New Guinea Journey Into The Stone Age:

New Guinea, 1990 **Journey Into the Stone Age** David Davies, 1969 *From 'Stone-Age' to 'Real-Time'* Martin Slama, Jenny Munro, 2015-04-24 There are probably no other people on earth to whom the image of the stone age is so persistently attached than the inhabitants of the island of New Guinea which is divided into independent Papua New Guinea and the western part of the island known today as Papua and West Papua *From Stone Age to Real Time* examines the forms of agency frictions and anxieties the current moment generates in West Papua where the persistent stone age image meets the practices and ideologies of the real time a popular expression referring to immediate digital communication The volume is thus essentially occupied with discourses of time and space and how they inform questions of hierarchy and possibilities for equality Papuans are increasingly mobile and seeking to rework inherited ideas institutions and technologies while also coming up against palpable limits on what can be imagined or achieved secured or defended This volume investigates some of these trajectories for the cultural logics and social or political structures that shape them The chapters are highly ethnographic based on in depth research conducted in diverse spaces within and beyond Papua These contributions explore topics ranging from hip hop to HIV AIDS to historicity filling much needed conceptual and ethnographic lacunae in the study of West Papua Journey Into Stone Age Malcolm S. The Land of the New Guinea Pygmies Cecil Godfrey Rawling,1913 **Hunting the Gatherers** Michael O'Hanlon,Robert Louis Welsch,2000 Between the 1870s and the 1930s competing European powers carved out and consolidated colonies in Melanesia the most culturally diverse region of the world As part of this process great assemblages of ethnographic artefacts were made by a range of collectors whose diversity is captured in this volume The contributors to this tightly integrated volume take these collectors and the collecting institutions as the departure point for accounts that look back at the artefact producing societies and their interaction with the collectors but also forward to the fate of the collections in metropolitan museums as the artefacts have been variously exhibited neglected re conceived as indigenous heritage or repatriated In doing this the contributors raise issues of current interest in anthropology Pacific history art history museology and material culture *Apostles of Modernity* Guy

Reynolds,2008-01-01 In a revisionist account that takes development as its main theme Guy Reynolds charts the responses of

novelists travel writers and literary intellectuals to America's deepening engagement in world affairs following World War II. *Apostles of Modernity* offers an original in-depth study of the literary manifestations of this period of globalism in novels, memoirs, essays, reportage, and political commentary. Through close readings of texts, Reynolds revisits and reassesses U.S. internationalism, showing how writers and intellectuals engaged with a cluster of topics: decolonization, the rise of the Third World, Islamic difference, the end of European empires, China's enduring significance, and transatlantic and cosmopolitan identities. A contribution to the study of literary internationalism, *Apostles of Modernity* establishes new paradigms for understanding America's place in the world and the world's place in America.
