalism. Then a chapter by G. William Domhoff, the author of *Who Rules America*, takes us behind the scenes on how the original version was researched and written, tracing the evolution of the book in terms of new concepts and research discoveries by Domhoff himself as well as many other power structure researchers through the 2014 seventh edition. Readers will find differences of opinion and analysis from chapter to chapter. The authors were encouraged to express their views independently and frankly. They do so in an admirable and useful fashion that will stimulate everyone's thinking on these difficult and complex issues, setting the agenda for future studies of power.

Handbook of Politics Kevin T. Leicht, J. Craig Jenkins, 2009-11-28

Political sociology is the interdisciplinary study of power and the intersection of personality society and politics The field also examines how the political process is affected by major social trends as well as exploring how social policies are altered by various social forces Political sociologists increasingly use a wide variety of relatively new quantitative and qualitative methodologies and incorporate theories and research from other social science cognate disciplines The contributors focus on the current controversies and disagreements surrounding the use of different methodologies for the study of politics and society and discussions of specific applications found in the widely scattered literature where substantive research in the field is published This approach will solidly place the handbook in a market niche that is not occupied by the current volumes while also covering many of the same theoretical and historical developments that the other volumes cover The purpose of this handbook is to summarize state of the art theory research and methods used in the study of politics and society This area of research encompasses a wide variety of perspectives and methods that span social science disciplines The handbook is designed to reflect that diversity in content method and focus In addition it will cover developments in the developed and underdeveloped worlds

Presidential Campaigns, Slogans, Issues, and Platforms Robert North Roberts, Scott John Hammond, Valerie A. Sulfaro, 2012-06-12 The book provides a comprehensive discussion of the major issues and events surrounding all American presidential elections from the earliest years of the Republic through the campaign of 2008 Presidential Campaigns Slogans Issues and Platforms The Complete Encyclopedia is an easy to use reference work designed to encourage students and anyone interested in democratic politics to undertake a greater understanding of this complex aspect of American political life The three volume work covers each presidential campaign in depth examining a large number of related issues ranging from the use of social media in modern presidential campaigns to negative campaign ads and key slogans used in every presidential campaign Volume One contains entries offering specific and focused information on issues trends factors slogans strategies and other more detailed elements of presidential campaigning from the first stirrings of the American democratic process to the first decade of the 21st century Volumes Two and Three provide chronological accounts of every presidential campaign since the ratification of the Constitution through the campaign of 2008 with Volume Two covering the campaign of 1788 89 to the campaign of 1908 and Volume Three covering the campaign of 1912 to the campaign of 2008

Myth of Liberal Ascendancy G. Williams Domhoff, 2015-11-17 Based on new archival research G Williams Domhoff challenges popular conceptions of the 1930 s New Deal Arguing instead that this period was one of increasing corporate dominance in government affairs affecting the fate of American workers up to the present day While FDR s New Deal brought sweeping legislation the tide turned quickly after 1938 From that year onward nearly every major new economic law passed by Congress showed the mark of corporate dominance Domhoff accessibly portrays documents of the Committee s vital influence in the halls of government supported by his interviews with several of its key employees and trustees Domhoff concludes that in terms of economic influence liberalism was on a long steady decline

despite two decades of post war growing equality and that ironically it was the successes of the civil rights feminist environmental and gay lesbian movements not a new corporate mobilisation that led to the final defeat of the liberal labour alliance after 1968

The Cambridge Handbook of Sociology: Volume 2 Kathleen Odell Korgen, 2017-08-11 Whether a student an instructor a researcher or just someone interested in understanding the roots of sociology and our social world The Cambridge Handbook of Sociology Volume 2 is for you This second volume of the Handbook covers specialties within sociology and interdisciplinary studies that relate to sociology It includes perspectives on race class feminist theories special topics e g the sociology of nonhuman animals quality of life social indicators research the sociology of risk the sociology of disaster the sociology of mental health sociobiology the sociology of science and technology the sociology of violence environmental justice and the sociology of food the sociology of the self the sociology of the life course culture and behavior sociology s impact on society and related fields e g criminology criminal justice studies social work social psychology sociology of translation and translation studies and women and gender studies Each essay includes a discussion of how the respective subfield contributes to the overall discipline and to society Written by some of the most respected scholars teachers and public sociologists in the world the essays are highly readable and authoritative

