New Deal For Blacks:

A New Deal for Blacks Harvard Sitkoff, 2009 Now with a new prologue and updated bibliography this classic edition of Harvard Sitkoff's *A New Deal for Blacks* is a comprehensive account of the emergence of civil rights as a national issue within the U S The New Deal years are a turning point in race relations trends They constitute a watershed of developments whose outgrowth was a broad based social movement aimed at bringing about a fuller participation of blacks in American society This text covers a wide variety of factors influencing civil rights and race relations in this period It describes political and top down influences but also spends time on ideas and culture and mass mobilization The book provides an opportunity to talk about the different types of factors that influence social change and the relationship between them Finally the scholarship is still accurate and solid and the book is well written avoiding jargon

Blacks in the New Deal: The Shift from an Electoral Tradition and its Legacy Abdelkrim Dekhakhena, 2014-11-01 No group of American minority voters shifted allegiance more dramatically in the 1930s than Black Americans did Up until the New Deal era Blacks had shown their traditional loyalty to the party of Lincoln by voting overwhelmingly the Republican ticket By the end of F D Roosevelt's first administration however they tremendously voted the Democratic ticket The decades long wholesale attachment of Blacks to the party of Lincoln with its laudable efforts to support Blacks Emancipation Proclamation and Reconstruction was understandable and inevitable enough The anomaly was the massive shift by Blacks to the Democratic Party traditionally identified with its long list of constant anti Black and premeditated opposition to Black liberation opposition to emancipation and Reconstruction and with an ongoing record of all forms of racial discrimination segregation disfranchisement exclusion white primaries and white supremacy The transformation of the Black vote from solidly Republican to solidly Democratic did not happen instantaneously but rather it developed over decades of maturing as a result of the amalgamated efforts of Presidents and Black leaders The move of Black voters toward the Democratic Party was part of a nationwide trend that had occurred with the creation of the Roosevelt Coalition of 1936 This national shift would make the Democrats the majority party for the next several decades including a very decisive margin of Black voters in the balance of power

Freedom to Serve Jon Taylor, 2013-05-02 On the eve of America's entry into World War II African American leaders pushed for inclusion in the war effort and after the war they mounted a concerted effort to integrate the armed services Harry S Truman's decision to issue Executive Order 9981 in 1948 which resulted in the integration of the armed forces was an important event in twentieth century American history In *Freedom to Serve* Jon E Taylor gives an account of the presidential order as an event which forever changed the U S armed forces and set a political precedent for the burgeoning civil rights movement Including press releases newspaper articles presidential speeches and biographical sidebars *Freedom to Serve* introduces students to an under examined event while illuminating the period in a new way For additional documents images and resources please visit the *Freedom to Serve* companion website at www.routledge.com/cw/criticalmoments

Jackson, 2014-07-02 Gunnar Myrdal's *An American Dilemma* 1944 influenced the attitudes of a generation of Americans on the race issue and established Myrdal as a major critic of American politics and culture Walter Jackson explores how the Swedish Social Democratic scholar policymaker and activist came to shape a consensus on one of America's most explosive public issues **A Long Dark Night** J. Michael Martinez, 2016-04-14 For a brief time following the end of the U S Civil War American political leaders had an opportunity slim to be sure but not beyond the realm of possibility to remake society so that black Americans and other persons of color could enjoy equal opportunity in civil and political life It was not to be With each passing year after the war and especially after Reconstruction ended during the 1870s American society witnessed the evolution of a new white republic as national leaders abandoned the promise of Reconstruction and justified their racial biases based on political economic social and religious values that supplanted the old North South slavery abolitionist schism of the antebellum era *A Long Dark Night* provides a sweeping history of this too often overlooked

period of African American history that followed the collapse of Reconstruction from the beginnings of legal segregation through the end of World War II Michael J Martinez argues that the 1880s ushered in the dark night of the American Negro a night so dark and so long that the better part of a century would elapse before sunlight broke through Combining both a top down perspective on crucial political issues and public policy decisions as well as a bottom up discussion of the lives of black and white Americans between the 1880s and the 1940s *A Long Dark Night* will be of interest to all readers seeking to better understand this crucial era that continues to resonate throughout American life today **In the Shadow Of the Poorhouse** Michael B. international history the book contributes to the emerging effort to reconceptualize the study of America's past by locating it in a global context In examining the link between international developments and the quest for racial justice Jonathan Rosenberg argues that civil rights leaders were profoundly interested in the world beyond America and incorporated their understanding of overseas matters into their reform program in order to fortify and legitimize the message they presented to their followers the nation and the international community The book considers how a cosmopolitan group of black and white male and female race reform leaders purposively deployed World War I and the peace settlement the decolonization struggles in Africa and Asia the emergence of communism and fascism World War II and the Cold War to help realize their domestic aspirations Rosenberg sets this complex story against the backdrop of America's growing activism on the world stage a development that would have significant positive implications for the domestic struggle Central to the work is the notion that race reform leaders were animated by the idea of color conscious internationalism a distinctive outlook that would affect the trajectory and momentum of the civil rights movement

The Politics of Social Policy in the United States Margaret Weir, Ann Shola Orloff, Theda Skocpol, 1988-05-21 Revised papers from the second and third of three conference held in Chicago throughout 1984 1985 and sponsored by the Project on the Federal Social Role Includes bibliographical references and index
