New Directions in African Education S. Nombuso Dlamini, 2008 A collection of essays which critically examines education in the African context and presents possible courses of action to reinvent its future **New Directions in Childhood**

Studies James M. Curtis, 2024-01-04 *New Directions in Childhood Studies Innocence Trauma and Agency in the Twenty first Century* acknowledges that the conceptual frameworks for understanding the experience of childhood in the twentieth century are no longer adequate and offers important updates to the construct of American childhood The chapters in this collection examine contemporary children's literature film and video games to explore the ways in which everyday realities like trauma disaster and death impact the experience of childhood in America today In many ways the essays show the narratives blur traditional lines between children's and adult content taking children series as subjects while also guiding

them through the processes of dealing with the particular challenges Collectively the essays develop a more contemporary construct of the American child and offer new insights into what that construction might mean for contemporary American society and culture

New Directions in Bioprocess Modeling and Control Michael A. Boudreau, Gregory K. McMillan, 2007 Models offer benefits even before they are put on line Based on years of experience the authors reveal in New Directions in Bioprocess Modeling and Control that significant improvements can result from the process knowledge and insight that are gained when building experimental and first principle models for process monitoring and control Doing modeling in the process development and early commercialization phases is advantageous because it increases process efficiency and provides ongoing opportunities for improving process control This technology is important for maximizing benefits from analyzers and control tool investments If you are a process design quality control information systems or automation engineer in the biopharmaceutical brewing or bio fuel industry this handy resource will help you define develop and apply a virtual plant model predictive control first principle models neural networks and multivariate statistical process control The synergistic knowledge discovery on bench top or pilot plant scale can be ported to industrial scale processes This learning process is consistent with the intent in the Process Analyzer and Process Control Tools sections of the FDA's Guidance for Industry PAT _ A Framework for Innovative Pharmaceutical Development Manufacturing and Quality Assurance It states in the Process Analyzer section of the FDA's guidance _For certain applications sensor based measurements can provide a useful process signature that may be related to the underlying process steps or transformations Based on the level of process understanding these signatures may also be useful for the process monitoring control and end point determination when these patterns or signatures relate to product and process quality _

New Directions in Knitting Jeanne Stauffer, 2003 Get ready for some fun Try these unusual knitting techniques for stitching sweaters Start at one cuff and knit to the other cuff Or start at the shoulders and knit down to the

A New Direction for China's Defense Industry Evan S. Medeiros, Roger Cliff, Keith Crane, James C. Mulvenon, 2005-12-19 Since the early 1980s a prominent and consistent conclusion drawn from research on China's defense industrial complex has been that China's defense production capabilities are rife with weaknesses and limitations This study argues for an alternative approach From the vantage point of 2005 it is time to shift the focus of current research to the gradual improvements in and the future potential of China's defense industrial complex The study found that China's defense sectors are designing and producing a wide range of increasingly advanced weapons that in the short term are relevant to a possible conflict over Taiwan but also to China's long term military presence in Asia Part of a larger RAND Project AIR FORCE study on Chinese military modernization this study examines the current and future capabilities of China's defense industry The goals of this study are to 1

New Directions in Spatial Econometrics Luc Anselin, Raymond

Florax, 2012-12-06 The field of spatial econometrics which is concerned with statistical and econometric techniques to be used to handle spatial effects in multiregional models was first touched upon in the 1950s It was given its name in the early 70s by Jean Paelinck and has expanded since Its development can be monitored in various monographs that have been published since starting with the seminal work by Andrew Cliff and Keith Ord Also the wide array of journals in which contributions to spatial econometrics have been published shows that the relevance of the field is not restricted to regional science but extends to geography spatial statistics biology psychology political science and other social sciences This volume contains a collection of papers that were presented at special sessions on spatial econometrics organized in the context of the European and North American conferences of the Regional Science Association International that took place in Louvain la Neuve August 25-28 1992 and in Houston November 11-14 1993 respectively Apart from these conference papers some contributions were written especially for this volume The central idea of this book is to communicate the state of the art of spatial econometrics and to offer a number of new directions for future research In order to do so the editors sought contributions of leading scholars currently active in this field