The Foundations of American Jewish Liberalism Kenneth D. Wald, 2019-01-17 American Jews have built a political culture based on the principle of equal citizenship in a secular state This durable worldview has guided their political behavior from the founding to the present day In The Foundations of American Jewish Liberalism Kenneth D Wald traces the development of this culture by examining the controversies and threats that stimulated political participation by American Jews Wald shows that the American political environment permeated by classic liberal values produced a Jewish community that differs politically from non Jews who resemble Jews socially and from Jewish communities abroad Drawing on survey data and extensive archival research the book examines the ups and downs of Jewish attachment to liberalism and the Democratic Party and the tensions between two distinct strains of liberalism

Money and Free Speech Melvin I. Urofsky, 2005 Money greases the wheels of American politics from the local level to the White House In the 2004 presidential campaign President George W Bush alone raised nearly 400 million in private and public funds nearly twenty times the combined total raised by John Kennedy and Richard Nixon in 1960 to defeat challenger John F Kerry further fueling anxiety over the power of money to dictate political results Melvin Urofsky one of our nation s most respected legal historians takes a fresh look at efforts to rein in campaign spending and counter efforts in the courts to preserve the status quo He offers a thoughtful and balanced overview of campaign finance reform and the legal responses to it from the Progressive era through the Supreme Court s landmark ruling in *McConnell v FEC* 2003 and its impact on the 2004 election Urofsky focuses especially on the 1971 Federal Election Campaign Act and 2002 McCain Feingold or Bipartisan Campaign Reform Act BCRA and on challenges to both in the Supreme Court In *Buckley v Valeo* 1976 the Court upheld contribution limits but struck down expenditure caps on First

Amendment grounds In McConnell it upheld the key provisions of McCain Feingold In both cases however opponents argued that congressional control of campaign financing was an unconstitutional infringement of the free speech rights of campaign contributors Urofsky deftly steers the reader through this contentious and complex history revealing how both Congress and the courts have navigated uneasily between the Scylla of potential corruption and the Charybdis of suppressing political speech Ironically despite the Court's decision upholding McCain Feingold the 2004 presidential election was the most expensive in history because as Urofsky notes money is the mother's milk of politics and both candidates and donors will always find ways to keep it flowing His book provides an excellent and succinct guide to the controversies and historical debates emerging from that fact

Navigating Public Opinion Jeff Manza, Fay Lomax Cook, Benjamin I. Page, 2002-09-05

Do politicians listen to the public How often and when Or are the views of the public manipulated or used strategically by political and economic elites Navigating Public Opinion brings together leading scholars of American politics to assess and debate these questions It describes how the relationship between opinion and policy has changed over time how key political actors use public opinion to formulate domestic and foreign policy and how new measurement techniques might improve our understanding of public opinion in contemporary polling and survey research The distinguished contributors shed new light on several long standing controversies over policy responsiveness to public opinion Featuring a new analysis by Robert Erikson Michael MacKuen and James Stimson that builds from their pathbreaking work on how public mood moves policy in a macro model of policymaking the volume also includes several critiques of this model by Lawrence Jacobs and Robert Shapiro another critique by G William Domhoff and a rejoinder by Erikson and his coauthors Other highlights include discussions of how political elites including state level policymakers presidents and makers of foreign policy use or shape public opinion and analyses of new methods for measuring public opinion such as survey based experiments probabilistic polling methods non survey based measures of public opinion and the potential and limitations of Internet polls and surveys Introductory and concluding essays provide useful background context and offer an authoritative summary of what is known about how public opinion influences public policy A must have for all students of American politics public opinion and polling this state of the art collection addresses issues that lie at the heart of democratic governance today

Gunfighter Nation

Richard Slotkin, 1998 Examines the ways in which the frontier myth influences American culture and politics drawing on fiction western films and political writing

Social Problems, Law, and Society Kathryn A. Stout, Richard A. Dello

Buono, William J. Chambliss, 2004-07-14 This volume represents a critical issue oriented approach to law and society emphasizing its important relationship to contemporary social problems Various empirical studies within the text explore the contradictory dynamics of class as they relate to race and gender in both a national and global context illustrating the dialectical interplay between the state and social movements in the context of the larger political economy
