Gruber,2015-09-30 This book is a volume in the Penn Press Anniversary Collection To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1 100 titles from Penn Press s distinguished backlist from 1899 1999 that had fallen out of print Spanning an entire century the Anniversary Collection offers peer reviewed scholarship in a wide range of subject areas A Systems View Of Man Ludwig von Bertalanffy,2019-04-08 What does it mean to be human What distinguishes man from other animals Man s creation of the universe of symbols replies Ludwig von Bertalanffy Man lives in a world not of things but of symbols Dr von Bertalanffy explores the historical development of symbolic language examines the nature of human values and shows how a current breakdown of symbolic universes contributes to the feeling of meaninglessness so prevalent in modern society He notes that a major portion of mankind s aggressive acts are not biologically induced but arise within symbolic frameworks Martin Luther King Jr. and the Sermonic Power of Public Discourse Carolyn Calloway-Thomas,John Louis Lucaites,2005-07-10 Critical studies of the range of King s public discourse as forms of sermonic rhetoric The nine essays in this volume offer critical studies of the range of King s public discourse as forms of sermonic rhetoric They focus on five diverse and relative short examples from King s body of work Death of Evil on the Seashore Letter from Birmingham Jail I Have a Dream A Time to Break Silence and I ve Been to the Mountaintop Taken collectively these five works span both the duration of King s career as a public advocate but also represent the broad scope of his efforts to craft and project a persuasive vision a beloved community that persists through time **Killer Instinct** Nadine Weidman,2021-10-19 A historian of science examines key public debates about the fundamental nature of humans to ask why a polarized discourse about nature versus nurture became so entrenched in the popular sciences of animal and human behavior Are humans innately aggressive or innately cooperative In the 1960s bestselling books enthralled American readers with the startling claim that humans possessed an instinct for violence inherited from primate ancestors Critics responded that humans were inherently loving and altruistic The resulting debate fiercely contested and highly public left a lasting impression on the popular science discourse surrounding what it means to be human Killer Instinct traces how Konrad Lorenz Robert Ardrey and their followers drew on the sciences of animal behavior and paleoanthropology to argue that the aggression instinct drove human evolutionary progress Their message spread throughout popular media brought pointed ripostes Led by the anthropologist Ashley Montagu opponents presented a rival vision of human nature equally based in biological evidence that humans possessed inborn drives toward love and cooperation Over the course of the debate however each side accused the other of holding an extremist position that behavior was either determined entirely by genes or shaped solely by environment Nadine Weidman shows that what started as a dispute over the innate tendencies of animals and humans transformed into an opposition between nature and nurture This polarized formulation proved powerful When E O Wilson introduced his sociobiology in 1975 he tried to rise above the oppositional terms of the aggression debate But the controversy over Wilson s work led by critics like the feminist biologist Ruth Hubbard was ultimately absorbed back into the

nature versus nurture formulation Killer Instinct explores what happens and what gets lost when polemics dominate discussions of the science of human nature A STUDY OF VALUES OF SECONDARY SCHOOL TEACHERS IN RELATION TO THEIR COMPETENCE, ATTITUDE TOWARDS PROFESSION AND PERSONALITY Prin. Ganapur,2019-06-06 Value is something which pervades everything It determines the meaning of the world as a whole as well as the meaning of every person every event and every action Even the smallest change introduced into the world by an agent has a value and is undertaken only on the ground and for the sake of some value moments Everything that exists and even everything that may exist or in anyway belong to the composition of the world is of such nature that it not only exists but also contains within itself either the justification or condemnation of its being It can be said of everything that is either good or bad it can be said whether it must or must not be or that it ought not to exist that its existence is right or wrong not in the judicial sense This is the view expressed by Lossky and Marshall in the year 1935 in presenting the broad view of values **Values, Lifestyles, and Psychographics** Lynn R. Kahle,Larry Chiagouris,2014-03-05 This book showcases papers presented at the annual Advertising and Consumer Psychology Conference The contributors active scholars with both practitioner and academic backgrounds share an interest in the general area of psychographics values and lifestyle in advertising The interdisciplinary and international mix of authors bring a diverse perspective to this volume which is divided into four nonorthogonal sections The first section deals with theoretical and conceptual issues in advertising research while the second section presents chapters devoted to improving methodology The final two sections illustrate how value lifestyle and psychographic research have been used to understand differences among people The first of these final two sections emphasizes differences among people at different times commonly called trend research and the second emphasizes differences among people across national boundaries Collectively these chapters illustrate how practical state of the art research in values lifestyles and psychographics can be Thoughtful consideration of values lifestyles and psychographics as they are manifested in quality research can improve advertising and marketing practice and can help the business community deliver products and services that are more in line with consumers needs **Value Profiles Of School**

Students R.K. Patro,2003 Contents Conceptual Analysis of Values Socio Cultural and Psychological Bases of Value Development Review of the Literature Context of the Study Design of the Study Analysis and Interpretation of Data Summary and Conclusions **Value Theory** Deshun Li,2013-07-12 Humankind s progress has always been driven by two momentums the pursuit of truth and the creation of value But our understanding of value and our ability to reflect on its complexity has long lagged behind our constant search for truth This has in turn limited our grasp of the essence of truth This book takes philosophical contemplations on value to a new level while also explicating some contemporary Chinese styles of philosophical thought Over the past 25 years this book has been having an increasing impact on Chinese readers and researchers and it also provides a good platform for international dialogue on several key issues of philosophical studies

Information Modelling and Knowledge Bases XXVII T. Welzer, H. Jaakkola, B. Thalheim, 2016-02-04 Information modeling has become an increasingly important topic for researchers designers and users of information systems In the course of the last three decades information modeling and knowledge bases have become essential not only with regard to information systems and computer science in an academic context but also with the use of information technology for business purposes This book presents 29 papers selected and upgraded from those delivered at the 25th International Conference on Information Modelling and Knowledge Bases EJC 2015 held in Maribor Slovenia in June 2015 The aim of the conference is to bring together experts from different areas of computer science and other disciplines including philosophy and logic cognitive science knowledge management linguistics and management science with a view to understanding and solving problems and applying research results to practice Areas covered by the papers include conceptual modeling knowledge and information modeling and discovery linguistic modeling cross cultural communication and social computing environmental modeling and engineering and multimedia data modeling and systems The book will be of interest to all those whose work involves the development or use of information modeling and knowledge bases **Religions Values and Peak-Experiences** Abraham H. Maslow, 2021-11-09T16:42:00Z One of the foremost spokesmen for the Third Force movement in psychology Abraham H Maslow here articulates one of his prominent theses the religious experience is a rightful subject for scientific investigation and speculation and conversely the scientific community will see its work enhanced by acknowledging and studying the species wide need for spiritual expression which in so many forms is at the heart of peak experiences reached by healthy fully functioning people **Research in Value Education** N.