A Novel Marketplace Evan Brier, 2012-02-25

As television transformed American culture in the 1950s critics feared the influence of this newly pervasive mass medium on the nation's literature While many studies have addressed the rhetorical response of artists and intellectuals to mid twentieth century mass culture the relationship between the emergence of this culture and the production of novels has gone largely unexamined In *A Novel Marketplace* Evan Brier illuminates the complex ties between postwar mass culture and the making marketing and reception of American fiction Between 1948 when television began its ascendancy and 1959 when Random House became a publicly owned corporation the way American novels were produced and distributed changed considerably Analyzing a range of mid century novels including Paul Bowles's *The Sheltering Sky* Ray Bradbury's *Fahrenheit 451* Sloan Wilson's *The Man in the Gray Flannel Suit* and Grace Metalious's *Peyton Place* Brier reveals the specific strategies used to

carve out cultural and economic space for the American novel just as it seemed most under threat During this anxious historical moment the book business underwent an improbable expansion by capitalizing on an economic boom and a rising population of educated consumers and by forming institutional alliances with educators and cold warriors to promote reading as both a cultural and political good A Novel Marketplace tells how the book trade and the novelists themselves successfully positioned their works as embattled holdouts against an oppressive mass culture even as publishers formed partnerships with mass culture institutions that foreshadowed the multimedia mergers to come in the 1960s As a foil for and a partner to literary institutions mass media corporations assisted in fostering the novel's development as both culture and commodity

Atlantic Republic Paul Giles, 2006-11-23 *Atlantic Republic* traces the legacy of the United States both as a place and as an idea in the work of English writers from 1776 to the present day Seeing the disputes of the Reformation as a precursor to this transatlantic divide it argues that America has operated since the Revolution as a focal point for various traditions of dissent within English culture By ranging over writers from Richard Price and Susanna Rowson in the 1790s to Angela Carter and Salman Rushdie at the turn of the twenty first century the book argues that America haunts the English literary tradition as a parallel space where ideology and aesthetics are configured differently Consequently it suggests many of the key episodes in British history parliamentary reform in the 1830s the imperial designs of the Victorian era the twentieth century conflict with fascism the advance of globalization since 1980 have been shaped by implicit dialogues with American cultural models Rather than simply reinforcing the benign myth of a special relationship Paul Giles considers how various English writers over the past 200 years have engaged with America for various complicated reasons its promise of political republicanism Byron Mary Shelley its emphasis on religious disestablishment Clough Gissing its prospect of pastoral regeneration Ruxton Lawrence its vision of scientific futurism Huxley Ballard The book also analyses the complex cultural relations between Britain and the United States around the time of the Second World War suggesting that writers such as Wodehouse Isherwood and Auden understood the United States and Germany to offer alternative versions of the kind of technological modernity that appeared equally hostile to traditional forms of English culture The book ends with a consideration of ways in which the canon of English literature might appear in a different light if seen from a transnational rather than a familiar national perspective

Credible and Actionable Evidence Stewart I. Donaldson, Christina A. Christie, Melvin M. Mark, 2014-09-10 Addressing one of the most important and contentious issues challenging applied research and evaluation practice today what constitutes credible and actionable evidence this volume offers a balanced and current context in which to analyze the long debated quantitative qualitative paradigms In the Second Edition the contributors a veritable who's who in evaluation discuss the diversity and changing nature of credible and actionable evidence offer authoritative guidance about using credible and actionable evidence explain how to use it to provide rigorous and influential evaluations and include lessons from their own applied research and evaluation to suggest ways to address the key issues and challenges Reflecting

the latest developments in the field and covering both experimental and non experimental methods the new edition includes revised and updated chapters summaries of strengths and weaknesses across varied approaches and contains diverse definitions of evidence Also included are two new chapters on assessing credibility and synthesizing evidence for policy makers This is a valuable resource for students and others interested in how to best study and evaluate programs policies organizations and other initiatives designed to improve aspects of the human condition and societal well being

New Directions in Judicial Politics Kevin T. McGuire,2012-03-15 With its often vague legal concepts and institutions that operate according to unfamiliar procedures judicial decision making is in many respects a highly enigmatic process *New Directions in Judicial Politics* seeks to demystify the courts offering readers the insights of empirical research to address questions that are of genuine interest to students In addition to presenting a set of conclusions about the way in which courts operate this book also models the craft of political research illustrating how one can account for a variety of factors that might affect the courts and how they operate The renowned scholars and teachers in this volume invite critical thinking not only about the substance of law and courts in America but also about the ways in which we study judicial politics
