[New essays on Hemingway's short fiction](#) , 1991 **Subverting Masculinity** , 2021-08-04 Contemporary Western societies are currently witness to a crisis of masculinity but also to an intriguing diversification of images of masculinity Once relatively stable regimes of masculine gender representation appear to have been replaced by a wider spectrum of varieties of masculine lifestyles taken up by the media and the market to produce new and immensely flexible forms consumerised gender hegemony The essays in *Subverting Masculinity* concentrate on contemporary film literature and diverse forms of popular culture The essays show that the subversion of traditional images of masculinity is both a source of gender contestation but may equally be susceptible to assimilation by new hegemonic configurations of masculinity *Subverting Masculinity* maps out the ongoing relevance of gender politics in contemporary culture but also raises the question of increasingly unclear distinctions between hegemonic and subversive versions of masculinity in contemporary cultural production *Subverting Masculinity* will be of interest to students and teachers of gender cultural film and literary studies

The Hemingway Short Story George Monteiro, 2017-04-03 Ernest Hemingway revolutionized the American short story establishing himself as a master of realist fiction in the tradition of Guy de Maupassant Yet none of Hemingway's emulators has succeeded in duplicating his understated minimalist style In his Iceberg Theory of fiction only the tip of the story is seen on the surface the rest is submerged out of sight This study surveys the scope of Hemingway's mastery of the short story form enabling a fuller understanding of such works as Indian Camp Big Two Hearted River The Killers The Mother of a Queen In Another Country Hills Like White Elephants The Snows of Kilimanjaro and The Mercenaries among many others All 13 stories from his underrated Winner Take Nothing collection are evaluated in detail

A Cognitive Approach to Ernest Hemingway's Short Fiction Gabriela Tucan, 2021-04-09 How do readers make sense of Hemingway's short stories How is it possible that the camera like quality of his narrative can appeal to our senses and arouse our emotions How does it capture us With reserved narrators and protagonists engaged in laconic dialogs his texts do not seem to say much This book consciously revisits our responses to the Hemingway story a belated response to his invitation to discover what lies beneath the surface of his iceberg What this pioneering critical endeavor seeks to understand is the thinking required in reading Hemingway's short fiction It proposes a cognitively informed model of reading which questions the resources of the reader's imaginative powers The cognitive demonstrations here are designed to have potentially larger implications for the short story's general mode of knowing Drawing from both cognitively oriented poetics and narratology in equal measure this book explains what structures our interaction with literary texts

created an entirely unprecedented role for fictional dialogue explores his methods of characterization and categorizes his settings in the fifty three stories that comprise his most important work in the genre A major contribution to Hemingway scholarship and to the study of modernist fiction Art Matters shows exactly how Hemingway s craft functions and argues persuasively for the importance of studies of articulated technique to any meaningful understanding of fiction and literary history The book also develops vital new ways of understanding the short story genre as Lamb constructs a critical apparatus for analyzing the short story introduces to a larger audience ideas taken from practicing storywriters theorists and critics and coins new terms and concepts that enrich our understanding of the field

The Realist Short Story of the Powerful Glimpse Kerry McSweeney, 2007. An aesthetic perspective on the short fiction of Chekhov, Joyce, Hemingway, O'Connor, and Carver. Taking a distinctively aesthetic approach to the genre of realist short fiction, Kerry McSweeney clusters the work of five masters: Anton Chekhov, James Joyce, Ernest Hemingway, Flannery O'Connor, and Raymond Carver, to offer a poetics of the form for students and scholars. At the center of this argument is the notion that the realist short story is a glimpse, powerful and tightly focused, into a world that the writer must precisely craft and in which the reader must fully invest. Selecting writers from different generational, national, and cultural backgrounds, McSweeney chooses writers based on their commitment to the realist representation of experience and their shared belief in the importance and efficacy of the short story form. By considering their efforts in tandem, he develops a means to assess the strategies and claims of realist short fiction. McSweeney demonstrates that when the comments these writers have made about their work are assembled and critically scrutinized, the result is an aesthetic critical model as opposed to more interpretative models that focus attention on the determination or indetermination of meanings. He suggests that a fully adequate reading of a realist short story involves the integration of three components: the enjoyment and contemplation of the story in and of itself; affective receptivity or a response to the story's emotional content; and cognitive activity or the reflective consideration of the story's conceptual implications. In individual chapters on Chekhov, Joyce, Hemingway, O'Connor, and Carver, this presentational model is applied to widely known and often anthologized readings from each writer. McSweeney brings into sharp focus the distinctive features of each piece, makes qualitative discriminations, and assesses the profitability of other critical models. He concludes with an invitation to test the mettle of his approach in reading other realist short story writers.

Artificial Africa Ruth Mayer, 2002. A groundbreaking investigation of Western conceptions of Africa.

Vonnegut & Hemingway Lawrence R. Broer, 2012-07-23. A study of surprising similarities in their lives and works adds an important element to the existing discussion of two twentieth-century literary icons. *Studies in American Humor*. In this original comparative study of Kurt Vonnegut and Ernest Hemingway, Lawrence R. Broer maps the striking intersections of biography and artistry in works by both writers and compares the ways they blend life and art. Broer views Hemingway as the secret sharer of Vonnegut's literary imagination and argues that the two writers, traditionally considered as adversaries because of Vonnegut's rejection of Hemingway's emblematic hypermasculinism, inevitably address similar deterministic wounds in their fiction: childhood traumas, family insanity, deforming wartime experiences, and depression. Rooting his discussion in these psychological commonalities, Broer traces their personal and artistic paths by pairing sets of works and protagonists in ways that show the two writers not only addressing similar concerns but developing a response that, in the end, establishes an underlying kinship when it comes to the fate of the American hero of the twentieth century: Hemingway.

provided frequent fodder for Vonnegut inspiring a cadre of characters who celebrate war and death In his sardonic response to this vision of a Hemingwayesque world Vonnegut espoused kindness and restraint as moral imperatives against the more violent yearnings of human nature which Hemingway in turn embraced as stoic virile and heroic Though their paths were radically different Broer finds in both an overarching obsession with the scars of war as chief adversary in a personal quest for understanding and wholeness He locates in each writer s canon moments of spiritual awaking leading to literary evolution if not outright reinvention In their later works Broer detects an increasing recognition of redemptive feminine aspects in themselves and their protagonists pulling against the destructively tragic fatalism that otherwise dominates their worldviews Broer sees Vonnegut and Hemingway as fundamentally at war with themselves with one another s artistic visions and with the idea of war itself Against this onslaught he asserts they wrote as a mode of therapy and achieved literary greatness through combative opposition to the shadows that loomed so large around them
