Popular Politics in the History of South Africa, 1400–1948 Paul S. Landau, 2010-09-20

Popular Politics in the History of South Africa 1400 1948 offers an inclusive vision of South Africa's past. Drawing largely from original sources, Paul Landau presents a history of the politics of the country's people from the time of their early settlements in the elevated heartlands through the colonial era to the dawn of Apartheid. A practical tradition of mobilization, alliance and amalgamation persisted, mutated and occasionally vanished from view; it survived against the odds in several forms in tribalisms, Christian assemblies and other seemingly hybrid movements, and it continues today. Landau treats southern Africa broadly, concentrating increasingly on the southern Highveld and ultimately focusing on a transnational movement called the Samuelites. He shows how people's politics in South Africa were suppressed and transformed but never entirely eliminated.

A Short History of South Africa Gail Nattrass, 2017-11-16

South Africa is popularly perceived as the most influential nation in Africa, a gateway to an entire continent for finance, trade and politics and a crucial mediator in its neighbours' affairs. On the other hand, post-Apartheid dreams of progress and reform have in part collapsed into a morass of corruption, unemployment and criminal violence. A Short History of South Africa is a brief, general account of the history of this most complicated and fascinating country from the first evidence of hominid existence to the wars of the 18th, 19th and 20th centuries that led to the establishment of modern South Africa, the horrors of Apartheid and the optimism following its collapse, as well as the prospects and challenges for the future. This readable and thorough account, illustrated with maps and photographs, is the culmination of a lifetime of researching and teaching the broad spectrum of South African history. Nattrass's passion for her subject shines through whether she is elucidating the reader on early humans in the cradle of humankind or describing the tumultuous twentieth-century processes that shaped the democracy that is South Africa today.

Police Integrity in South Africa Sanja Kutnjak Ivkovich, Adri Sauerman, 2020-04-29

Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement. In 1994, as the country's apartheid system was replaced with a democratic order, the new government faced the significant challenge of transforming the South African police force into a democratic police agency, the South African Police Service (SAPS), that would provide unbiased policing to all the country's people. More than two decades since the initiation of the reforms, it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity. This book offers a unique perspective by providing in-depth analyses of police integrity in South Africa. It is a case study that systematically and empirically explores the contours of police integrity in a young democracy. Using the organizational theory of police integrity, the book analyzes the complex set of historical, legal, political, social and economic circumstances shaping police integrity. A discussion of the theoretical framework is accompanied by the results of a

nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules their expectations of discipline within the SAPS and their willingness to report misconduct The book also examines the influence of the respondents race gender and supervisory status on police integrity Written in a clear and direct style this book will appeal to students and scholars of criminology policing sociology political science as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations **New Nation, New History** ,1989 *One Law, One Nation* Lauren Segal, Sharon Cort, 2011 Charts the story of the long fight for constitutional rights in South Africa and the obstacles and complexity the lay behind the constitution making process after 1990 Uses archival photographic and interview material to provide a popular account of the development of the constitution and the role of the Constitutional Court

Who's Who in Modern History Alan Palmer, 2019-05-07 Who s Who in Modern History is a unique reference book which examines those individuals who have shaped the political world since 1860 Coverage is truly global including the most important figures in Europe Asia North America Latin America Africa and Australasia It provides an easy to use A Z layout authoritative detailed biographies of the most important figures since 1860 from Clemenceau and Chief Buthelezi to King Fahd and Benazir Bhutto bibliographical references for each entry to aid further research extensive cross referencing an essential guide for students researchers and the general reader alike
