Congress. House. Committee on Ways and Means, 1947 **Giving Preservation a History** Randall F. Mason, Max Page, 2019-10-21 In this volume some of the leading figures in the field have been brought together to write on the roots of the historic preservation movement in the United States ranging from New York to Santa Fe Charleston to Chicago Giving Preservation a History

explores the long history of historic preservation how preservation movements have taken a leading role in shaping American urban space and development how historic preservation battles have reflected broader social forces and what the changing nature of historic preservation means for efforts to preserve national urban and local heritage The second edition adds several new essays addressing key developing areas in the field by major new voices The new essays represent the broadening range of scholarship on historic preservation generated since the publication of the first edition taking better account of the role of cultural diversity and difference within the field while exploring the connections between preservation and allied concerns such as environmental sustainability LGBTQ and nonwhite identity and economic development

Geography and National Identity David Hooson, 1994-10-20 This volume of especially commissioned essays explores the geography of and the role of geography in national and proto national identity Place and national identity are bound together Attachment to the one is almost always inseparable from the sense of the other Yet as this volume shows the articulated self conscious linking of place and identity is by and large a modern phenomenon that took root in nineteenth century Europe The formation of supranational states and the much vaunted globalization of culture led many to believe there would be a progressive dilution of national identities and a growing agglomeration of places and nations into larger state units Precisely the reverse has taken place This book explores the connections between identity and homeland showing how a place may be perceived as archetypal endowed with love and celebrated in music and poetry yet be a pretext for violence and war It examines the evolution of ideas about identity and their manifestations in a wide variety of settings from the former Soviet Union to the island states of the South Pacific
